(57) **CLAIM**

I claim the ornamental design for automated external defibril-  
lator, as shown and described.

**DESCRIPTION**

FIG. 1 is a front corner perspective view of an automated  
external defibrillator in a closed lid configuration according  
to the invention.

FIG. 2 is a front elevational view of an automated external  
defibrillator according to the invention.

FIG. 3 is a rear elevational view of an automated external  
defibrillator according to the invention.

FIG. 4 is a right side elevational view of an automated exter-  
nal defibrillator according to the invention.

FIG. 5 is a left side elevational view of an automated external  
defibrillator according to the invention.

FIG. 6 is a top plan view of an automated external defibrillator  
according to the invention.

FIG. 7 is a bottom view of an automated external defibrillator  
according to the invention; and,

FIG. 8 is a front corner perspective view of an automated  
external defibrillator in an open lid configuration according to  
the invention.

The portions of the figures shown in dashed lines are for  
illustrative purposes only and form no part of the claimed  
design.
