(57) **CLAIM**

The ornamental design for a folding box grater, as shown and described herein.

DESCRIPTION

FIG. 1 is a top, front and right side perspective view of a folding box grater in its folded configuration according to an embodiment of the present invention;

FIG. 2 is a rear view of the folding box grater of FIG. 1 in the folded configuration;

FIG. 3 is a left side view of the folding box grater of FIG. 1 in the folded configuration;

FIG. 4 is a front view of the folding box grater of FIG. 1 in the folded configuration;

FIG. 5 is a right side view of the folding box grater of FIG. 1 in the folded configuration;

FIG. 6 is a top view of the folding box grater of FIG. 1 in the folded configuration;

FIG. 7 is a top and side perspective view of the folding box grater of FIG. 1 in its fully assembled configuration, in which the first of three grating surfaces is shown, according to an embodiment of the present invention;

FIG. 8 is a side view of the folding box grater of FIG. 7, in which the first grating surface and a part of the second grating surface are shown;

FIG. 9 is a side view of the folding box grater of FIG. 7, in which the first grating surface and a part of the third grating surface are shown;

FIG. 10 is a side view of the folding box grater of FIG. 7, in which the third grating surface and a part of the second grating surface are shown;

FIG. 11 is a side view of the folding box grater of FIG. 7, in which the second grating surface is shown; and,

FIG. 12 is a top view of the folding box grater of FIG. 7.

The broken lines shown in the drawing views are included for illustrative purposes only and are not intended to limit the claimed design.
