(57) **CLAIM**

The ornamental design for a remote control for a video conference system endpoint, as shown and described.

DESCRIPTION

FIG. 1 is a front, right perspective view from above of a remote control for a video conference system endpoint according to the present invention;

FIG. 2 is a rear, right perspective view from below of the remote control of FIG. 1;

FIG. 3 is a top plan view of the remote control of FIG. 1;

FIG. 4 is a bottom plan view of the remote control of FIG. 1;

FIG. 5 is a front elevation view of the remote control of FIG. 1;

FIG. 6 is a rear elevation view of the remote control of FIG. 1;

FIG. 7 is a right side elevation view of the remote control of FIG. 1; and,

FIG. 8 is a left side elevation view of the remote control of FIG. 1.

Any portions shown in phantom are for illustrative purposes only and form no part of the claimed design.
