(57) **CLAIM**

The ornamental design for the lens for light emitting diode (LED), as shown and described.

DESCRIPTION

FIG. **1** is a top perspective view of a lens for light emitting diode (LED) showing our new design, as installed on a LED light bulb stem;

FIG. **2** is a front view thereof;

FIG. **3** is an enlarged top perspective view of a lens for light emitting diode (LED) showing our new design, with the LED light bulb stem removed;

FIG. **4** is a bottom perspective view thereof;

FIG. **5** is a top plan view thereof;

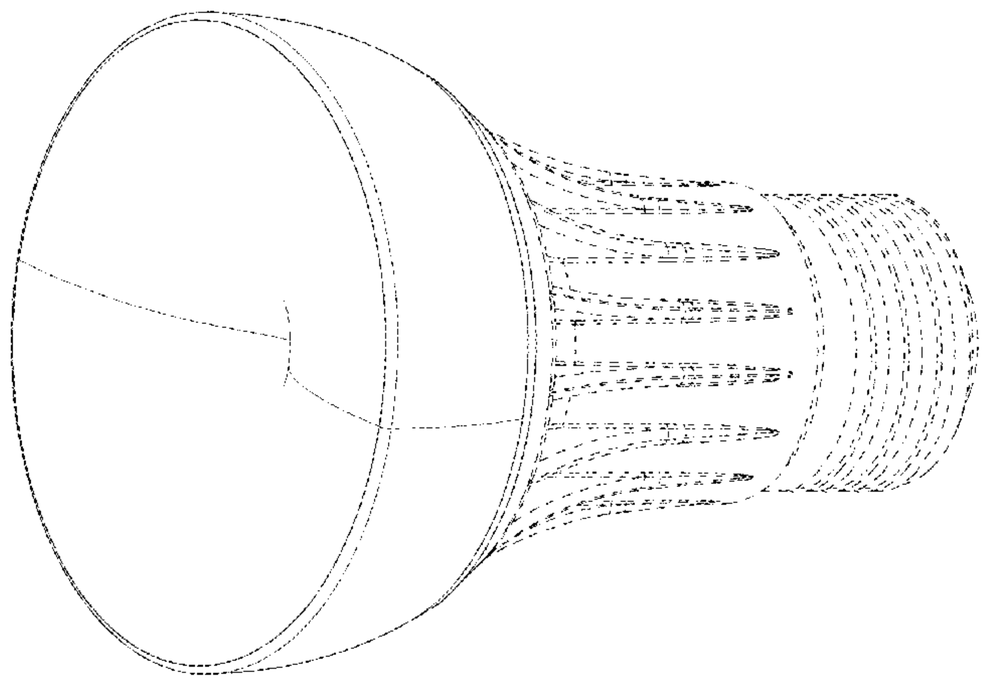

FIG. **6** is a bottom plan view thereof;

FIG. **7** is a front side view thereof;

FIG. **8** is a rear side view thereof;

FIG. **9** is a left side view thereof;

FIG. **10** is a right side view thereof; and,

FIG. **11** is an enlarged vertical sectional view thereof, taken across the center of the lens to illustrate the contour of the top surface of the lens.

The broken lines included in the drawings illustrate a LED light bulb stem that forms no part of the claimed design.
