(57) **CLAIM**  
An ornamental design for a multi-camera head, as shown and described.

**DESCRIPTION**

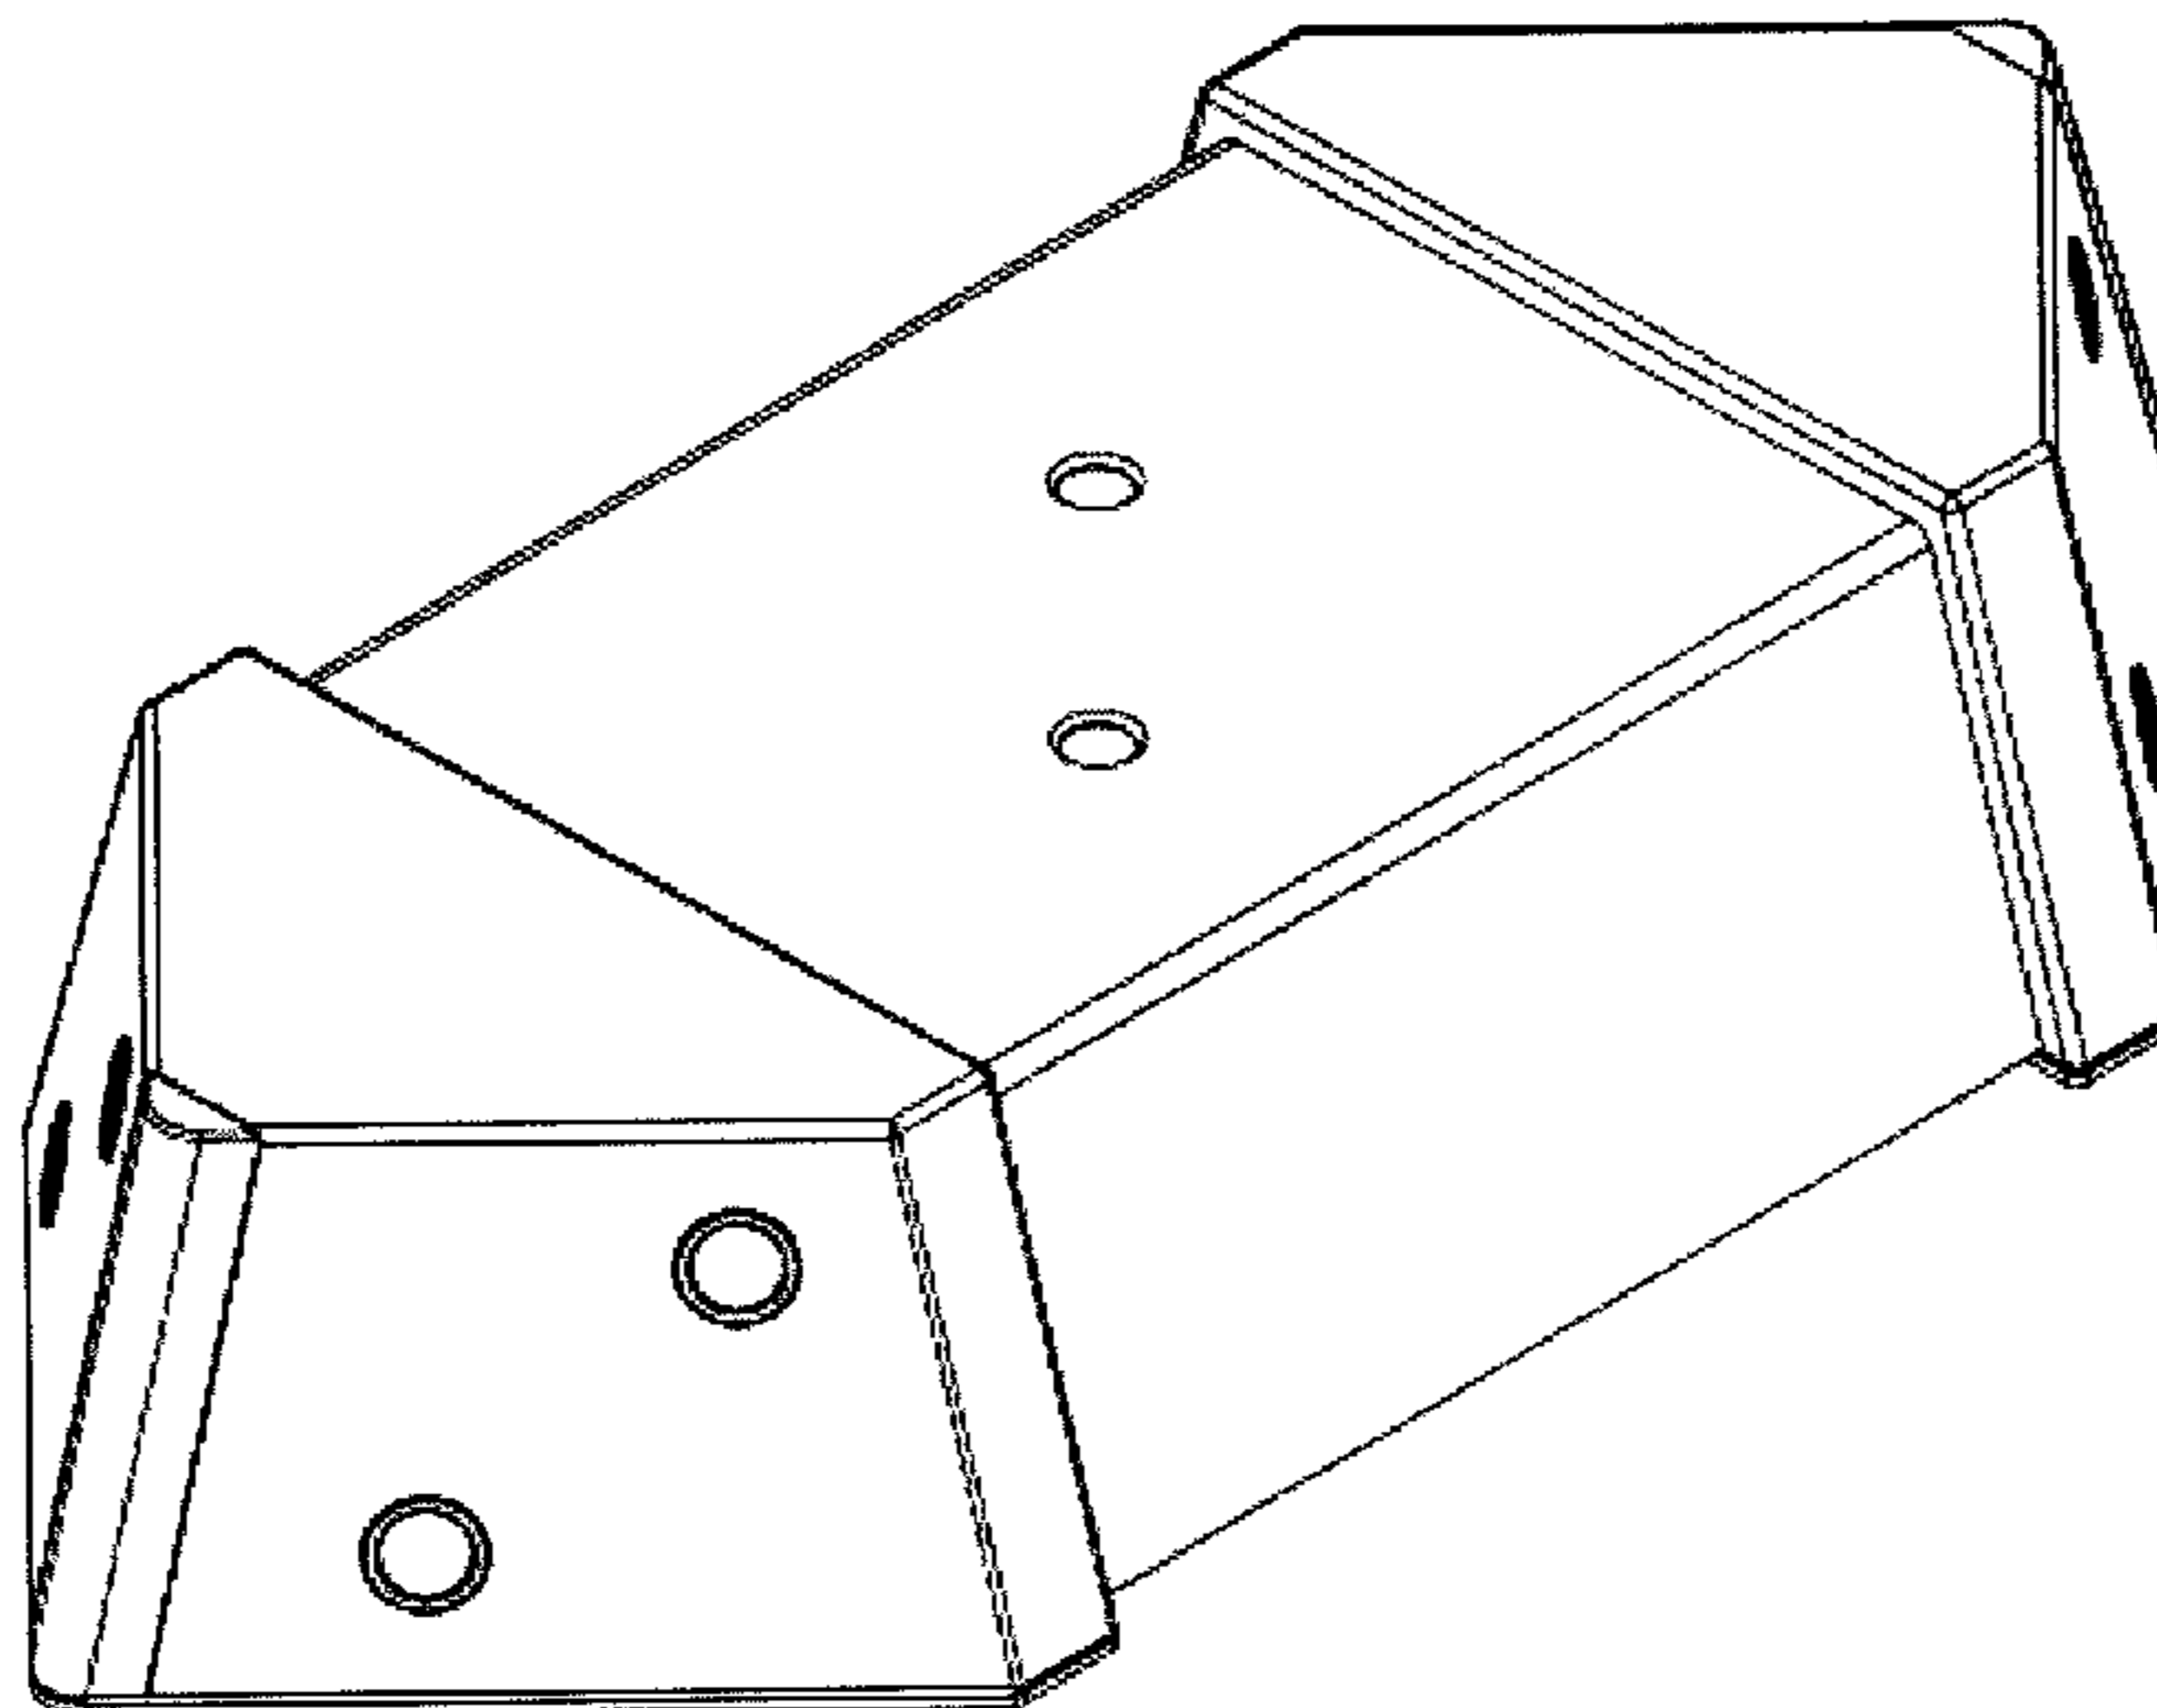

FIG. 1 is a perspective view of a multi-camera head, showing two wedge-shaped camera heads separated by an intermediate body, in accordance with aspects of the present invention; FIG. 2 is a top view of the multi-camera head of FIG. 1, showing a stereo camera, i.e., a pair of cameras, on a top surface of the intermediate body, in accordance with aspects of the present invention; FIG. 3 is a side view of the multi-camera head of FIG. 1, showing one stereo camera on an upright surface of each wedge-shaped head, in accordance with aspects of the present invention; and, FIG. 4 is a front view of the multi-camera head of FIG. 1, showing a stereo camera on each of two upright surfaces of a wedge-shaped head, in accordance with aspects of the present invention.
