(57) **CLAIM**

The ornamental design for an portion of a display screen with
icon, as shown and described.

DESCRIPTION

Concurrently filed design applications including at least the
first two above-named applicants are directed to other icons
envisioned to be shown on a display screen under the control
of a microprocessor.

The FIGURE is a front view of an portion of a display screen
with icon showing our new design.

The broken lines shown in the figure illustrates a portion of
the display screen that forms no part of the claimed design.

One interpretation of the icon is that it shows a hazelnut.
