(57) **CLAIM**

The ornamental design for a display panel of an automated teller machine with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an automated teller machine with a display panel showing a graphical user interface.

FIG. 2 is a front view of the automated teller machine of FIG. 1.

FIG. 3 is a rear view of the automated teller machine of FIG. 1.

FIG. 4 is a left side view of the automated teller machine of FIG. 1.

FIG. 5 is a right side view of the automated teller machine of FIG. 1.

FIG. 6 is a top view of the automated teller machine of FIG. 1.

FIG. 7 is a bottom view of the automated teller machine of FIG. 1.

FIG. 8 is the front view of a first image of a graphical user interface for a display panel of the automated teller machine of FIG. 1.

FIG. 9 is the front view of a second image of a graphical user interface for the display panel of the automated teller machine of FIG. 1; and,

FIG. 10 is the front view of a third image of a graphical user interface for the display panel of the automated teller machine of FIG. 1.

The appearance of image transitions sequentially between the images shown in FIGS. 8 through 10. The process or period in which an image transitions to another forms no part of the claimed design.

Portions of the disclosure shown in broken lines form no part of the claimed design.
