(57) **CLAIM**

The ornamental design for a dual drive socket bit, as shown and described.

DESCRIPTION

FIG. **1** illustrates a front perspective view of the claimed design for a dual drive socket bit;
FIG. **2** illustrates left side view, a right side view being an identical image thereof;
FIG. **3** illustrates a bottom view thereof; and,
FIG. **4** illustrates a rear perspective view thereof.

It should be understood that the labels used herein for describing orientation (e.g., front, rear, left side, right side and bottom) are merely for reference, and the design may be disposed in any manner and still be within the scope of the present invention. The top view is not shown and forms no part of the claimed design. The portion shown in broken lines is for illustrative purposes only and forms no part of the claimed design.
