(57) **CLAIM**

The ornamental design for an armrest for a door of an auto-
mobile, as shown and described.

DESCRIPTION

FIG. 1 is a top-side perspective view of an armrest for a door
of an automobile.

The automobile door armrest in use is mounted to an interior
side of a door of an automobile thereby forming an aspect of
an interior of the automobile with the door closed.

The broken lines define the bounds of the claimed design and
form no part thereof.
