(57) **CLAIM**

The ornamental design for a display with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a face view of a first image of a display with transitional graphical user interface, showing our new design; and,

FIG. 2 is a face view of a second image thereof.

Subject matter shown in broken lines, including all text, forms no part of the claimed design.

The appearance of the transitional user interface sequentially transitions between the images shown in FIGS. 1-2. The process or period in which one image transitions to another image forms no part of the claimed design.
