(57) **CLAIM**

The ornamental design for a desk lamp with a flexible arm, utilizing light emitting diodes and ventilating slots, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the desk lamp with a flexible arm, utilizing light emitting diodes and ventilating slots.

FIGS. 2 and 3 are left and right side views thereof.

FIGS. 4 and 5 are front and rear views thereof. The broken lines in the rear view of FIG. 5 illustrate unclaimed structure.

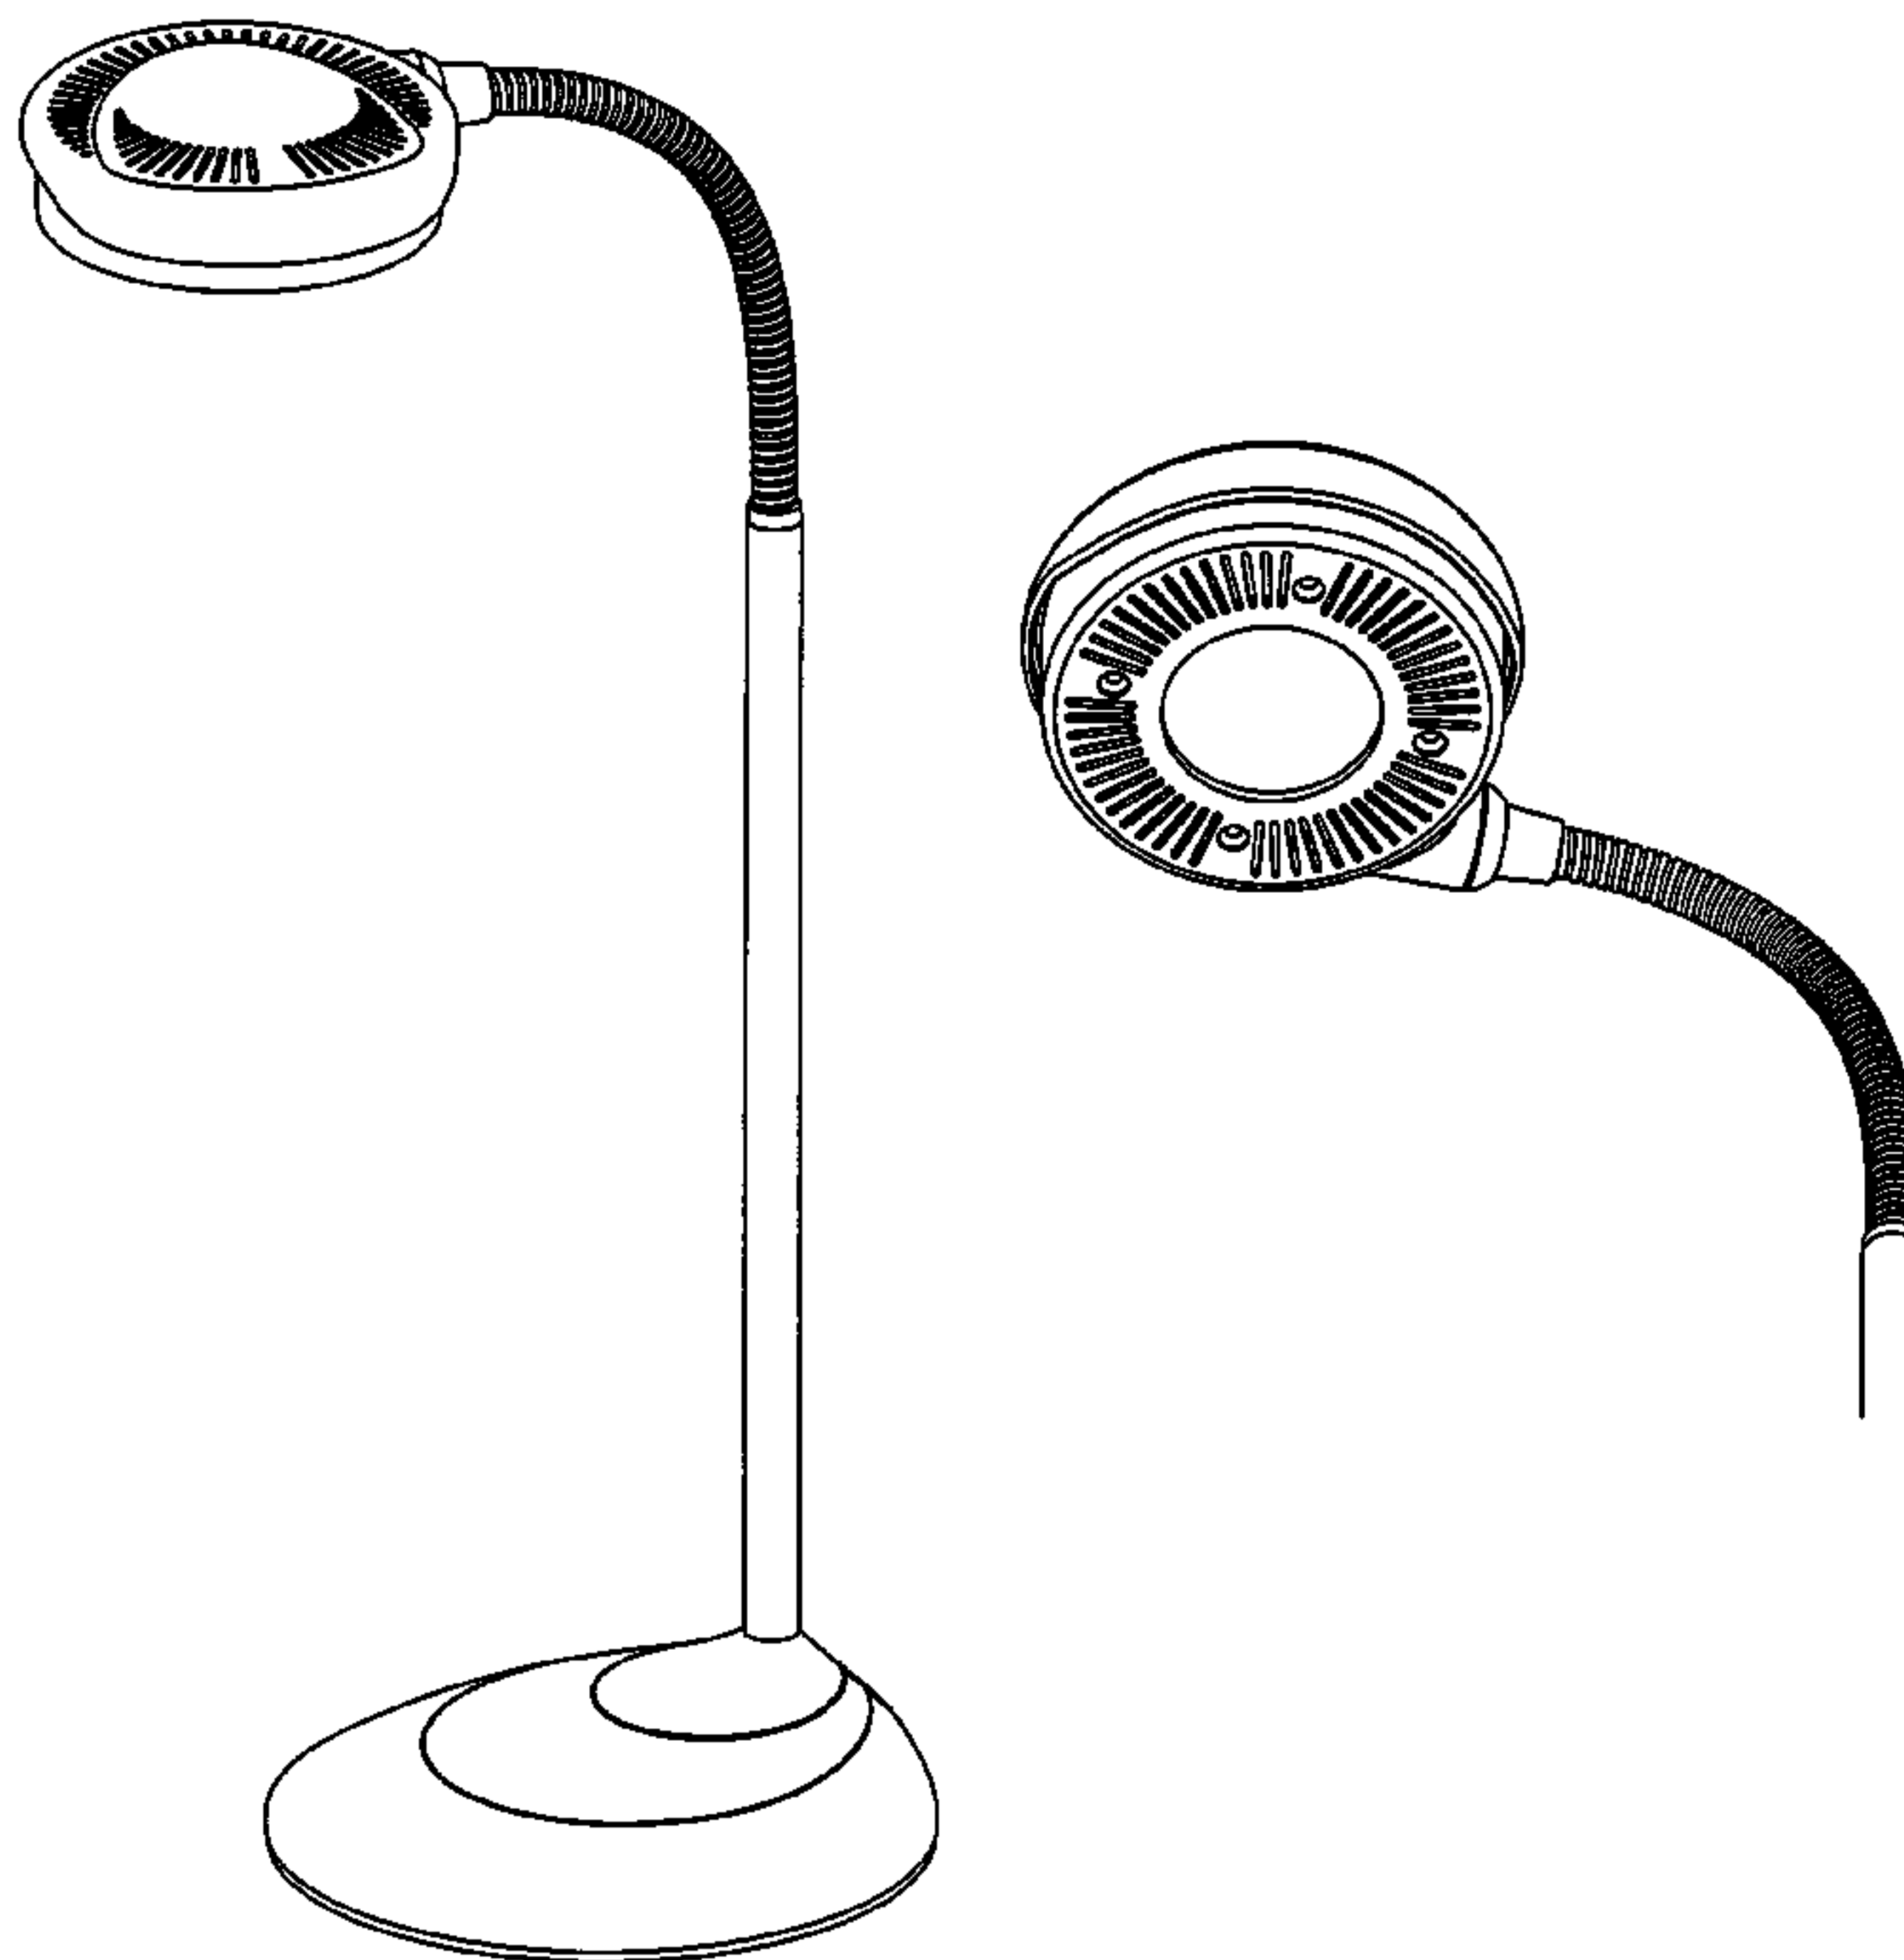

FIG. 6 is a top view thereof. The broken lines illustrate unclaimed structure.

FIG. 7 is an enlarged, detail, perspective view, for clarity of the lamp head containing the light emitting diodes, and the ventilating slots on its top surface; and,

FIG. 8 is an enlarged, detail, perspective view, for clarity of the lamp head and the ventilating slots on its bottom surface.

The broken lines in FIGS. 5 and 6 illustrate unclaimed structure. For information purposes, this unclaimed structure represents an opening in the base of the lamp for insertion of a DC power connector and cord, associated with the desk lamp's external AC-to-DC power supply/adapter.
