(57) **CLAIM**

I claim the ornamental design for a drinking spout, as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of the first embodiment of a drinking spout;

FIG. 2 is a bottom perspective view of the drinking spout of the first embodiment according to the present invention;

FIG. 3 is a back elevation view of the drinking spout of the first embodiment according to the present invention;

FIG. 4 is a right side elevation view of the drinking spout of the first embodiment according to the present invention, the left side being a mirror image;

FIG. 5 is a front elevation view of the drinking spout of the first embodiment according to the present invention;

FIG. 6 is a top planar view of the drinking spout of the first embodiment according to the present invention;

FIG. 7 is a cross-sectional view of the drinking spout of the first embodiment according to the present invention;

FIG. 8 is a bottom planar view of the drinking spout of the first embodiment according to the present invention;

FIG. 9 is a top perspective view of a further embodiment of a drinking spout;

FIG. 10 is a bottom perspective view of the drinking spout of the further embodiment according to the present invention;

FIG. 11 is a back elevation view of the drinking spout of the further embodiment according to the present invention;

FIG. 12 is a right side elevation view of the drinking spout of the further embodiment according to the present invention, the left side being a mirror image;

FIG. 13 is a front elevation view of the drinking spout of the further embodiment according to the present invention;

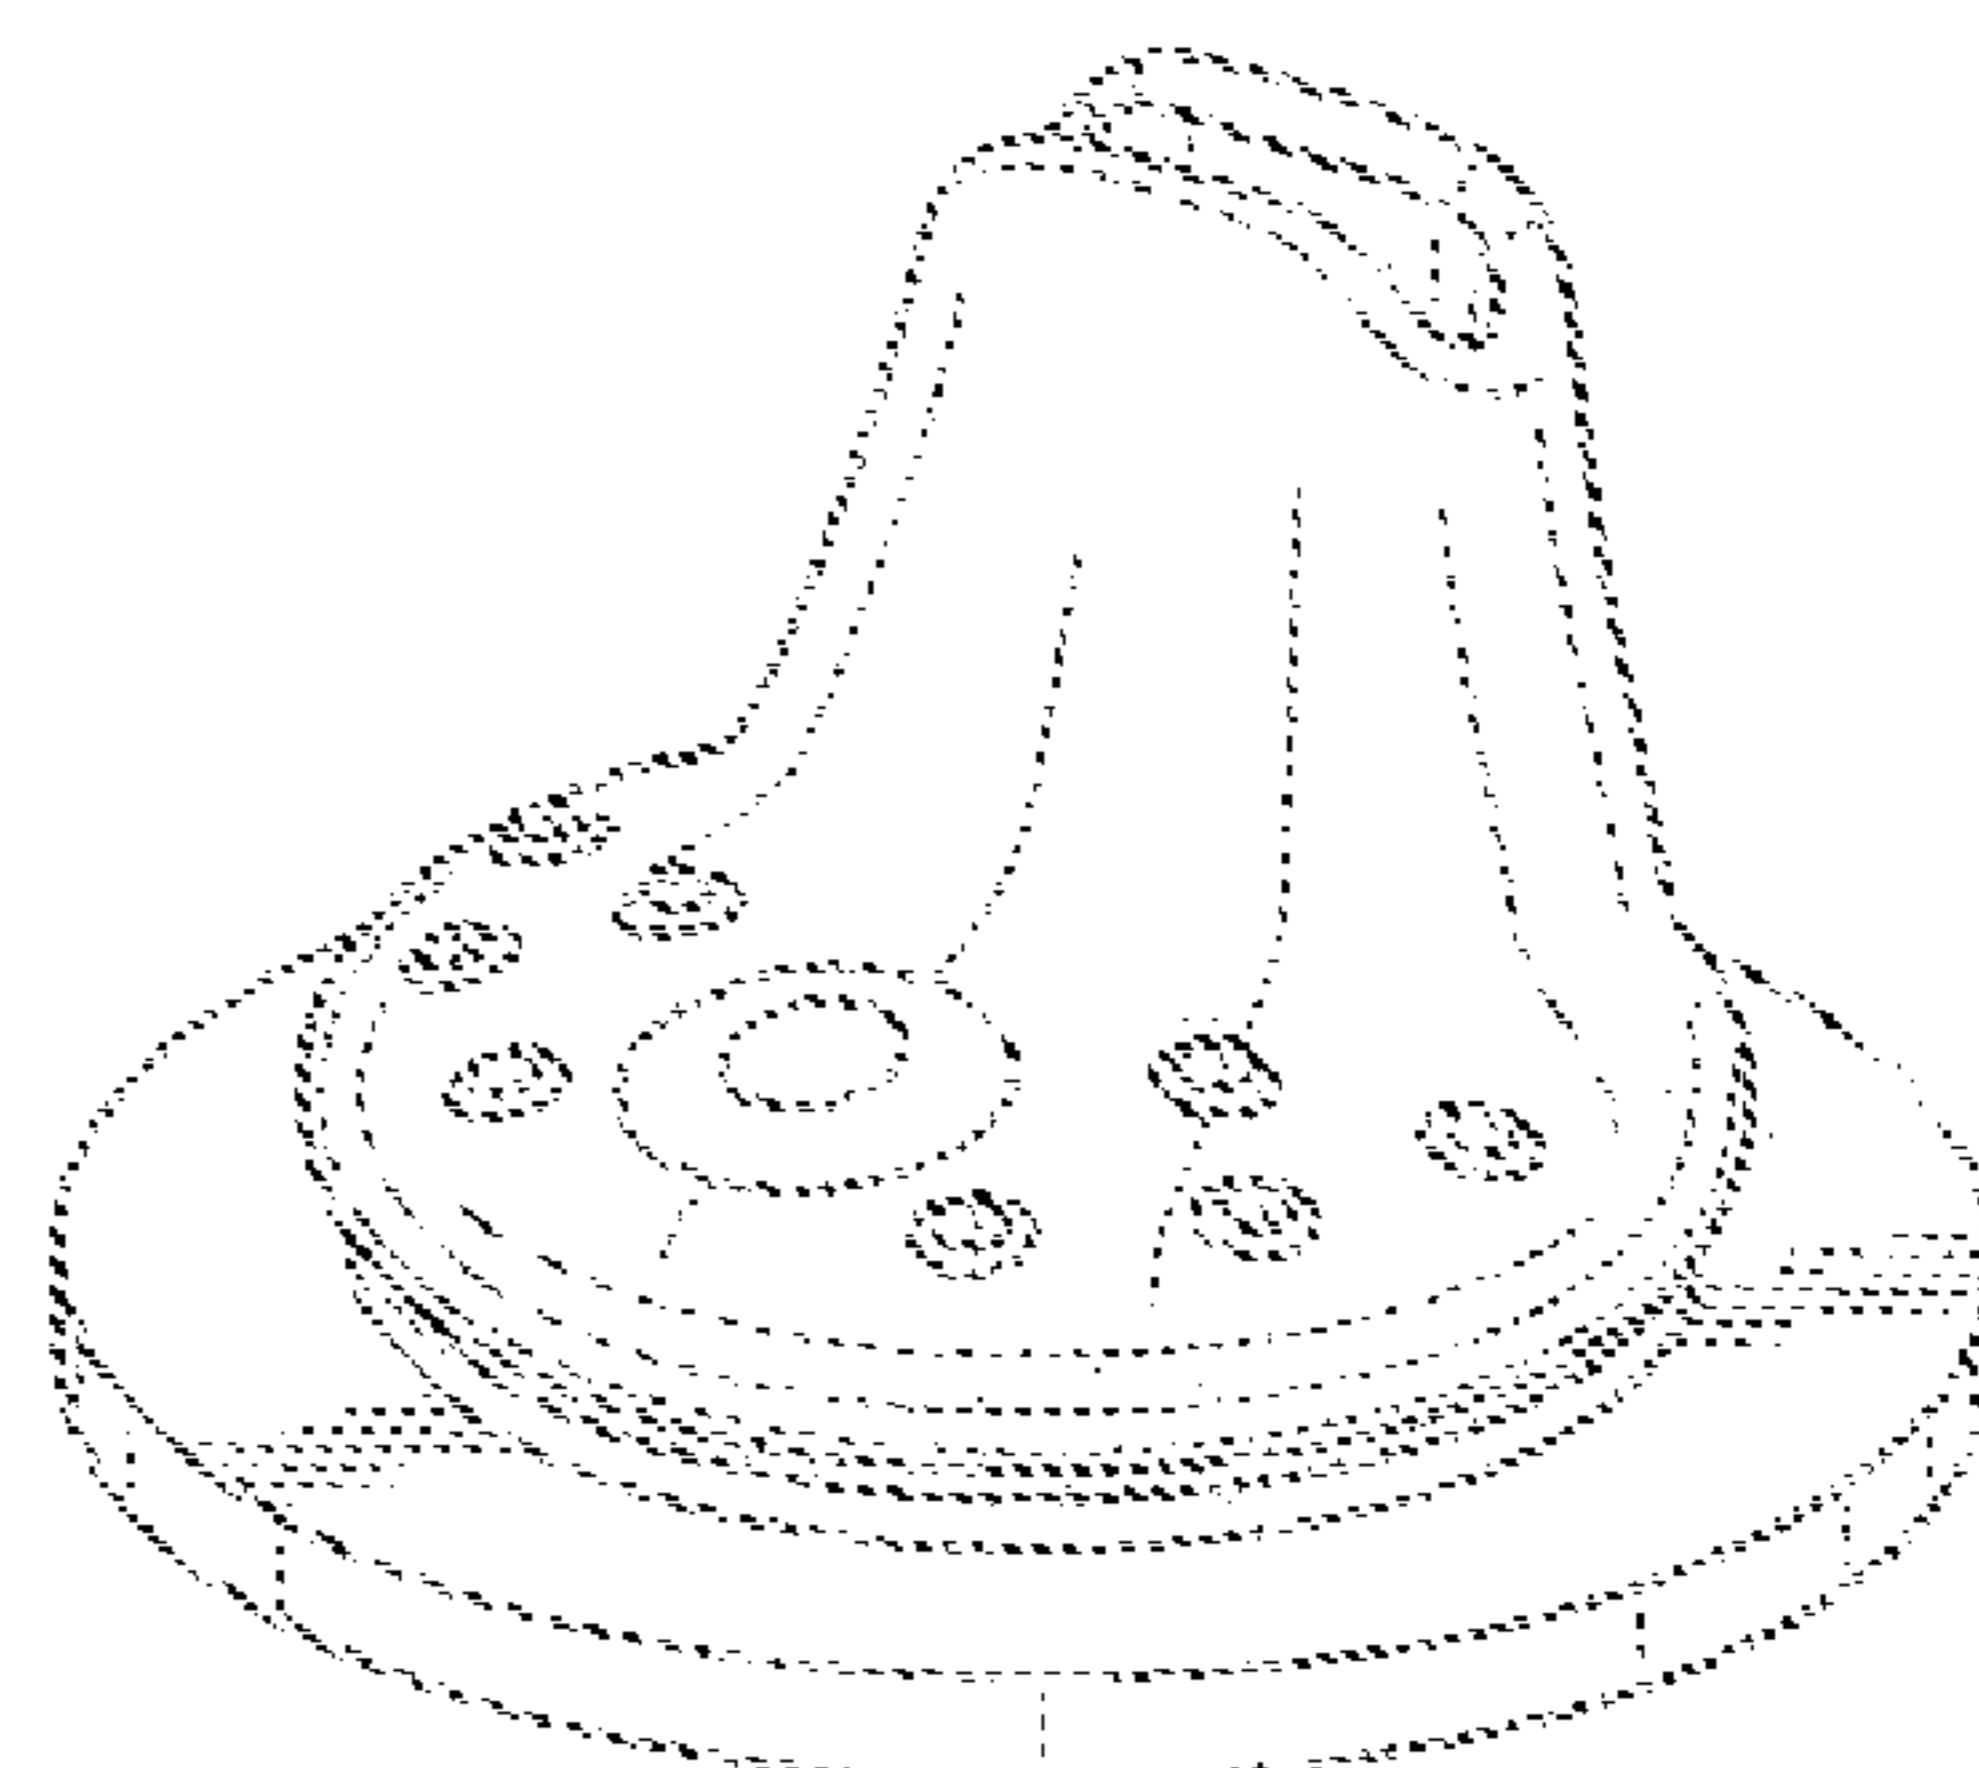

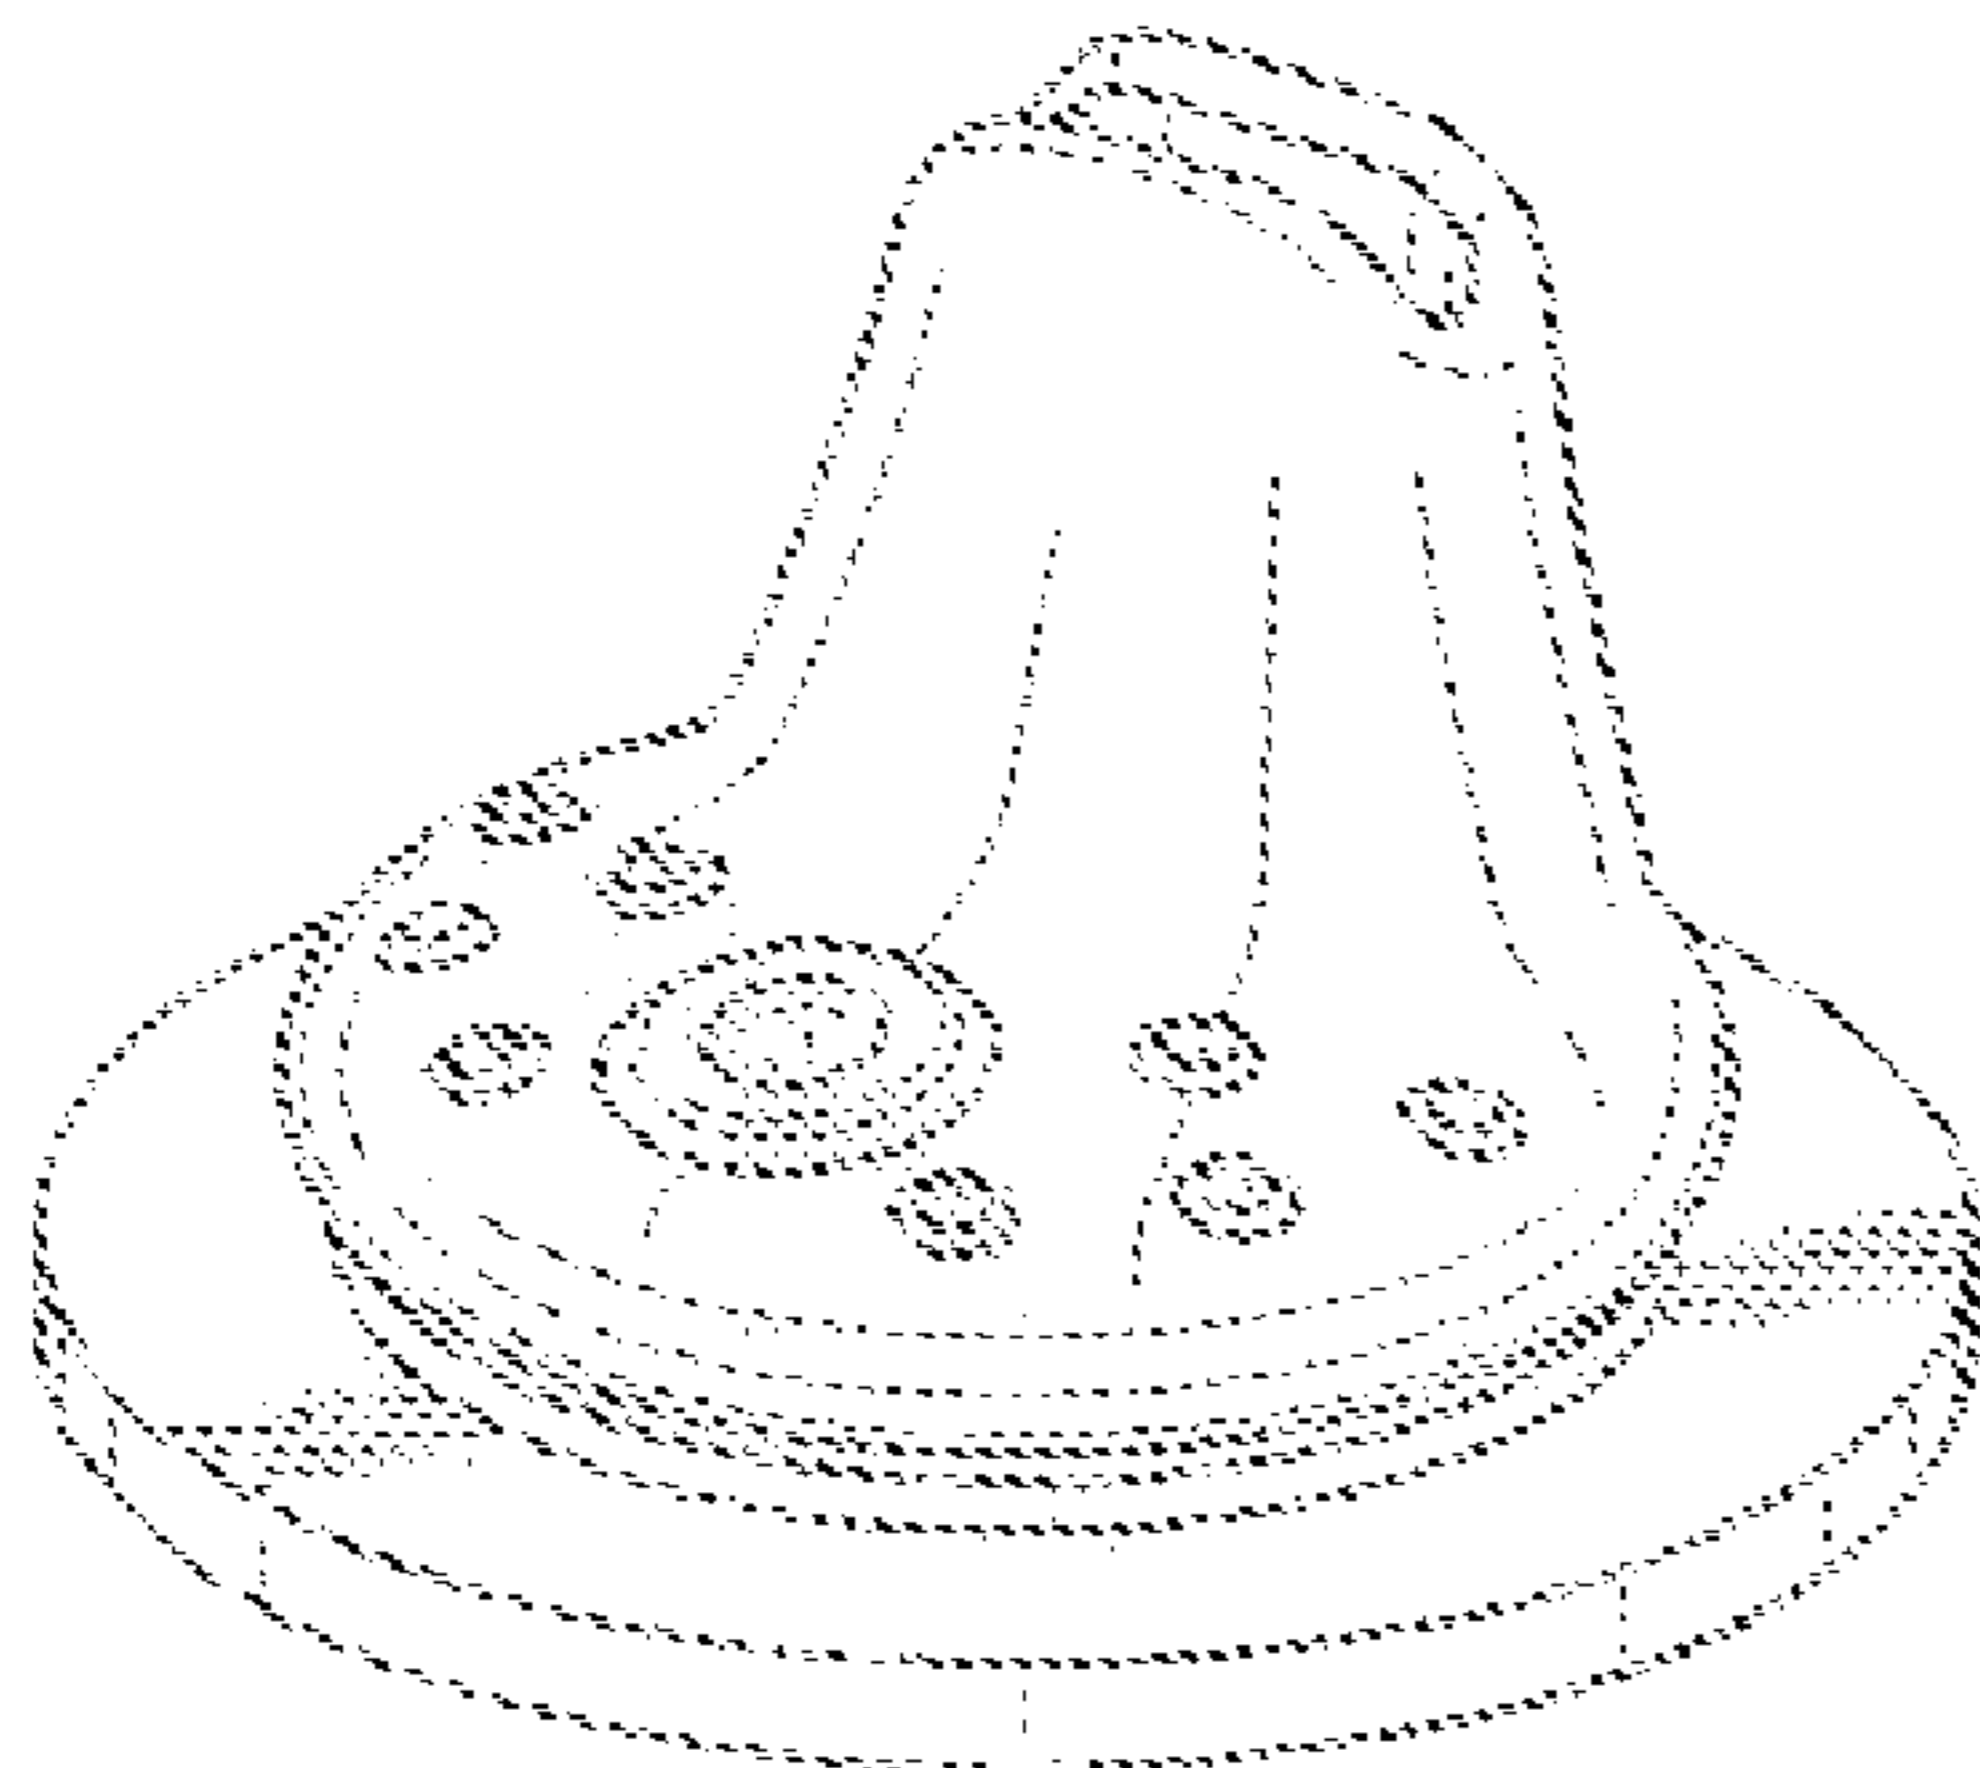

FIG. 14 is a top planar view of the drinking spout of the further embodiment according to the present invention;

FIG. 15 is a cross-sectional view of the drinking spout of the further embodiment according to the present invention; and,

FIG. 16 is a top planar view of the drinking spout of the further embodiment according to the present invention.

In the drawings FIGS. 9-16, the broken lines showing what could be an opening or not an opening represent features of the device that form no part of the claimed design.
