(57) **CLAIM**

The ornamental design for a display screen of a biological safety cabinet with graphical user interface, as shown and described.

DESCRIPTION

The file of this patent or application contains at least one drawing executed in color. Copies of this patent or parent application publication with color drawings will be provided by the Office upon request and payment of the necessary fee. The drawing FIGURE is a front view, in color, of a display screen of a biological safety cabinet with graphical user interface.

The outer edge of the display screen is understood to be congruent with the outer edge of the graphical user interface.
