(57) **CLAIM**

The ornamental design for an electric generator, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of an electric generator according to the present invention.

FIG. 2 is a rear view thereof.

FIG. 3 is a first side view thereof.

FIG. 4 is a second side view thereof.

FIG. 5 is a top view thereof.

FIG. 6 is a bottom view thereof.

FIG. 7 is a first isometric view thereof.

FIG. 8 is a second isometric view thereof.

FIG. 9 is the front view of the electrical generator according to FIG. 1 without the cover plate.

FIG. 10 is the rear view of the electrical generator according to FIG. 2 without the cover plate.

FIG. 11 is the first side view of the electrical generator according to FIG. 3 without the cover plate.

FIG. 12 is the second side view of the electrical generator according to FIG. 4 without the cover plate.

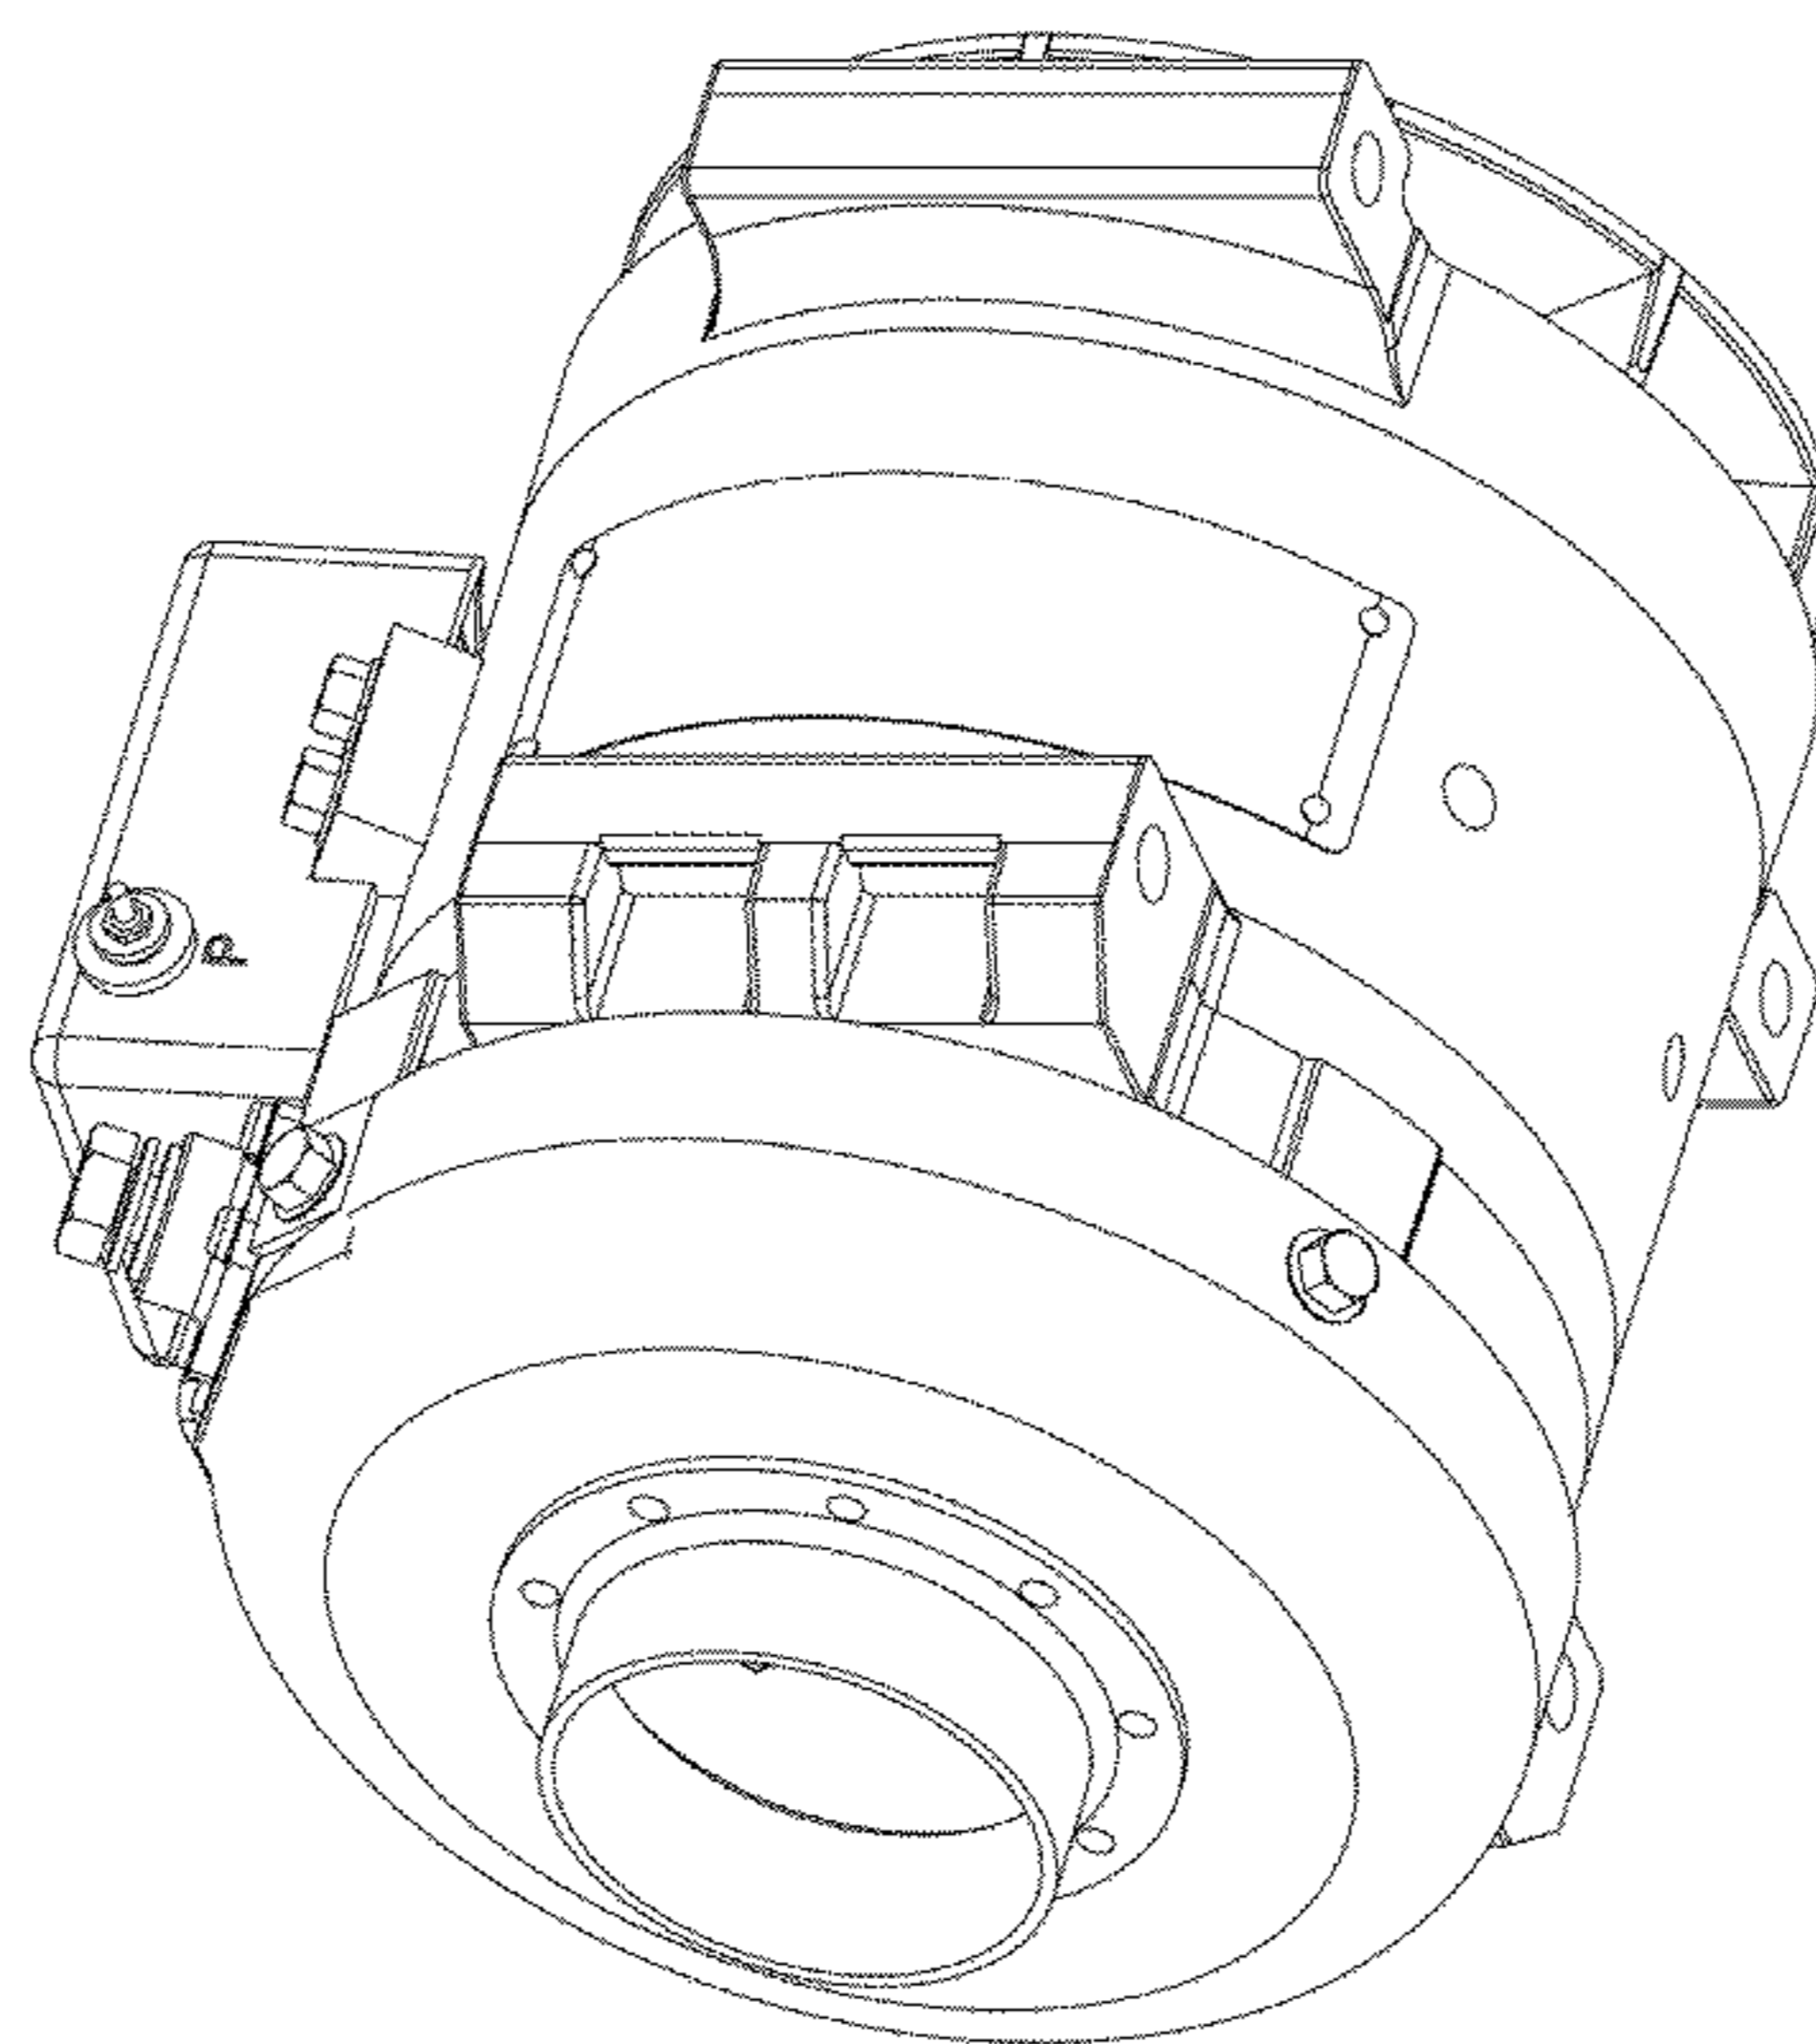

FIG. 13 is the top view of the electrical generator according to FIG. 5 without the cover plate.

FIG. 14 is the bottom view of the electrical generator according to FIG. 6 without the cover plate.

FIG. 15 is the first isometric view of the electrical generator according to FIG. 7, including a rotation, without the cover plate; and,

FIG. 16 is the second isometric view of the electrical generator according to FIG. 8, including a rotation, without the cover plate.
