(57) **CLAIM**

The ornamental design for a skate boot tongue, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view taken from a front, right side of a skate boot tongue according to a first embodiment of my design;

FIG. 2 is a front elevation view thereof;

FIG. 3 is a perspective view taken from a front, left side thereof;

FIG. 4 is a right side elevation view thereof;

FIG. 5 is a left side elevation view thereof;

FIG. 6 is a perspective view taken from a front, right side thereof shown on a skate boot shown in dotted lines;

FIG. 7 is a perspective view taken from a front, left side of a skate boot tongue according to a second embodiment of my design;

FIG. 8 is a front elevation view thereof;

FIG. 9 is a perspective view taken from a front, right side thereof;

FIG. 10 is a left side elevation view thereof;

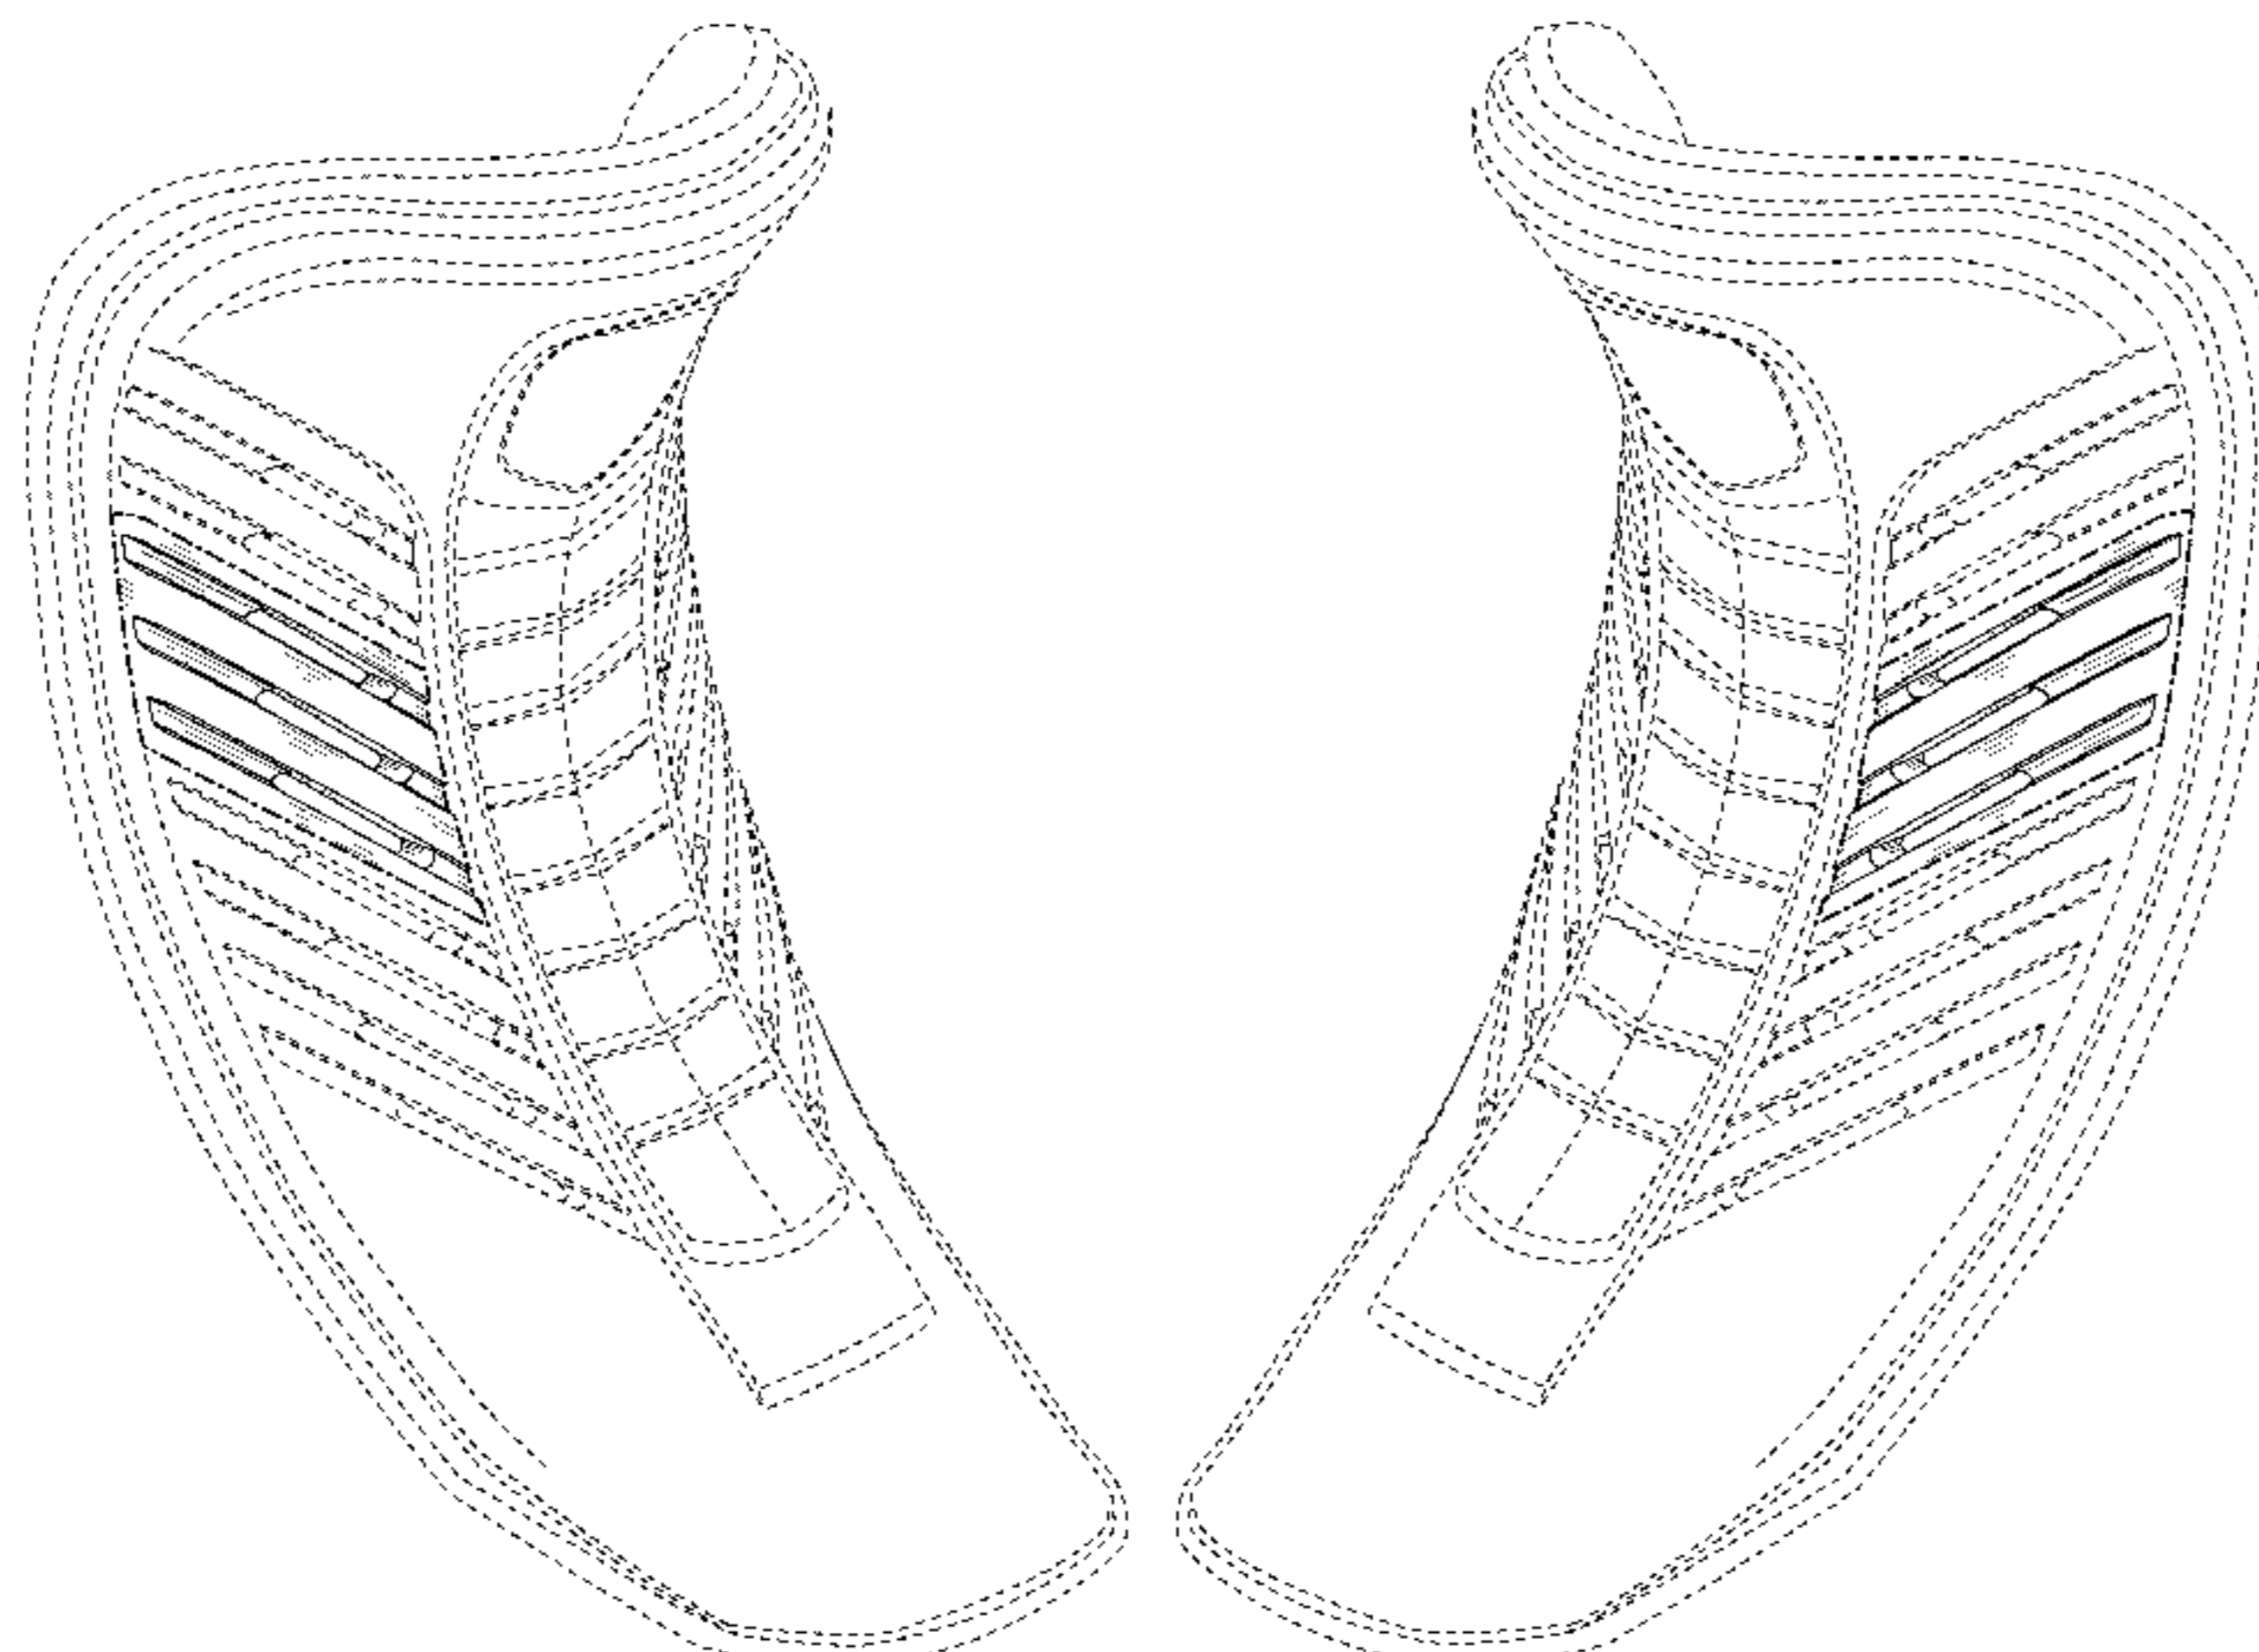

FIG. 11 is a right side elevation view thereof; and,

FIG. 12 is a perspective view taken from a front, left side thereof shown on a skate boot shown in dotted lines.

Throughout the Figures, where shown: (i) the broken lines showing additional structure of the skate boot tongue and the skate boot on which it is shown are for illustrative purposes only and form no part of the claimed design; and (ii) in FIGS. 1 to 12 inclusively, the dotted/dashed lines adjacent shaded surfaces represent unclaimed boundaries of the claimed design. Portions of the skate boot tongue not shown in the Figures and not otherwise described in this Specification do not form part of the claimed design.

Throughout the Figures, the unshaded surfaces do not form part of the claimed design. The inventor considers that all surfaces hidden by either parts of the claimed design or unclaimed elements, surfaces or surface treatments shown in dotted or dotted/dashed lines are generally flat surfaces or surfaces having no particular configuration other than the configuration expected from the underlying surface hidden by such parts of the claimed design or unclaimed elements, surfaces or surface treatments considering the configuration of the other surfaces surrounding such parts of the claimed design or unclaimed elements, surfaces or surface treatments.
