(57) **CLAIM**

The ornamental design for a specimen collection container
having a label and a closure, as shown and described.

DESCRIPTION

FIG. 1 is a top-directed perspective view of a specimen col-
lection container having a label and a closure disposed there-
with in accordance with the present invention.

FIG. 2 is a frontward-directed perspective view of the speci-
men collection container having a label and a closure dis-
posed therewith of FIG. 1.

FIG. 3 is a bottom-directed perspective view of the specimen
collection container having a label and a closure disposed
therewith of FIG. 1.

FIG. 4 is a front view of the specimen collection container
having a label and a closure disposed therewith of FIG. 1.

FIG. 5 is a rear view of the specimen collection container
having a label and a closure disposed therewith of FIG. 1.

FIG. 6 is a left side view of the specimen collection container
having a label and a closure disposed therewith of FIG. 1.

FIG. 7 is a right side view of the specimen collection con-
tainer having a label and a closure disposed therewith of FIG.

1.

FIG. 8 is a top view of the specimen collection container
having a label and a closure disposed therewith of FIG. 1; and,
FIG. 9 is a bottom view of the specimen collection container
having a label and a closure disposed therewith of FIG. 1.

The broken lines in the drawing views are included for the
purpose of illustrating portions of the specimen collection
container having a label and a closure that form no part of the
claimed design.
