(57) **CLAIM**

The ornamental design for display screen portion having a graphical user interface for patient monitoring, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen portion having a graphical user interface for patient monitoring, showing the new design as it would appear on a mobile device; and, FIG. 2 is a front view of a display screen portion having a graphical user interface for patient monitoring, showing the new design as it would appear on a desktop device.

The graphical user interface portions shown in broken lines form no part of the claimed design. All other broken lines illustrate environment and form no part of the claimed design.

1 Claim, 2 Drawing Sheets

FIG. 1
