(57) **CLAIM**

I claim an ornamental design for a pet waste collector, as shown and described.

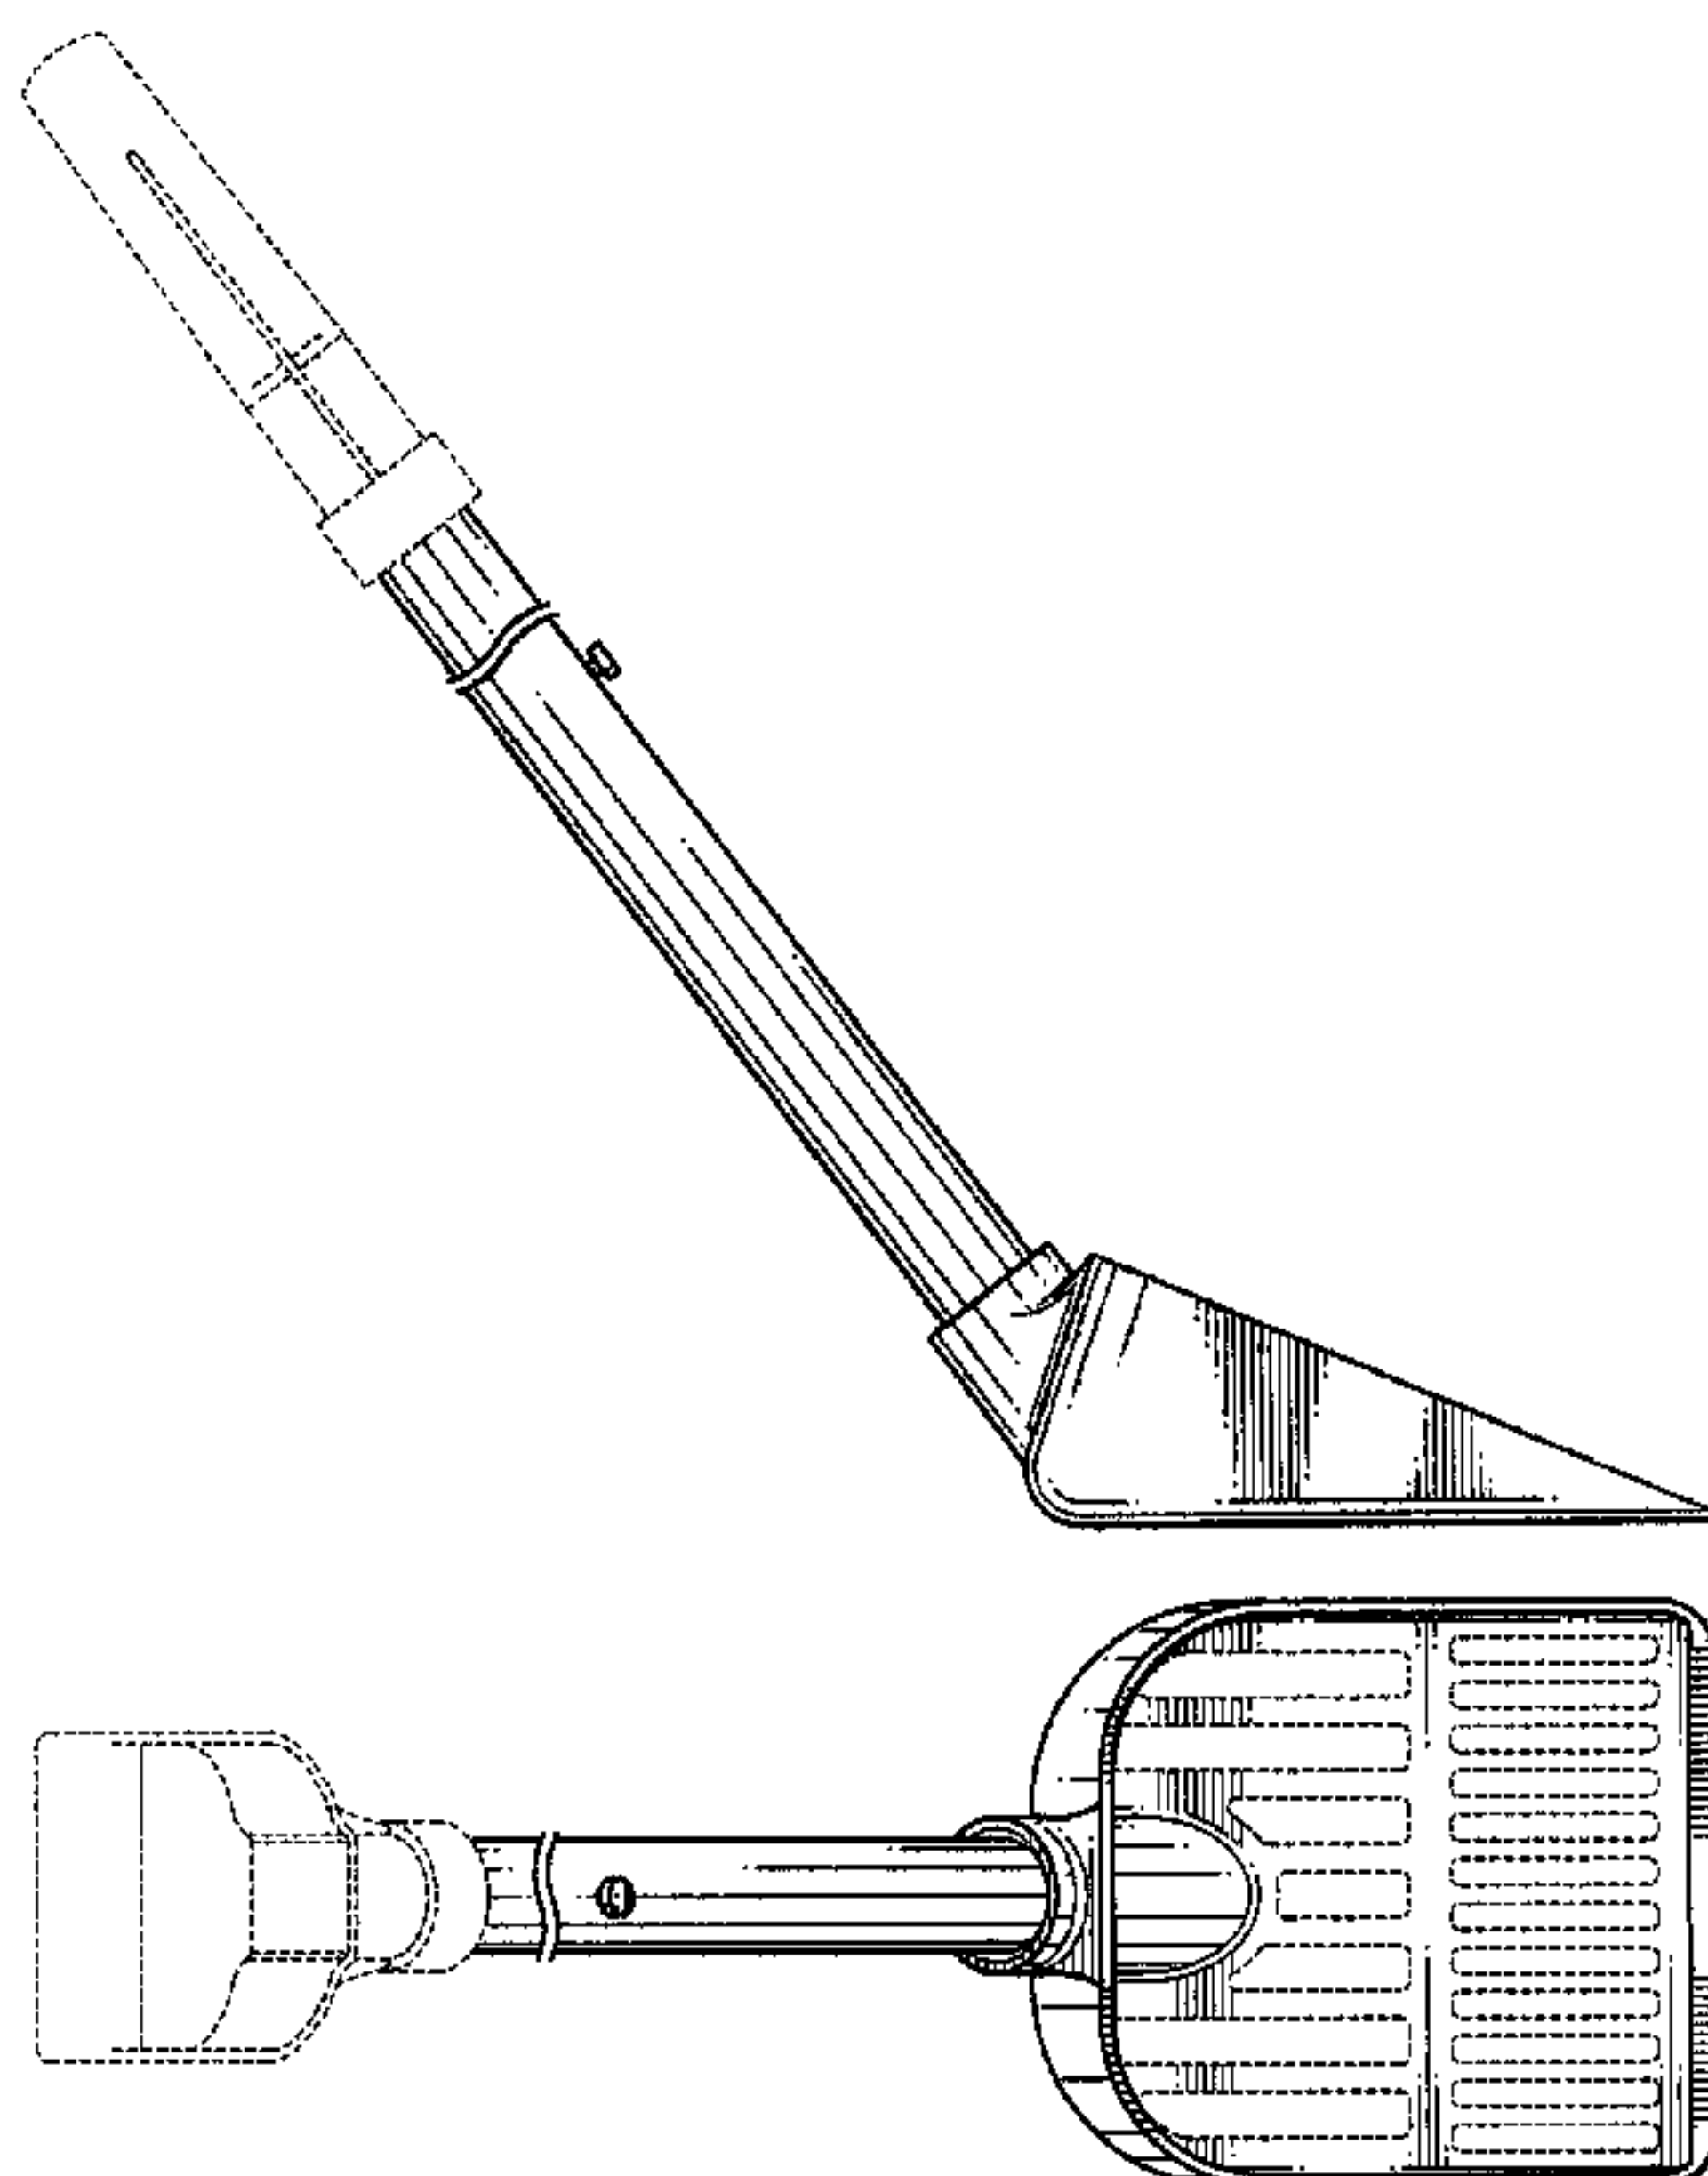

DESCRIPTION

FIG. 1 is a front view of the pet waste collector.
FIG. 2 is a back view of the pet waste collector.
FIG. 3 is a side view of the pet waste collector.
FIG. 4 is a top view of the pet waste collector; and,
FIG. 5 is the bottom view of the pet waste collector.

The handle of the pet waste collector is shown broken in the middle along the length to indicate indeterminate length, with the understanding that the “indeterminate” length portion of the handle not shown forms no part of the claimed design. Patentability is based only on those portions of the article that are shown in solid lines.

The broken lines shown throughout the views are directed to environment and are for illustrative purposes only; the broken lines form no part of the claimed design.
