(57) **CLAIM**

The ornamental design for a combined electronic card reader and input output device, as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of the combined electronic card reader and input output device.

FIG. 2 is a bottom perspective view of the combined electronic card reader and input output device.

FIG. 3 is a top plan view of the combined electronic card reader and input output device.

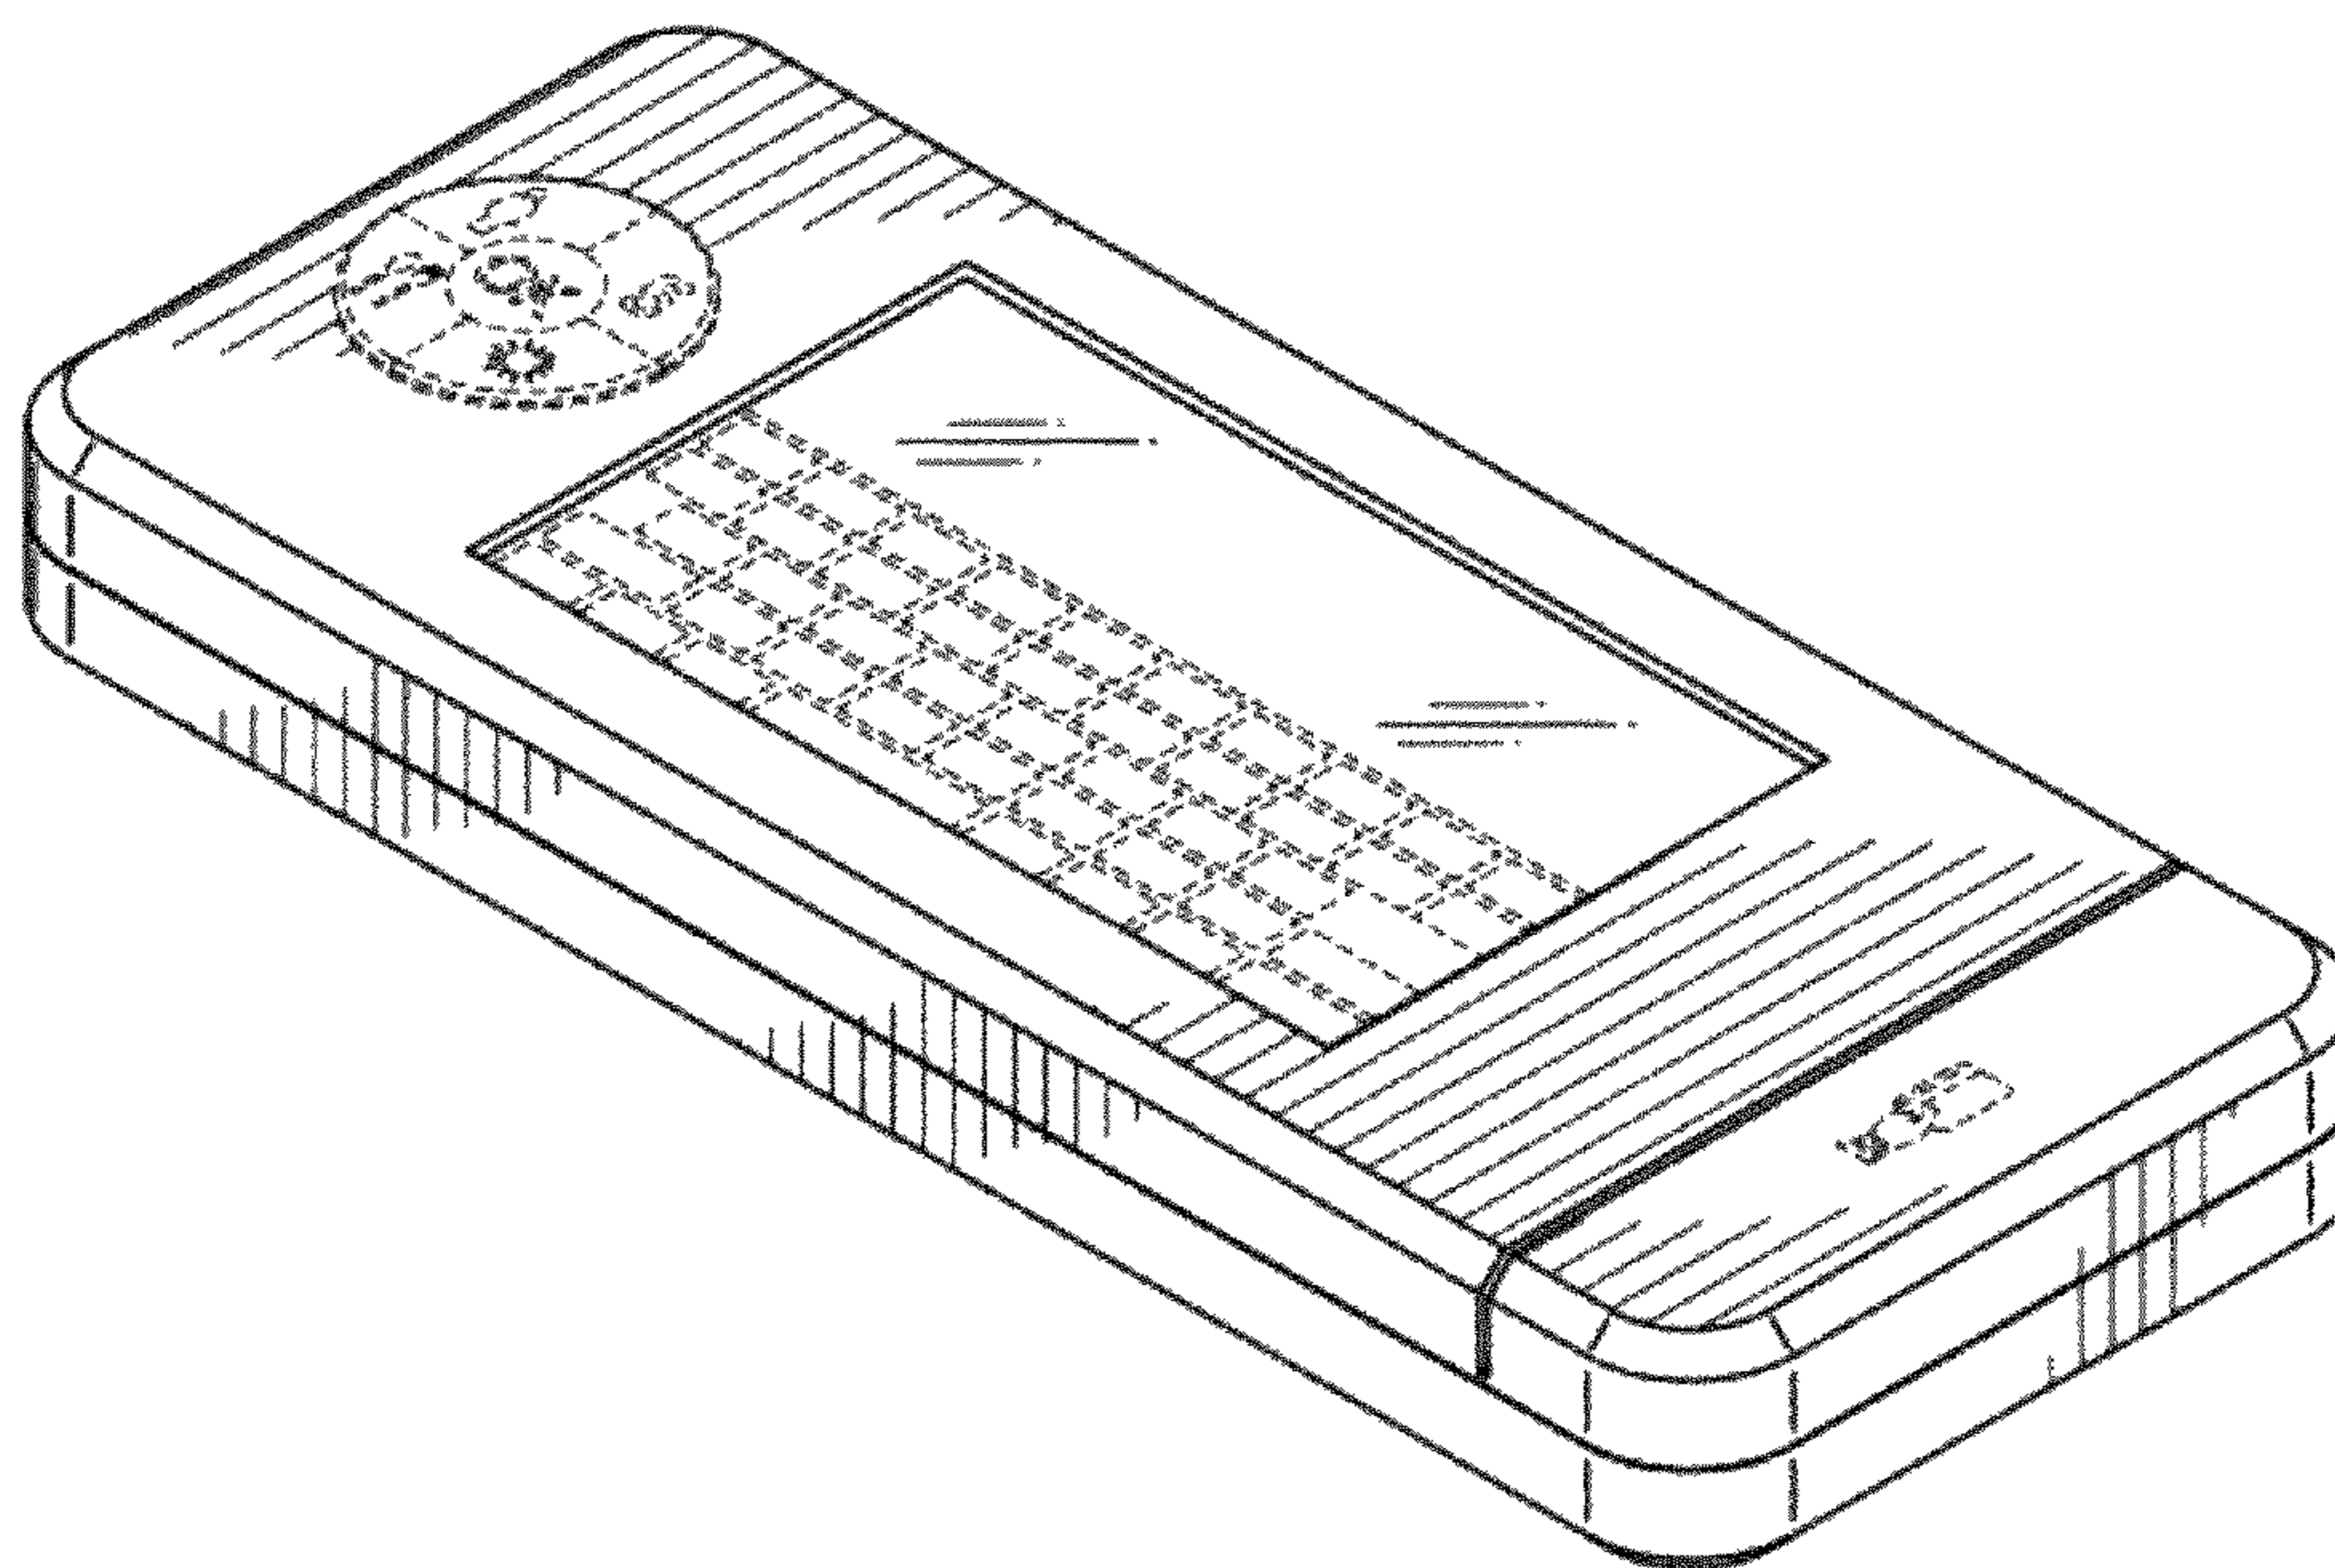

FIG. 4 is a bottom plan view of the combined electronic card reader and input output device.

FIG. 5 is an elevation view of the combined electronic card reader and input output device; and,

FIG. 6 is a side view of the combined electronic card reader and input output device.

The broken lines shown in the drawings represent portions of the combined electronic card reader and input output device that form no part of the claimed design.
