(57) **CLAIM**

We claim the ornamental design for a server information  
handling system interface device, as shown and described.

**DESCRIPTION**

FIG. 1 is a front perspective view of the server information  
handling system interface device in a closed position and  
installed at a server information handling system rack com-  
prising the present invention;

FIG. 2 is a front perspective view thereof and removed from  
the server information handling system rack;

FIG. 3 is a front view thereof;

FIG. 4 is a side view thereof;

FIG. 5 is a back view thereof;

FIG. 6 is a top view thereof;

FIG. 7 is a bottom view thereof; and,

FIG. 8 is a front perspective view thereof in an open position.

Broken lines shown in the drawings illustrate portions of the  
server information handling system interface device, and  
form no part of the claimed design.
