FIG. 1 is a perspective view of a horizontal cylindrical wire basket partially covered with a fabric filter material for protecting a culvert pipe inlet from accumulated sediment showing my new design;

FIG. 2 is a top view thereof;

FIG. 3 is a side view thereof, the opposite side view being a mirror image;

FIG. 4 is a bottom view thereof;

FIG. 5 is an end view thereof; and,

FIG. 6 is an opposite end view thereof.

The cross-line pattern, which is partially shown for ease of illustration, represents a conventional fabric and is understood to repeat uniformly throughout the indicated area. The inlet end portion of a culvert pipe shown in phantom in FIG. 1 is for illustrative purpose only and forms no part of the claimed design.
