(57) **CLAIM**

The ornamental design for a display screen of a medical device with user interface icons, as shown and described.

DESCRIPTION

The single FIGURE is a front elevation view of a display screen of a medical device with user interface icons showing our new design.

The ornamental design which is claimed is shown in solid lines in the drawings. The broken lines showing the outer border of the display screen and the interior features of the user interface icons in the drawings form no part of the claimed design.

1 Claim, 1 Drawing Sheet
