(57) **CLAIM**

The ornamental design for a patient lift, as shown and described.

DESCRIPTION

FIG. 1 is a front elevation view of a patient lift in accordance with the new design in which the patient lift is in a stored position with a closed lower cabinet and a stored lift arm and cabinet casing for the lift arm;

FIG. 2 is a right side elevation view thereof;

FIG. 3 is a front and left side perspective view thereof;

FIG. 4 is a front and left side perspective view of the patient lift in accordance with the new design in which the patient lift is in an extended position with an open lower cabinet and an extended lift arm and cabinet casing for the lift arm;

FIG. 5 is a front and left side perspective view of the patient lift in accordance with the new design in which the patient lift is in an extended position with a closed lower cabinet and an extended lift arm and cabinet casing for the lift arm;

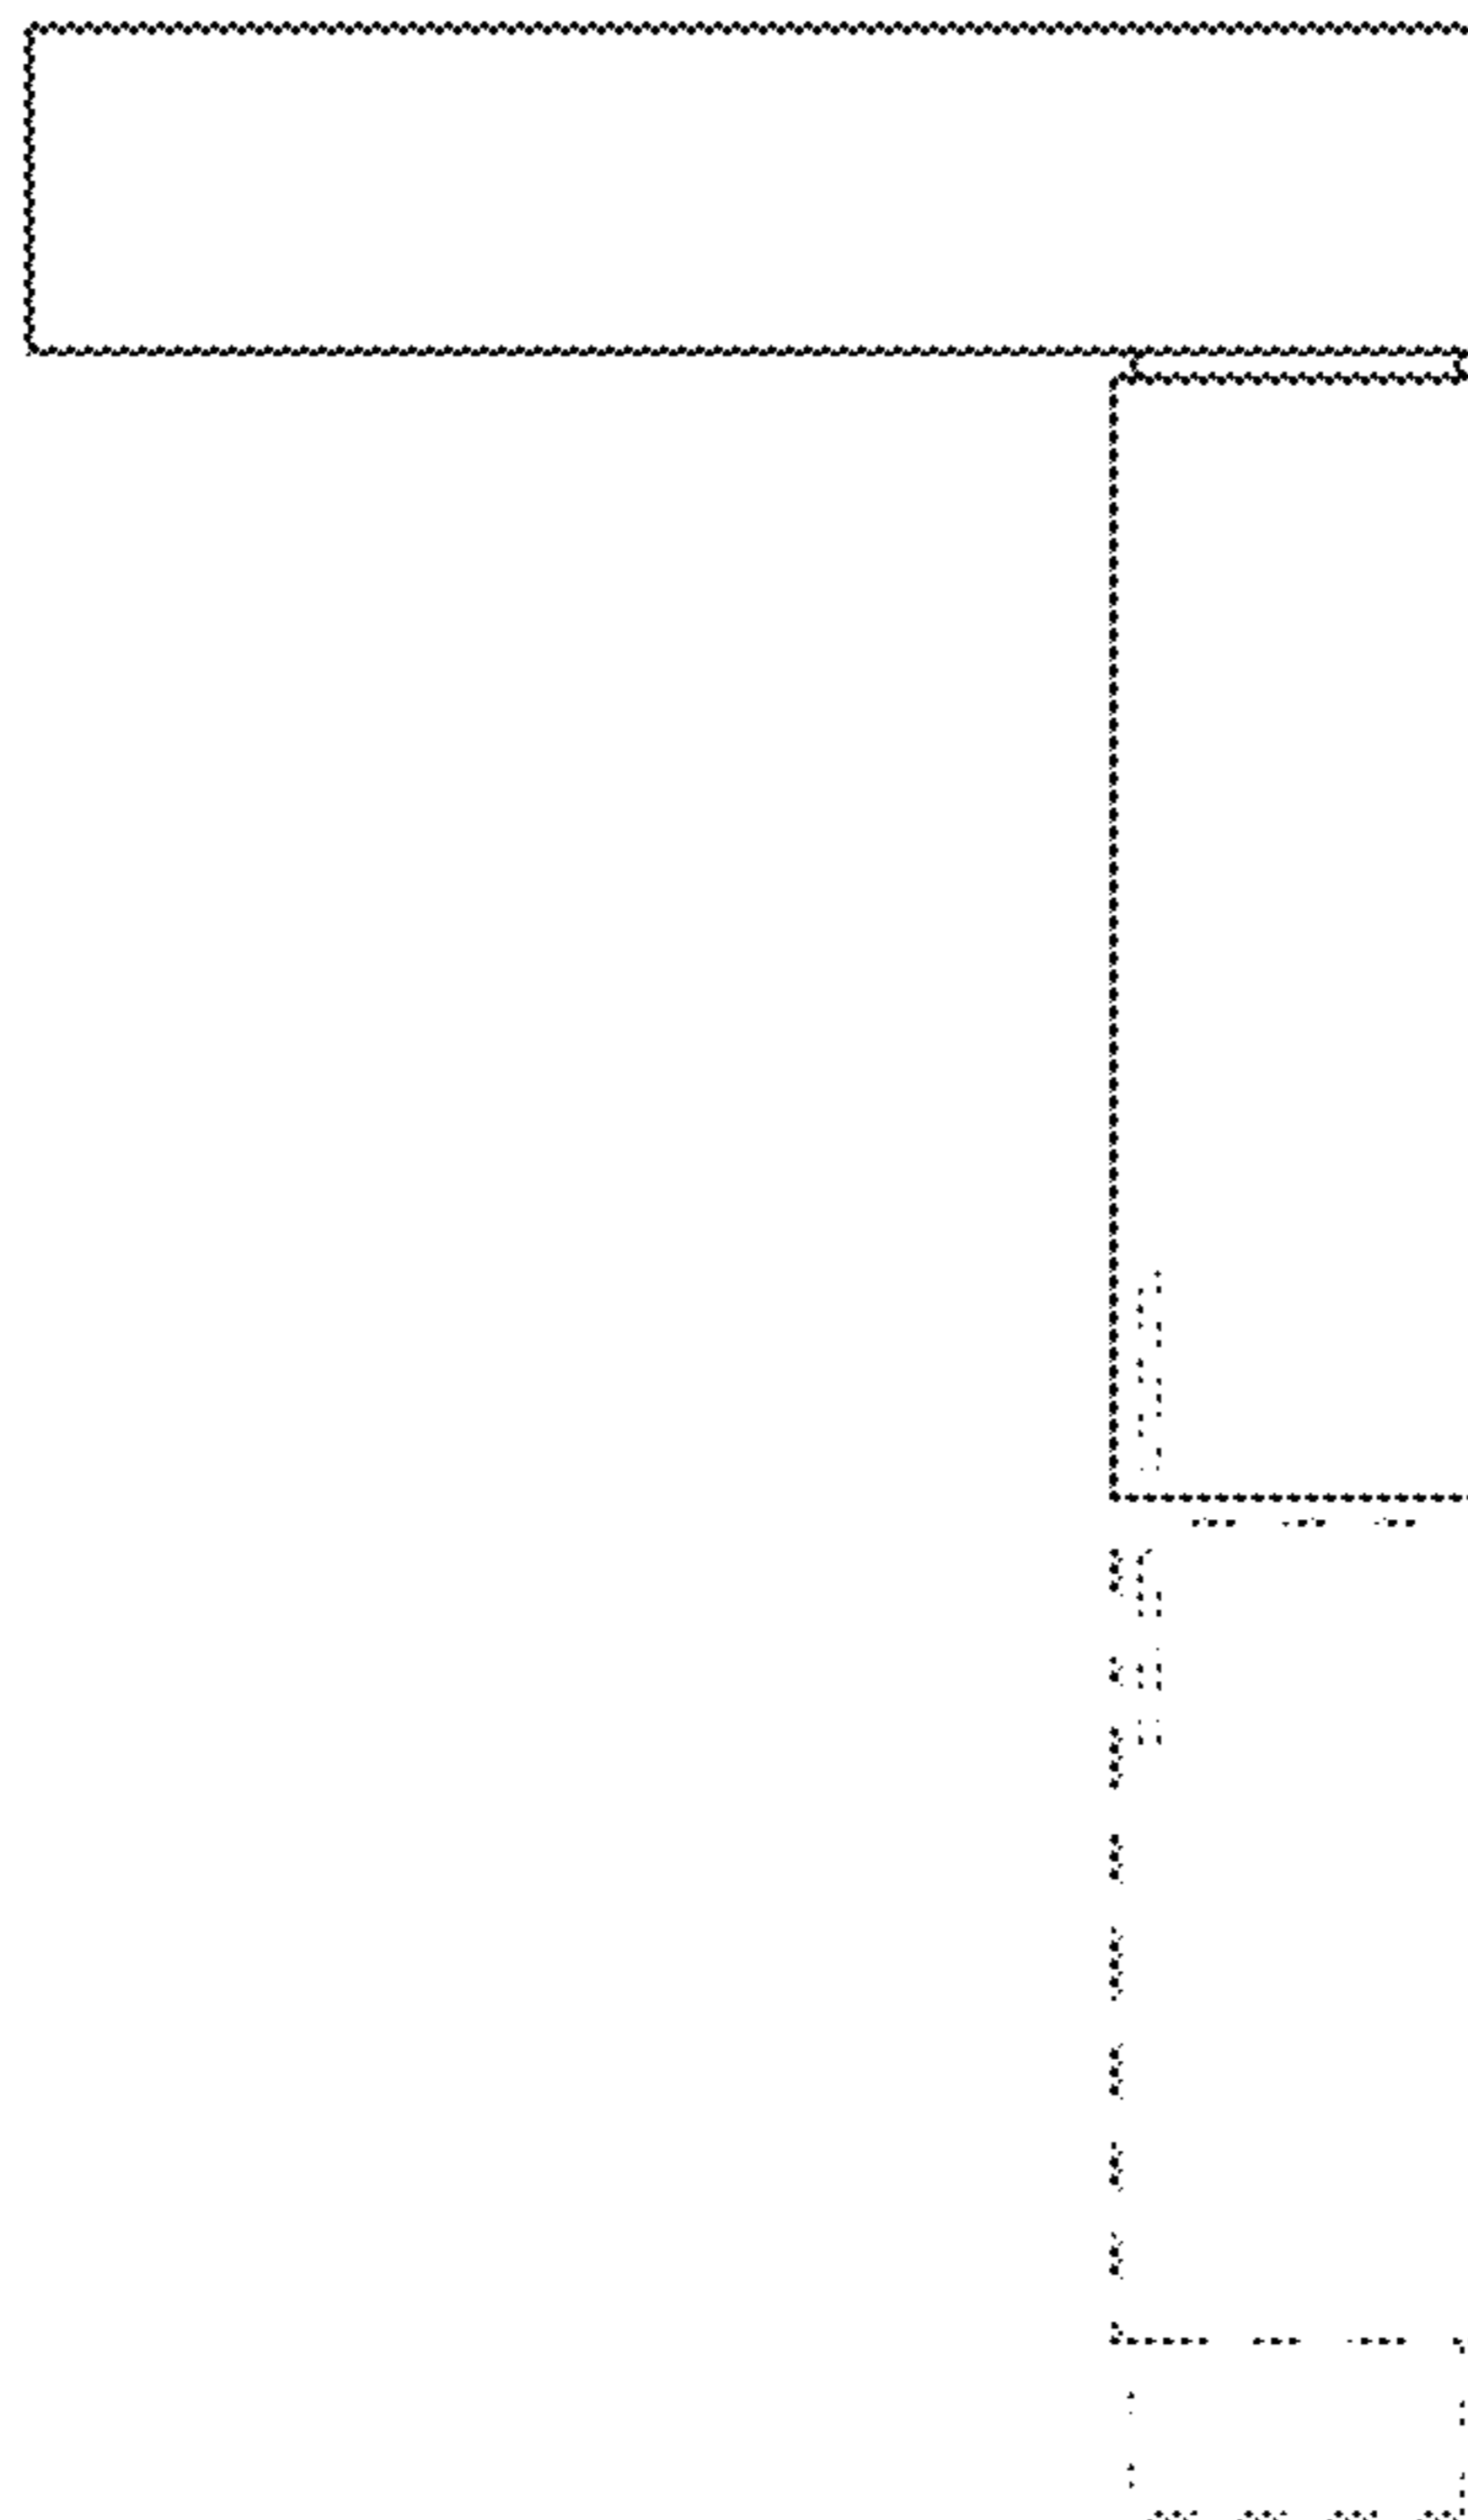

FIG. 6 is a top plan view thereof;

FIG. 7 is a bottom plan view thereof; and,

FIG. 8 is a left side elevation view thereof.

The broken lines shown in FIGS. 1-8 are for environmental purposes only, and form no part of the claimed design.
