(57) **CLAIM**

The ornamental design for a touch keypad for a display screen, as shown and described.

DESCRIPTION

FIG. 1 illustrates a front view of a touch keypad for a display screen according to this invention;
 FIG. 2 illustrates a rear view of a touch keypad for a display screen according to this invention;
 FIG. 3 illustrates a top view of a touch keypad for a display screen according to this invention;
 FIG. 4 illustrates a bottom view of a touch keypad for a display screen according to this invention; and,
 FIG. 5 illustrates a side view of a display panel with touch screen according to this invention.
 The broken line showing of a display screen in all views forms no part of the claimed design. The broken lines between the buttons labeled **4** and **5**, between the buttons labeled **7** and **8** and between the two buttons in the lower right-hand corner of the touch keypad, all in FIG. 1, do form a part of the claimed design.
