(57) **CLAIM**

The ornamental design for an applicator head, as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of an applicator head embodying our design;

FIG. 2 is a bottom perspective view of the applicator head depicted in FIG. 1;

FIG. 3 is a front elevation view of the applicator head depicted in FIGS. 1 and 2;

FIG. 4 is a side elevation view of the applicator head depicted in FIGS. 1-3, with the opposite side elevation view being a mirror image thereof;

FIG. 5 is a rear elevation view of the applicator head shown in FIGS. 1-4;

FIG. 6 is a top elevation view of the applicator head shown in FIGS. 1-5;

FIG. 7 is a bottom elevation view of the applicator head depicted in FIGS. 1-6;

FIG. 8 is a perspective view of the applicator head similar to FIG. 1, but with the pivotal handle being swung to a different position;

FIG. 9 is a perspective view of the applicator head similar to FIG. 1, but with the material application pad being removed; FIG. 10 is a bottom perspective view of the applicator head as depicted in FIG. 9;

FIG. 11 is a front elevation view of the applicator head as depicted in FIGS. 9 and 10;

FIG. 12 is a side elevation view of the applicator head as depicted in FIGS. 9-11, with the opposite side elevation view being a mirror image thereof;

FIG. 13 is a rear elevation view of the applicator head, as shown in FIGS. 9-12;

FIG. 14 is a top elevation view of the applicator head as shown in FIGS. 9-13; and,

FIG. 15 is a bottom elevation view of the applicator head as depicted in FIGS. 9-14.

The broken lines in the figures depict portions of the applicator that form no part of the claimed design.
