(57) **CLAIM**

The ornamental design for the electroluminescent novelty glasses, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of our design of a pair of glasses with electroluminescent wire attached to the perimeter of the frame with a self contained power source attached onto one of the arms of the glasses;

FIG. 2 is a left side elevational view thereof;

FIG. 3 is a right side elevational view thereof;

FIG. 4 is a rear elevational view thereof;

FIG. 5 is a perspective view of the electroluminescent wire assembly component with a self contained power source thereof; and,

FIG. 6 is a perspective view of the glasses thereof.
