**DESCRIPTION**

The attention of the Office also is directed to a concurrently  
filed utility application of Michael Misner et al, application  
Ser. No. 13/507,156, entitled Combination and Key Operated  
Locks which explains how a padlock embodying the design  
hereof may be utilized.

See application file for complete search history.

The disclosures of the several applications that are identified  
above, and the disclosures of any patents that may have issued  
therefrom as of the filing date of the present application, are  
incorporated herein by reference, in their entirety.
