(57) **CLAIM**

The ornamental design for a medical apparatus and equipment for laboratories, as shown and described.

**DESCRIPTION**

FIG. 1 is a front elevational view of a medical apparatus and equipment for laboratories;

FIG. 2 is a front perspective view of the medical apparatus and equipment for laboratories, illustrated in FIG. 1;

FIG. 3 is a top plan view of the medical apparatus and equipment for laboratories, illustrated in FIG. 1;

FIG. 4 is a right side elevational view of the medical apparatus and equipment for laboratories, illustrated in FIG. 1. The left side elevational view is a mirror image of the right side;

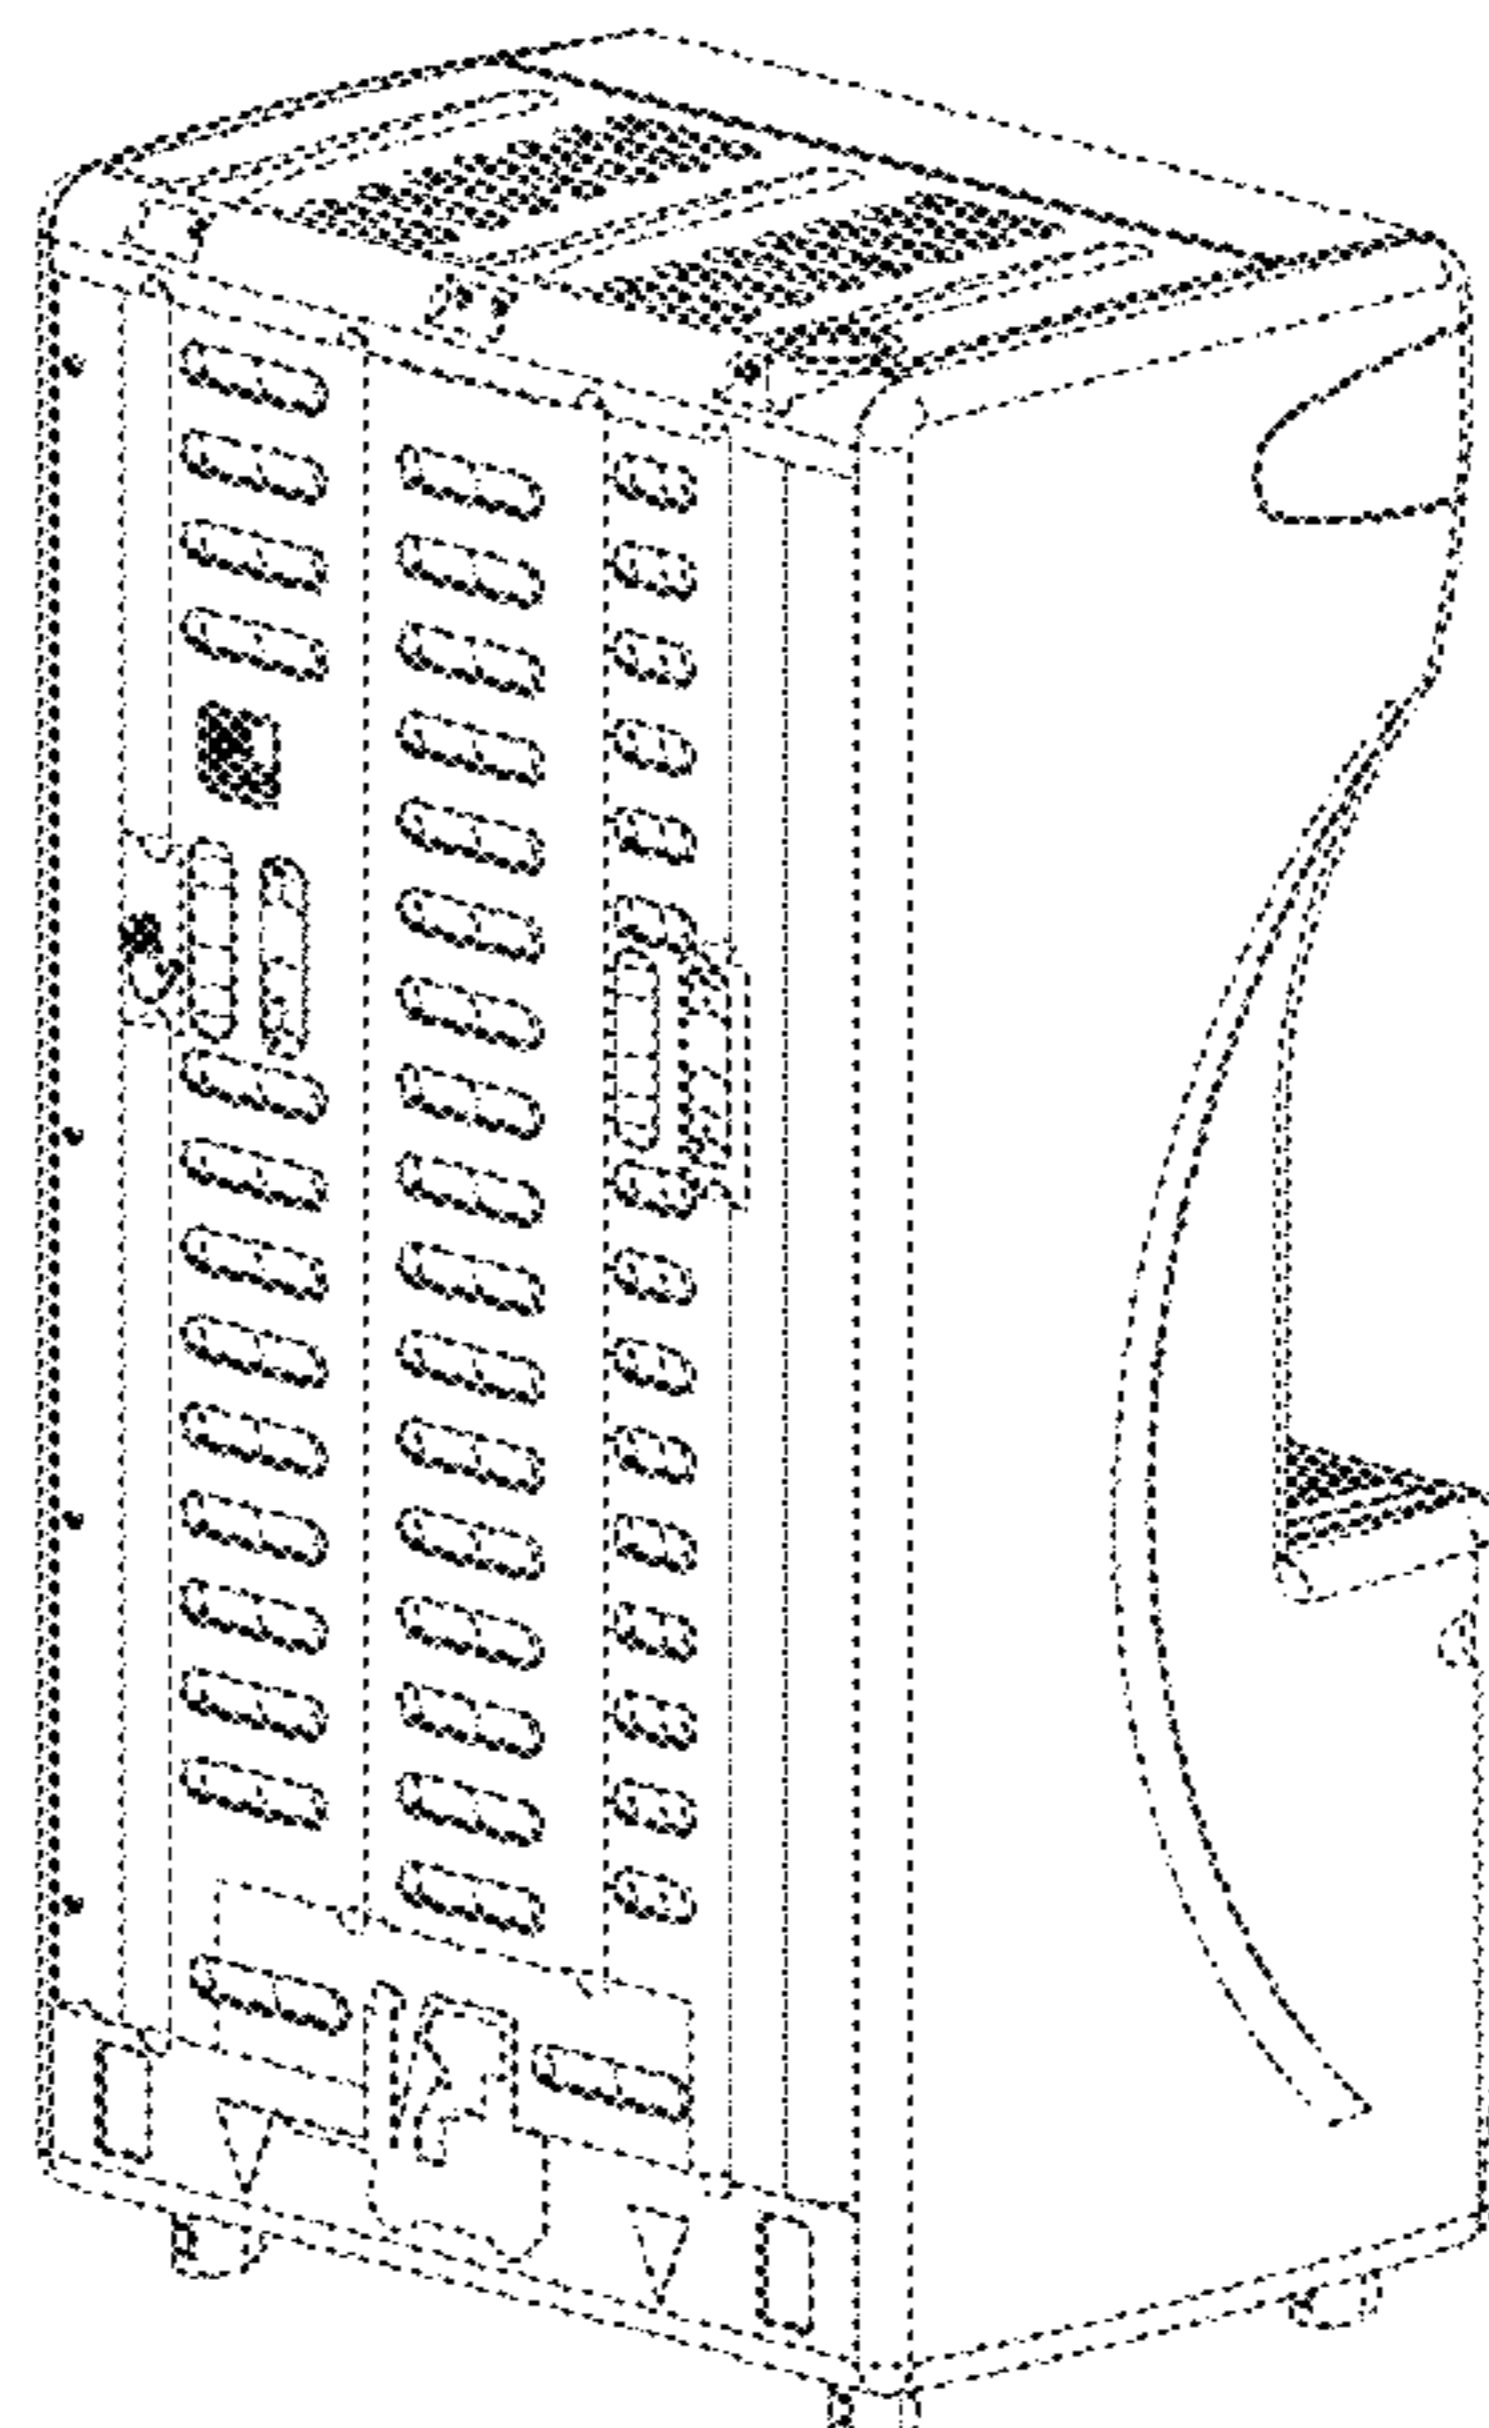

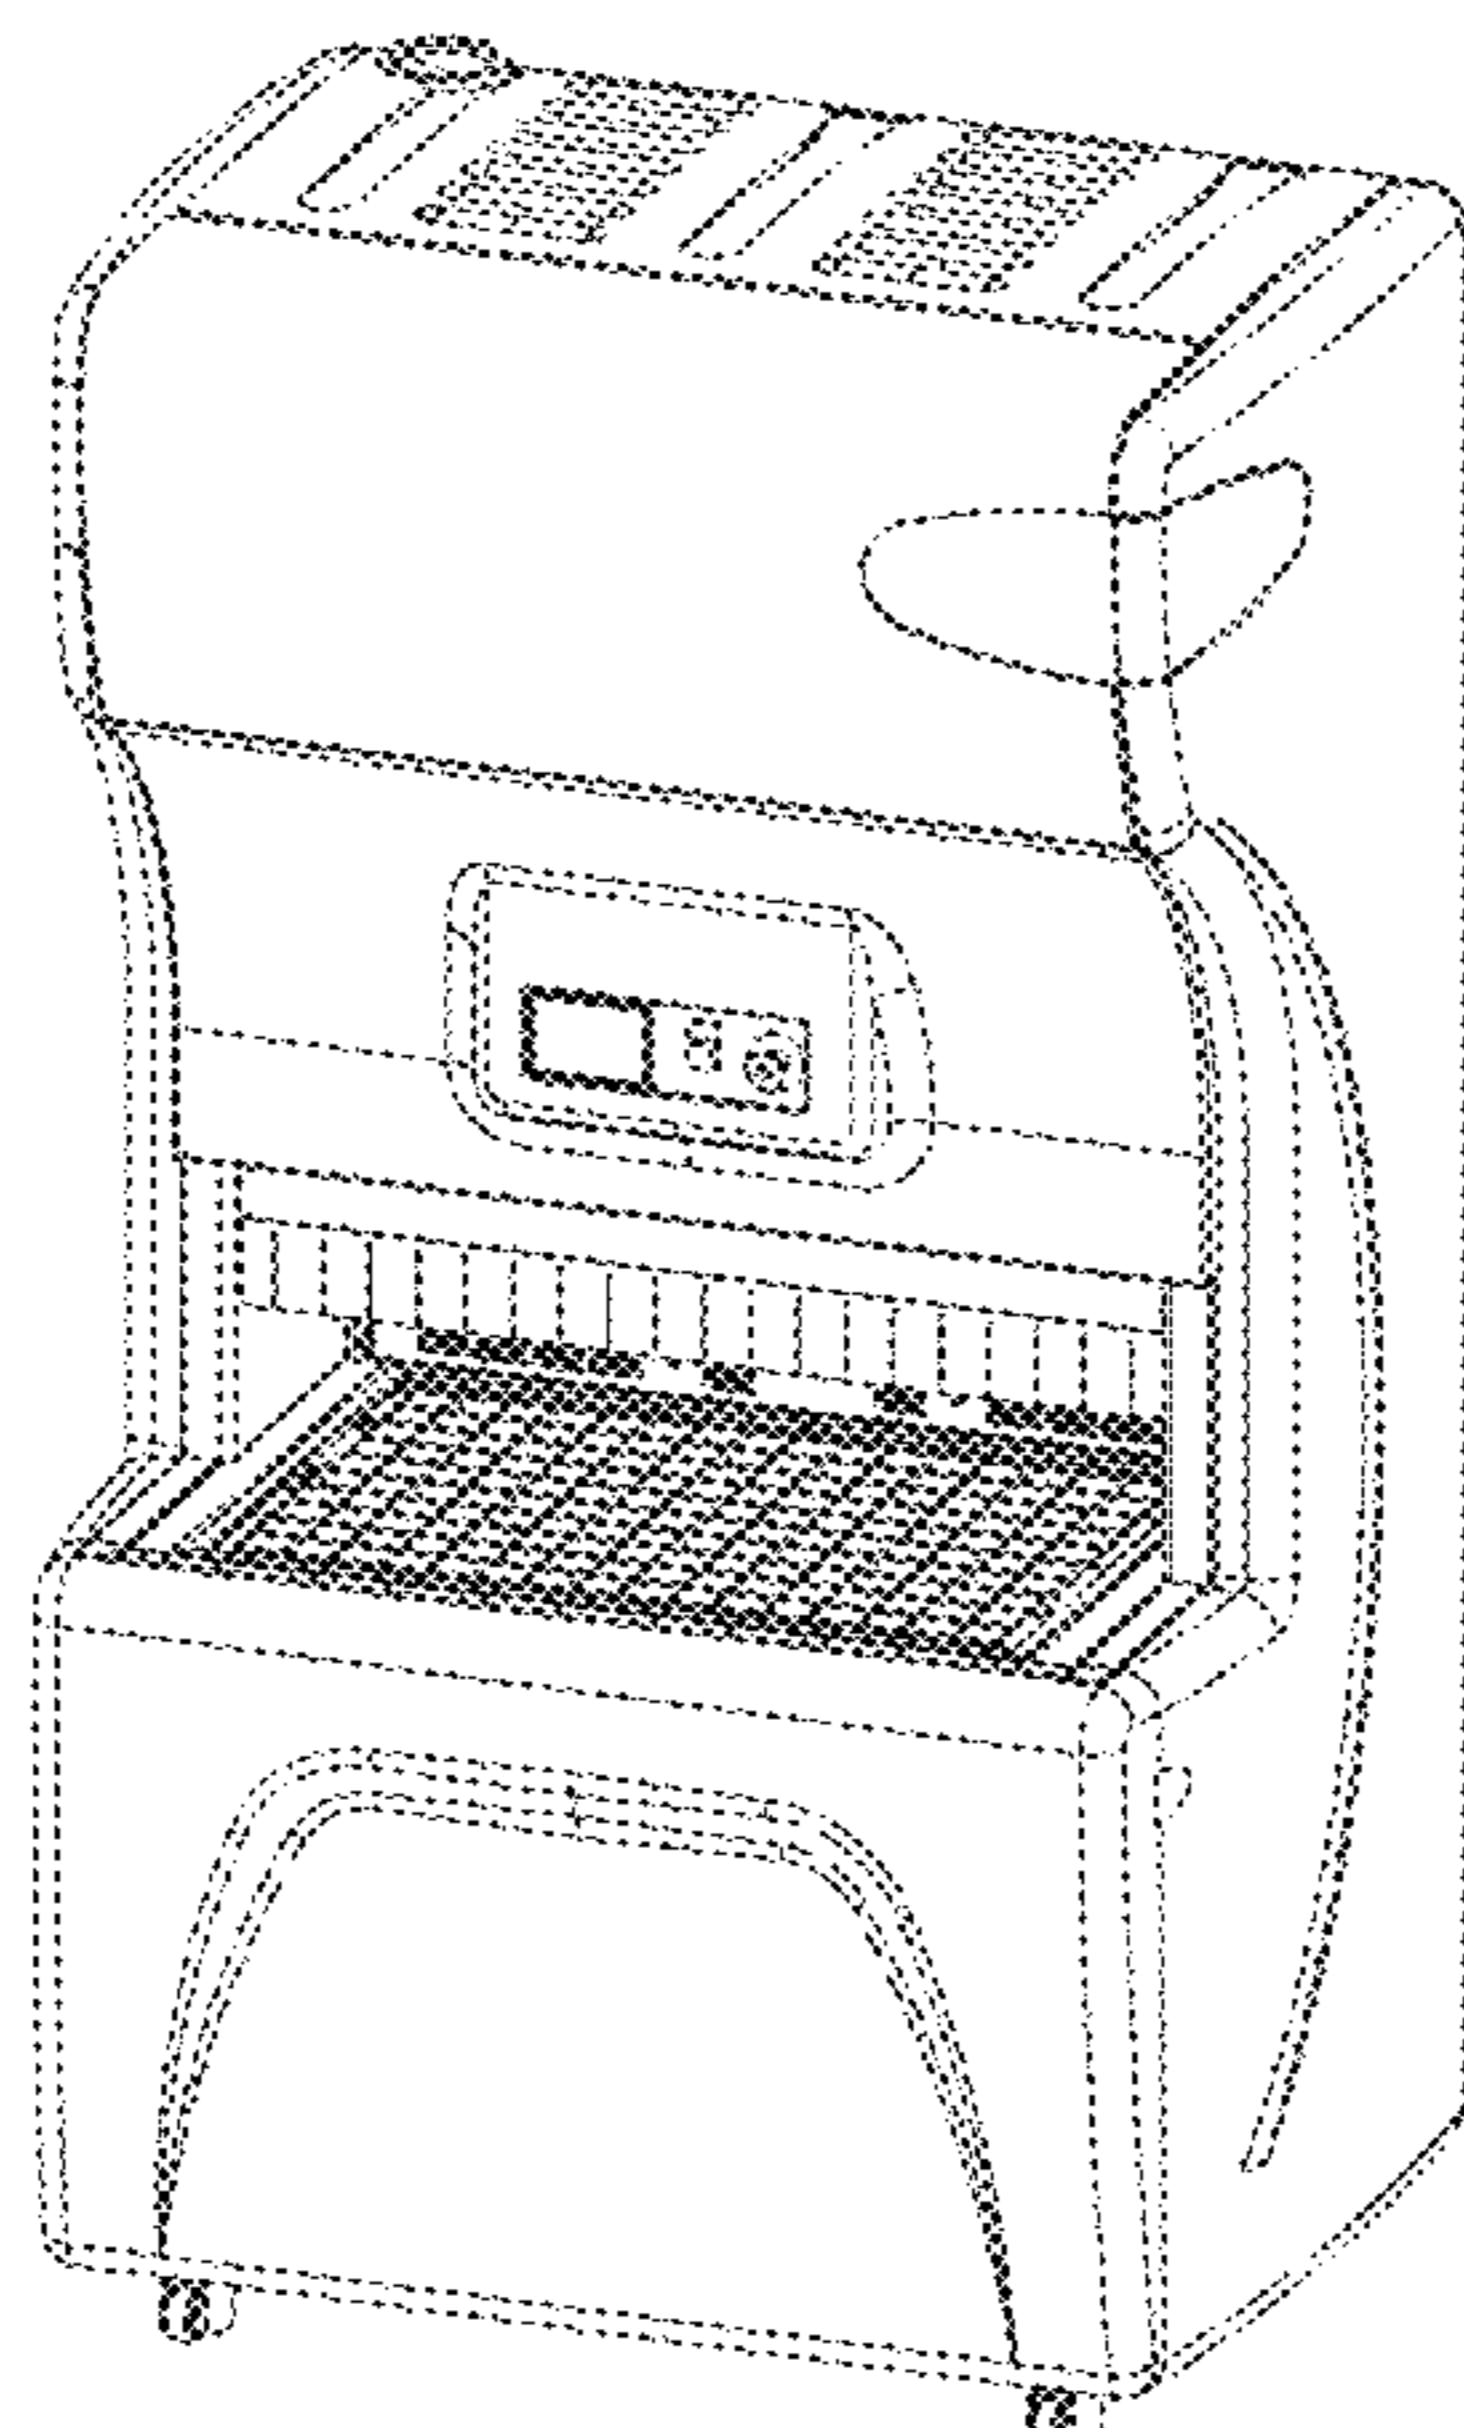

FIG. 5 is a rear elevational view of the medical apparatus and equipment for laboratories, illustrated in FIG. 1; and,

FIG. 6 is a rear perspective view of the medical apparatus and equipment for laboratories, illustrated in FIG. 1.

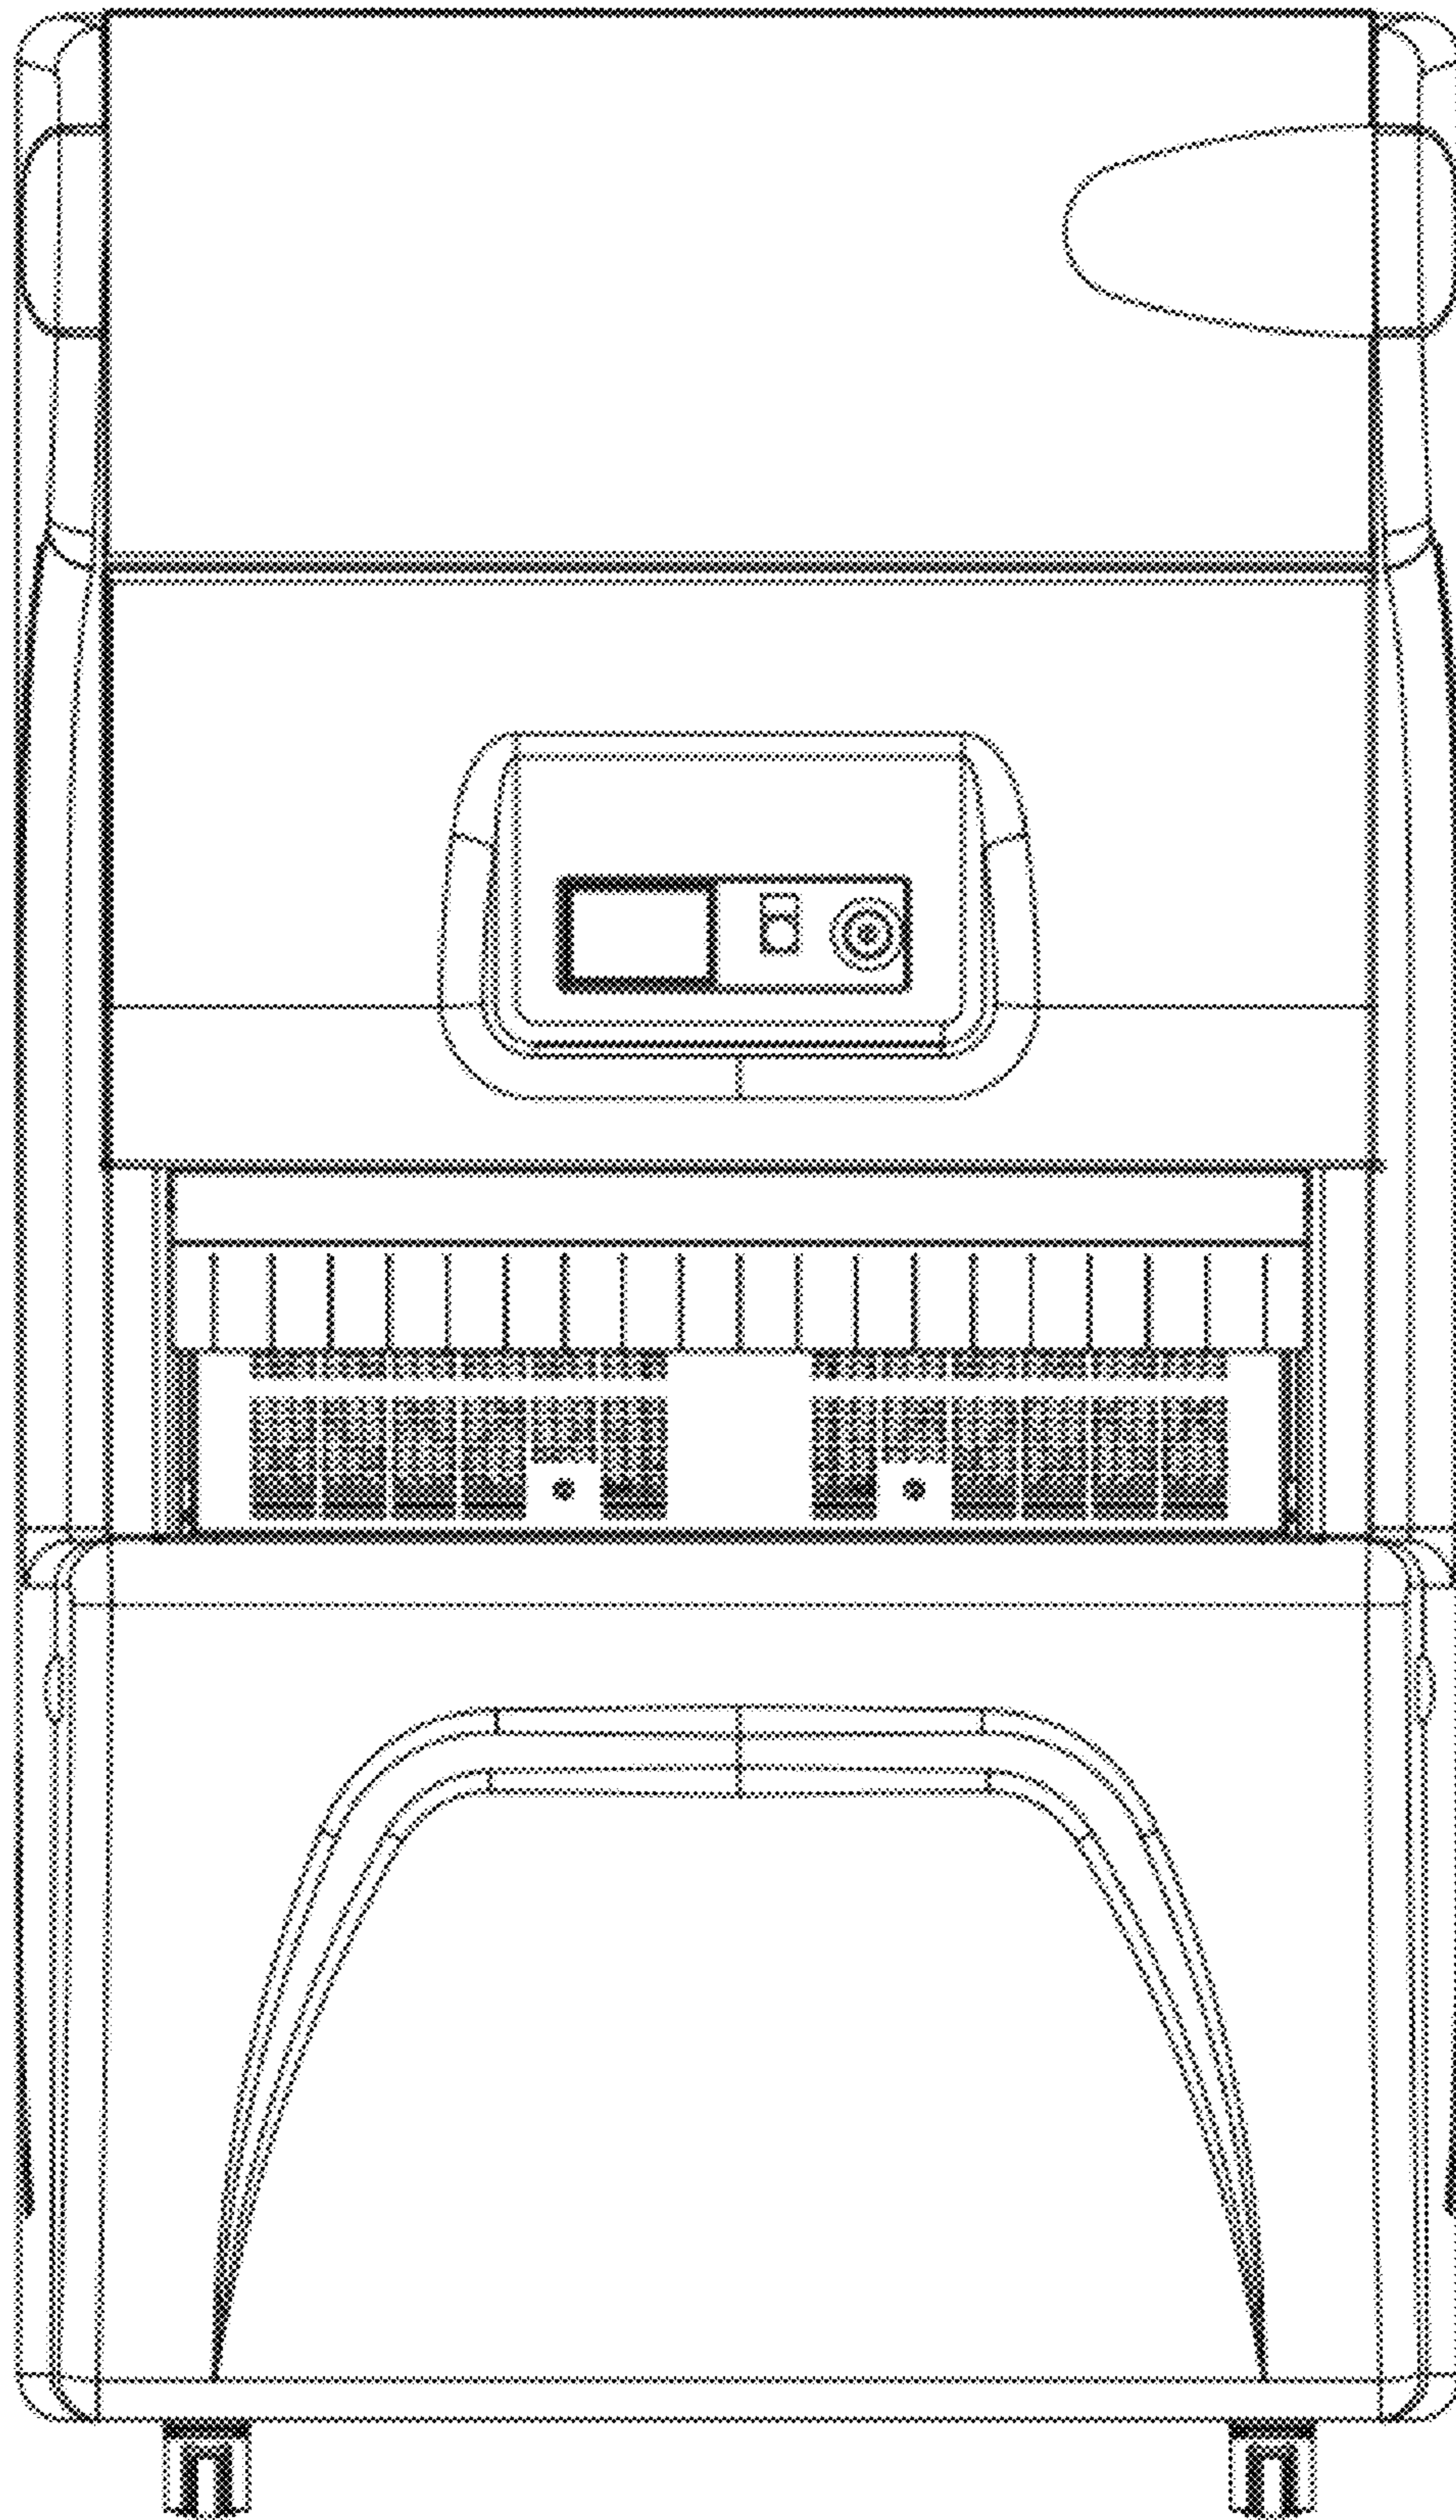

The designations of the views below as top, right side, front, and rear are for ease of discussion only and are not intended to limit the medical apparatus and equipment for laboratories to one particular orientation. The medical apparatus and equipment for laboratories can be oriented in other directions which would alter these designations. The drawings illustrated in FIGS. 1-6 are not necessarily drawn to the same scale, and any change in scale between different views is not intended limit the medical apparatus and equipment for laboratories to a particular size.

It should be appreciated that the broken line illustrations shown in the Figures are for illustrative purposes only and form no part of the claimed invention.
