(57) **CLAIM**

We claim the ornamental design of a trash collecting device, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a top piece of a trash collecting device showing the invention;

FIG. 2 is a perspective view of a bottom ring of the trash collecting device showing the invention;

FIG. 3 is a top plan view of the top piece of the invention;

FIG. 4 is a bottom plan view of the top piece of the invention;

FIG. 5 is a front elevational view of the top piece of the invention;

FIG. 6 is a left side elevational view of the top piece of the invention, the right side view would be a mirror image thereof;

FIG. 7 is rear elevational view of the top piece of the invention;

FIG. 8 is a top plan view of the bottom ring of the invention;

FIG. 9 is a front elevational view of the bottom ring of the invention;

FIG. 10 is a left side elevational view of the bottom ring of the invention, the right side view would be a mirror image thereof;

FIG. 11 is a rear elevational view of the bottom ring of the invention;

FIG. 12 is a bottom plan view of the bottom ring of the invention;

FIG. 13 is a perspective view of the assembled trash collecting device of the invention with the bottom ring inserted within the top piece; and,

FIG. 14 is a bottom plan view of the assembled trash collecting device of the invention with the bottom ring inserted within the top piece.

The broken lines defining the protrusions of the top piece and the groove of the bottom ring are shown for illustrative purposes only and form no part of the claimed design.

The top piece and the bottom ring of the trash collecting device have been shown separately in FIGS. 1 through 12 for convenience of illustration.
