(57) **CLAIM**

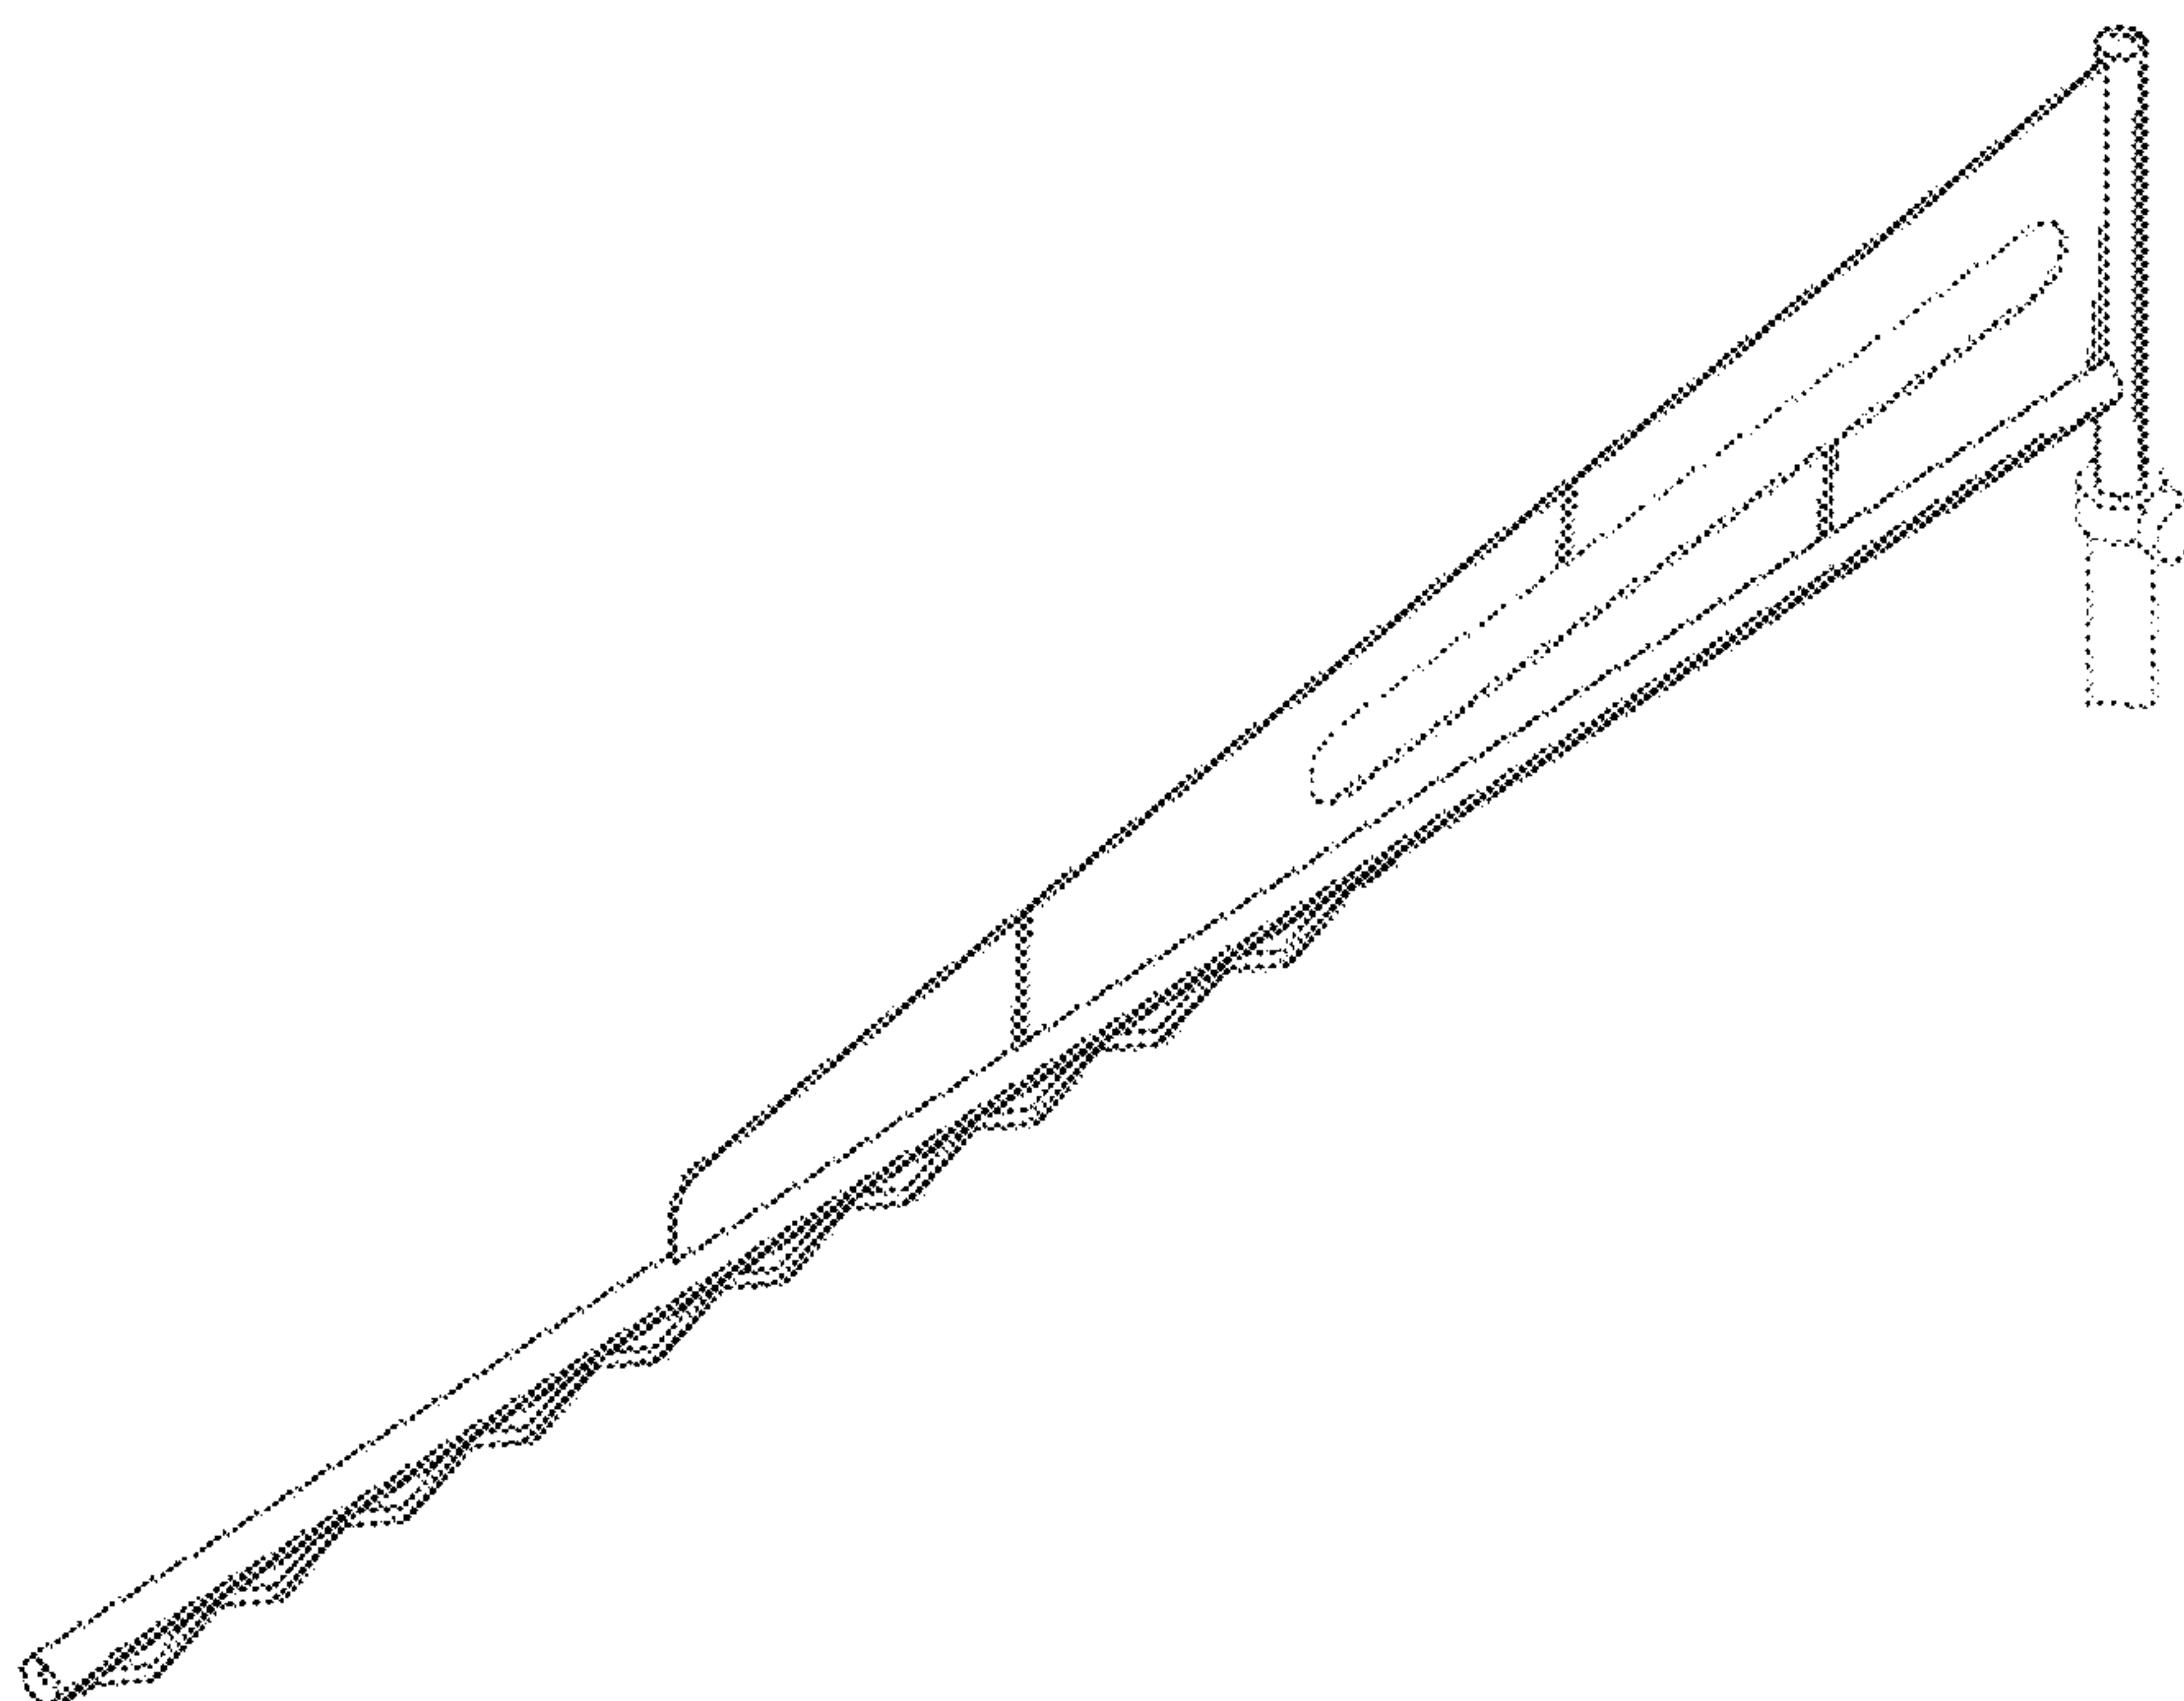

The ornamental design for a support bracket, as shown and described.

DESCRIPTION

FIG. 1 is a top right perspective view of a support bracket.
FIG. 2 is a left side view of the support bracket shown in FIG. 1.
FIG. 3 is a top plan view of the support bracket shown in FIG. 1.
FIG. 4 is a bottom plan view of the support bracket shown in FIG. 1.
FIG. 5 is a rear end view of the support bracket shown in FIG. 1; and,
FIG. 6 is a front end view of the support bracket shown in FIG. 1.

The designations of the views below as top, bottom, right side, left side, front, and rear are for ease of discussion only and are not intended to limit the support bracket to one particular orientation. The support bracket can be oriented in other directions which would alter these designations. The views are not necessarily shown in the same scale, and any change in scale between different views is not intended limit the support bracket to a particular size. In the drawings listed below, a right side view is omitted because it is a mirror-image of the left side view shown in FIG. 2.
