(57) **CLAIM**

The ornamental design for an intervertebral body fusion device, as shown and described.

DESCRIPTION

FIG. 1 is a left-side frontal top perspective view of an intervertebral body fusion implant device in accordance with the present invention, a mirror image of which along a vertical reference line would show identical ornamental detail;

FIG. 2 is a left-side top rear perspective view of the intervertebral body fusion implant device of FIG. 1, a mirror image of which along a vertical reference line would show identical ornamental detail;

FIG. 3 is a front view of the intervertebral body fusion implant device of FIG. 1;

FIG. 4 is a rear view of the intervertebral body fusion implant device of FIG. 1;

FIG. 5 is a top view of the intervertebral body fusion implant device of FIG. 1, a bottom view of the intervertebral body fusion implant device being a mirror image thereof; and,

FIG. 6 is a right view of the intervertebral body fusion implant device of FIG. 1, a left side view of the intervertebral body fusion implant device being a mirror image thereof.

The broken line showing is included for the purpose of illustrating environment and forms no part of the claimed design.
