(57) **CLAIM**

Ornamental designs for a battery operated oil hydraulic crimping tool.

DESCRIPTION

FIG. 1 is a front elevation view of a battery operated oil hydraulic crimping tool,
FIG. 2 is a rear elevation view thereof,
FIG. 3 is a top plan view thereof,
FIG. 4 is a bottom plan view thereof,
FIG. 5 is a left elevation view thereof,
FIG. 6 is a right elevation view thereof,
FIG. 7 is a front elevation view of the battery operated oil hydraulic crimping tool when four crimping dies come close to one another with three of them stuck out inward; and,
FIG. 8 is a perspective view thereof.

The broken line showing of the battery operated oil hydraulic crimping tool is included for the purpose of illustrating environmental structure and forms no part of the claimed design. The battery operated oil hydraulic crimping tool is equipped with a rechargeable battery and used to hold and crimp a crimping terminal or sleeve with four dies coming close to one another with three of them stuck out inward on oil hydraulic pressure.
