(57) **CLAIM**

The ornamental design for a display device with graphical user interface for a combined weighing instrument, as shown and described.

**DESCRIPTION**

FIG. 1 illustrates a graphical state of a graphical user interface displayed on a display device associated with a combined weighing instrument.

The dashed lines of FIG. 1 illustrate unclaimed graphical user interface elements. The dot-dashed lines in FIG. 1 illustrate a display device for a combined weighing instrument, upon which a graphical user interface is displayed with the graphical state illustrated in FIG. 1 for carrying out various operations of the combined weighing instrument. The broken lines form no part of the claimed design.
