(57) **CLAIM**

I claim the ornamental design for crayfish bait design with articulated tail, as shown and described.

DESCRIPTION

FIG. 1 is a left side view of a crayfish bait design with articulated tail according to an embodiment of my design; FIG. 2 is a top view of a portion of the design shown in FIG. 1; FIG. 3 is a right side view of a portion of the design shown in FIG. 1; FIG. 4 is a left-back perspective view of a portion of the design shown in FIG. 1; FIG. 5 is a back view of the design shown in FIG. 1; FIG. 6 is a left-front perspective view of the design of FIG. 1; FIG. 7 is a side view depicting the movement of the bait and the articulated tail; FIG. 8 is a side view depicting an alternate movement of the bait and the articulated tail; FIG. 9 is a side view depicting an alternate movement of the bait and the articulated tail; FIG. 10 is another side view depicting an alternate movement of the bait and the articulated tail; and, FIG. 11 is a side view depicting an alternate movement of the bait and the articulated tail.

The broken lines in the drawings depict parts of the portion of crayfish bait design with articulated tail design that are not part of the claim. The broken lines and the structures and features they depict form no part of the claimed design.
