(57) **CLAIM**

The ornamental design for an attachable ground surface stabilization plate for a cane, as shown and described.

**DESCRIPTION**

FIG. 1 is an isometric view of one embodiment of an attachable ground surface stabilization plate for a cane to a quad legged cane;

FIG. 2 is a bottom view of an attachable ground surface stabilization plate for a cane to a quad legged cane;

FIG. 3 is a right side view an attachable ground surface stabilization plate for a cane to a quad legged cane;

FIG. 4 is a top view of an attachable ground surface stabilization plate for a cane to a quad legged cane;

FIG. 5 is an end side view of an attachable ground surface stabilization plate for a cane to a quad legged cane;

FIG. 6 is another isometric view of an attachable ground surface stabilization plate for a cane to a quad legged cane; and,

FIG. 7 is an other isometric view of an attachable ground surface stabilization plate for a cane to a quad legged cane.

The broken lines shown in the drawings are for purposes of illustrating the environmental structure associated with the claimed design in condition of use, and which forms no part of the claimed design.
