(57) **CLAIM**

The ornamental design for a flexible luminaire, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a flexible luminaire showing our new design, and showing the flexible luminaire hanging vertically straight;

FIG. 2 is a front plan view thereof;

FIG. 3 is a left side elevational view thereof;

FIG. 4 is a sectional view thereof taken along lines 4-4 in FIG. 1;

FIG. 5 is another sectional view thereof taken along lines 5-5 in FIG. 1;

FIG. 6 is an enlarged fragmentary view thereof taken along lines 6-6 in FIG. 4;

FIG. 7 is an enlarged fragmentary view thereof taken along lines 7-7 in FIG. 5;

FIG. 8 is an enlarged fragmentary view thereof taken along lines 8-8 in FIG. 3;

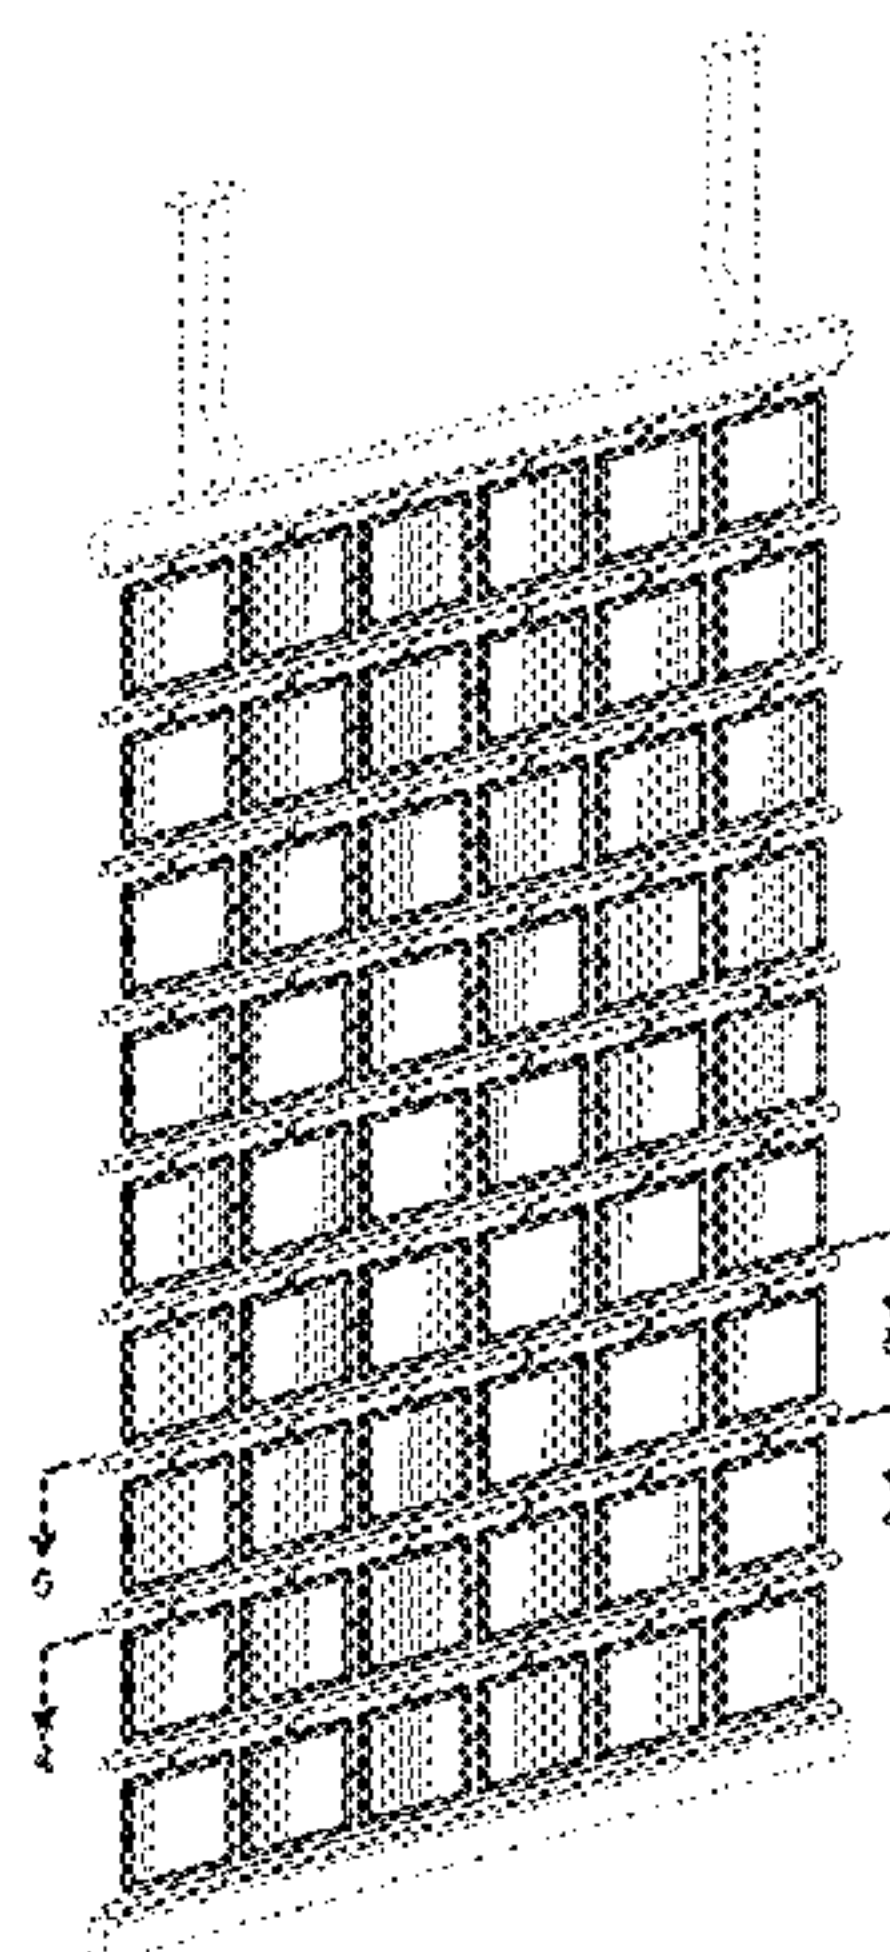

FIG. 9 is another front perspective view thereof, showing the flexible luminaire hanging vertically as in FIG. 1, but with the bottom of the flexible luminaire tied back so that the luminaire extends in a curved plane; and,

FIG. 10 is a further front perspective view thereof, showing the flexible luminaire hanging from both ends from overhead in a horizontal curved plane.

The broken line representation of suspension cables, power cords, end frames and the back of the luminaire are shown for illustrative purposes only and form no part of the claimed design. The back of the flexible luminaire forms no part of the claimed design.

The flexible luminaire of our new design can be of any length.
