See application file for complete search history.

DESCRIPTION

FIG. 1 illustrates a left or right side view of the design. The other side of the design is a mirror image of FIG. 1.

FIG. 2 illustrates a front view of the design.

FIG. 3 illustrates a front view of the design, where the design has been rotated upon the horizontal axis at an angle of 36 degrees from FIG. 2.

FIG. 4 illustrates a front view of the design, where the design has been rotated upon the horizontal axis at an angle of 72 degrees from FIG. 2.

FIG. 5 illustrates a top, side view of the design.

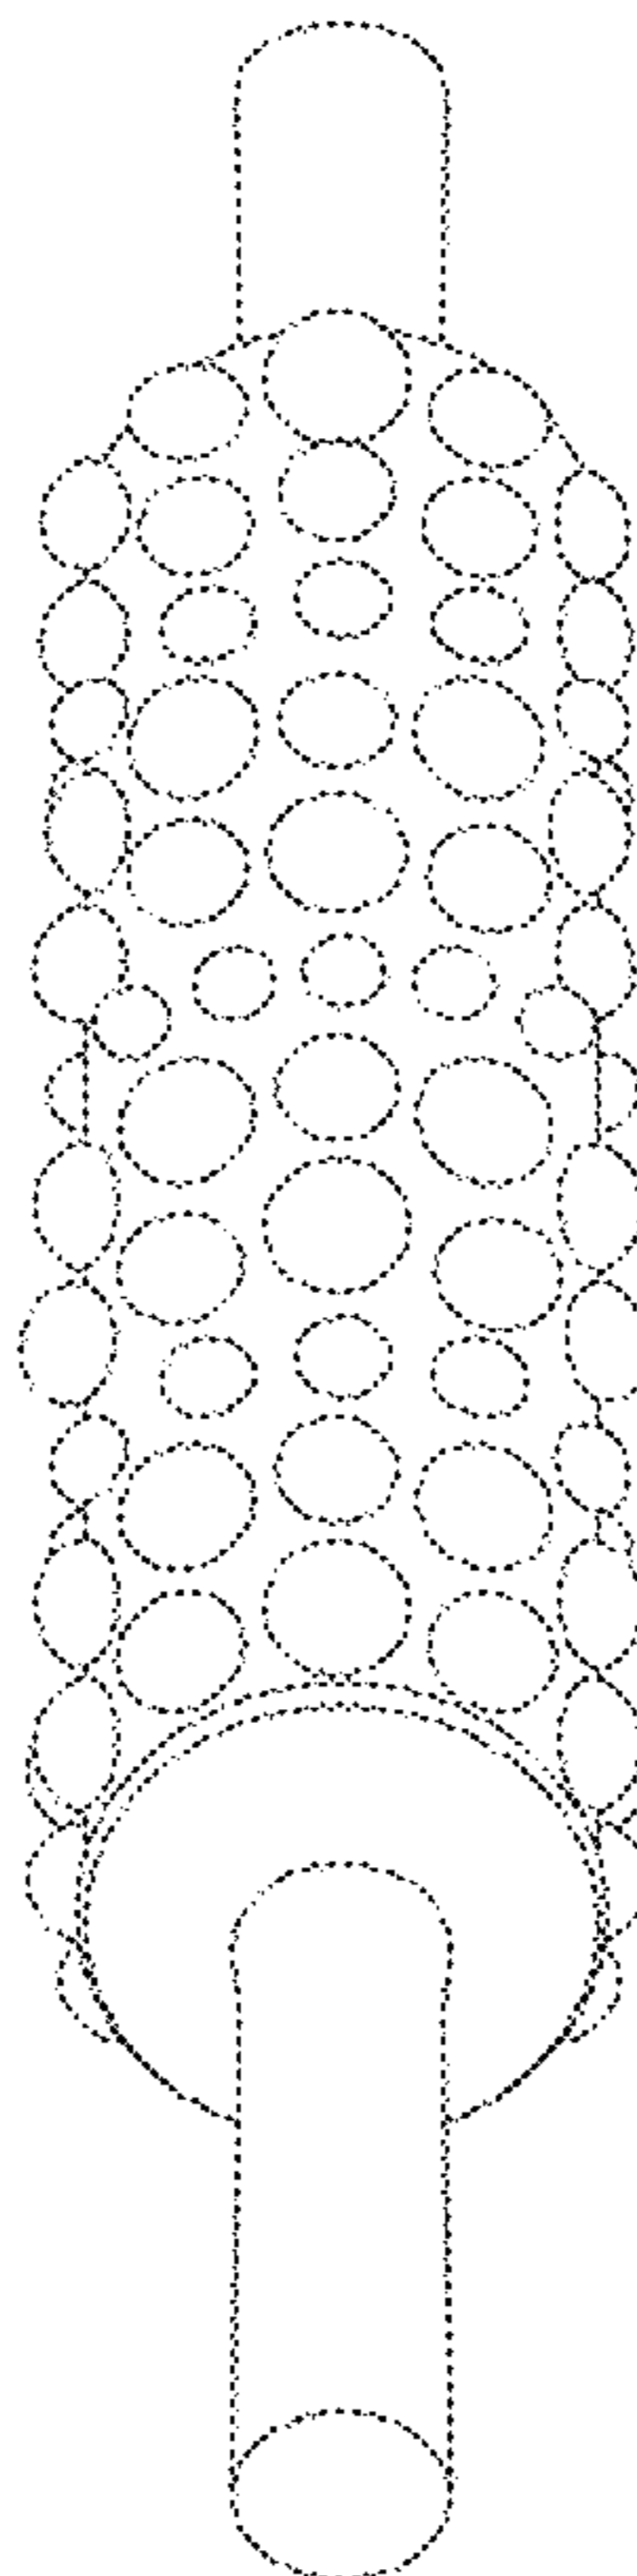

FIG. 6 illustrates a top, side, and front view of the design; and, FIG. 7 illustrates a top plan view of the design where the cylinder represented in FIGS. 1-6 has been unrolled, is flat and has been removed from the handle portion for ease of illustration. The horizontal axis of FIG. 7 corresponds with the horizontal axis of FIGS. 1-6, and shows the pattern of semispherical protrusions in the design.
