(57) **CLAIM**

The ornamental design for a closing device, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of the closing device in the closed position;

FIG. 2 is a rear perspective view of the closing device in the closed position;

FIG. 3 is a front plan view of the closing device in the closed position;

FIG. 4 is a rear plan view of the closing device in the closed position;

FIG. 5 is a side plan view of the closing device in the closed position;

FIG. 6 is a top plan view of the closing device in the closed position;

FIG. 7 is a bottom plan view of the closing device in the closed position;

FIG. 8 is a front perspective view of the closing device in the opened position;

FIG. 9 is a rear perspective view of the closing device in the opened position;

FIG. 10 is a front plan view of the closing device in the opened position;

FIG. 11 is a rear plan view of the closing device in the opened position;

FIG. 12 is a side plan view of the closing device in the opened position;

FIG. 13 is a top plan view of the closing device in the opened position; and,

FIG. 14 is a bottom plan view of the closing device in the opened position.

The broken line showing the underside of the closing device depicts environmental subject matter only and forms no part of the claimed design.
