(57) **CLAIM**

The ornamental design for a wine rack panel, as is shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view showing a first embodiment of my new wine rack panel design when incorporated into a cabinet assembly to form a wine storage rack; in this embodiment, the wine storage rack is intended to store four bottles. The portions of the cabinet assembly that form no part of the claimed design are shown in broken lines.

FIG. 2 is a front elevation view showing the first embodiment of my design.

FIG. 3 is a view of the section 3-3 of FIG. 2.

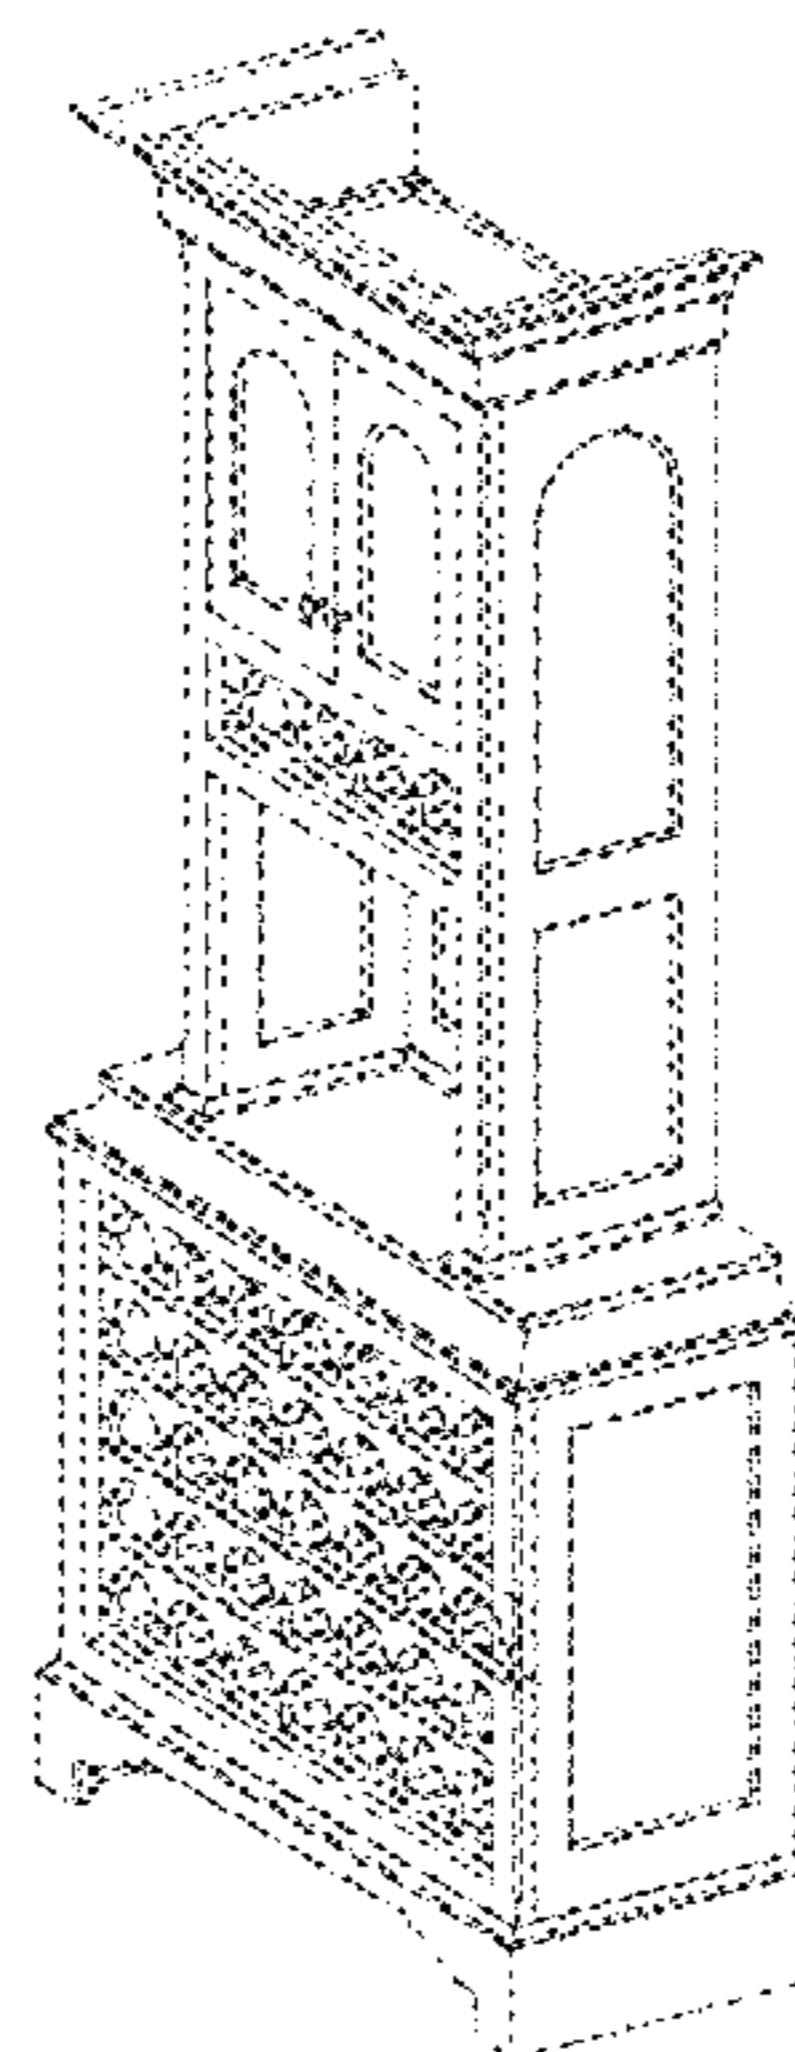

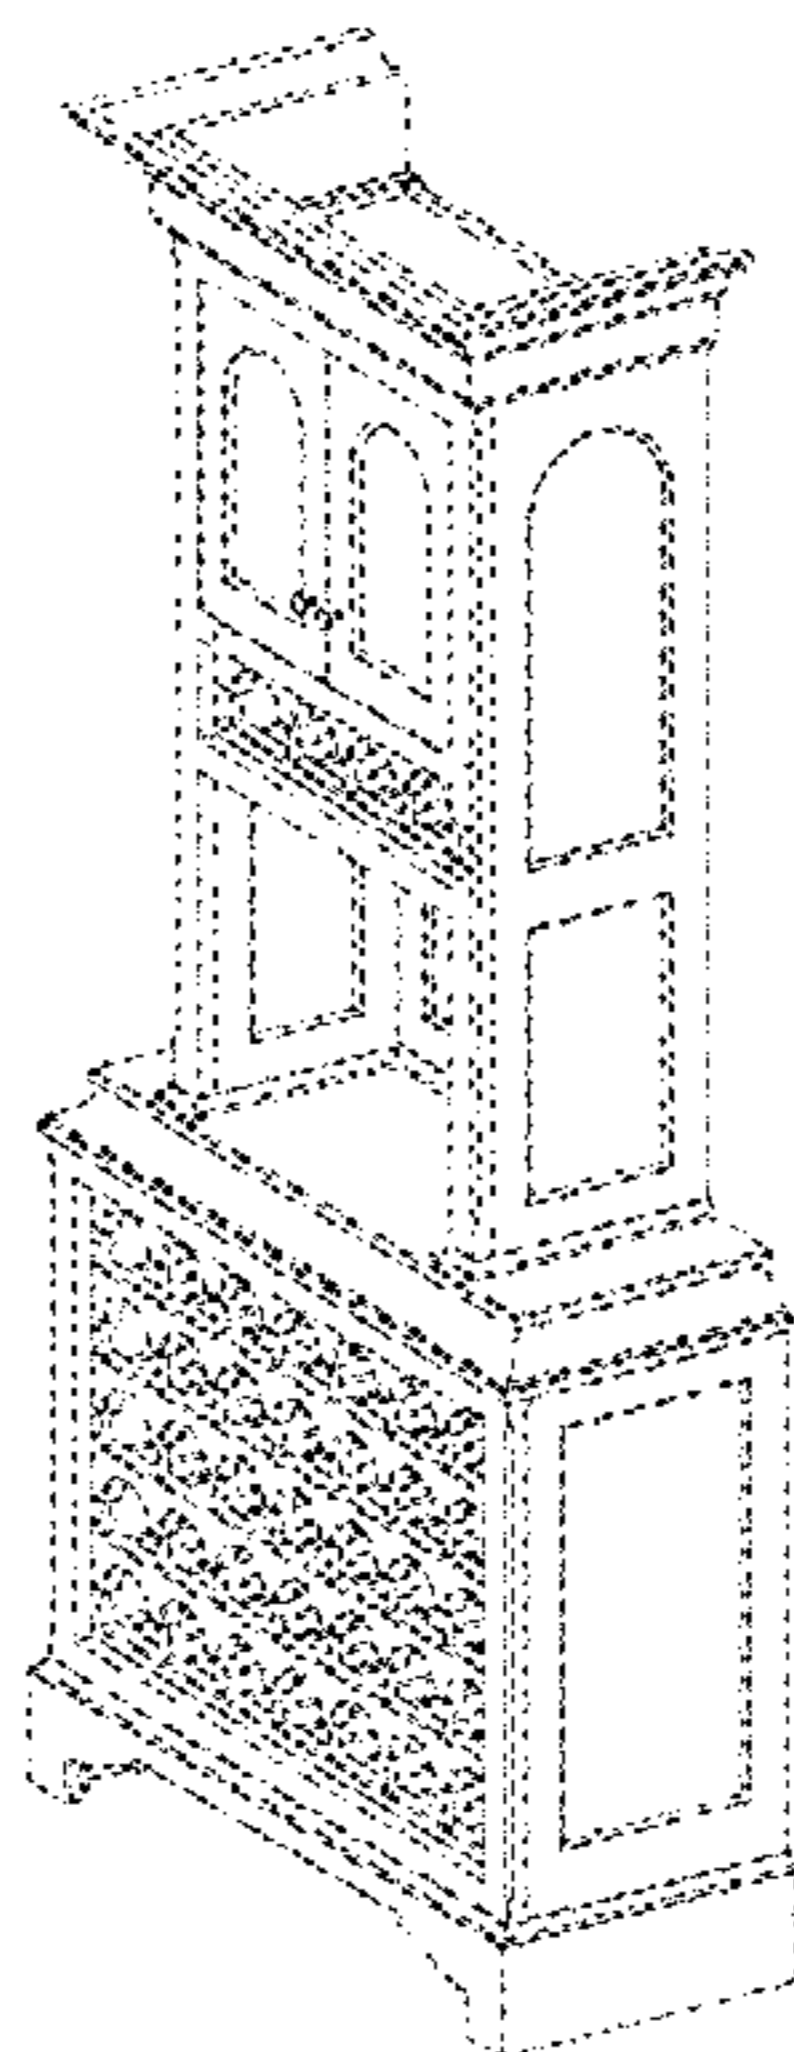

FIG. 4 is an enlarged view of the section 4-4 of FIG. 2. The right side, left side, and back elevation views and the top and bottom views are not visible when the wine rack panel is in use and do not form a part of the claimed design.

FIG. 5 is a perspective view showing a second embodiment of my new wine rack panel design when incorporated into a cabinet assembly to form a portion of a wine storage rack; in this embodiment, the wine storage rack is intended to store seven bottles in a row. The portions of the cabinet assembly that form no part of the claimed design are shown in broken lines.

FIG. 6 is a front elevation view showing the second embodiment of my design.

FIG. 7 is a view of the section 7-7 of FIG. 6; and, FIG. 8 is an enlarged view of the section 8-8 of FIG. 6. The right side, left side, and back elevation views and the top and bottom views are not visible when the wine rack panel is in use and do not form a part of the claimed design.
