(57) **CLAIM**

The ornamental design for a display screen for a driver feedback device with graphical user interface, as shown and described.

**DESCRIPTION**

The file of this patent contains drawings executed in color. Copies of this patent with color drawings will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a display screen with graphical user interface, showing easing off the gas pedal in a vehicle with an automatic transmission; and,

FIG. 2 is a display screen with graphical user interface, showing easing off the gas pedal in a vehicle with a manual transmission.

The perimeters of the graphical user interface and the underlying display screen of the driver feedback device are understood to be flush.
