(57) **CLAIM**

The ornamental design for a turtle shell nightlight, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a turtle shell nightlight showing our new design;

FIG. 2 is a front plan view of the embodiment of FIG. 1;

FIG. 3 is a rear plan view of the embodiment of FIG. 1;

FIG. 4 is a left side plan view of the embodiment of FIG. 1;

FIG. 5 is a right side plan view of the embodiment of FIG. 1, the left side plan view being identical;

FIG. 6 is a top plan view of the embodiment of FIG. 1;

FIG. 7 is a bottom plan view of the embodiment of FIG. 1; and,

FIG. 8 is a perspective view illustrating an alternative embodiment having a translucent outer shell with an inner deck.

Surface shading is used to shade FIGS. 1-8 to show clearly the character and contour of all surfaces of the 3-dimensional aspects of the design and form a part of the design sought to be protected. Oblique line shading is used to show transparent or translucent surfaces.
