(57) **CLAIM**

The ornamental design for an interior light assembly with flared visor, as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of an interior light assembly with flared visor, and illustrates a mounting bracket therefor in phantom;

FIG. 2 is a bottom perspective view of the interior light assembly with flared visor;

FIG. 3 is a front view of the interior light assembly with flared visor;

FIG. 4 is a right side view of the interior light assembly with flared visor, the left side view being a mirror image thereof;

FIG. 5 is a right side view of the interior light assembly with flared visor illustrating a pivoted position of the flared visor, the left side view being a mirror image thereof;

FIG. 6 is a bottom view of the interior light assembly with flared visor;

FIG. 7 is a rear view thereof; and,

FIG. 8 is a top view thereof.

All areas contained within the broken lines on the top and bottom surfaces of the interior light assembly with flared visor form no part of the claimed design. The other features shown in broken lines are environmental structure that form no part of the claimed design.
