(57) **CLAIM**

The ornamental design for a color-changing table-top mood lamp, utilizing light emitting diodes, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the color-changing, table-top mood lamp, utilizing light emitting diodes, showing the new design. This figure also shows the optional product brand name logo, which may or may not be included in the design. The basic form of the design is that of a toroid, with flattened bottom. The light emitting diodes are shown on the underside of the upper portion of the toroid.

FIG. 2 is an end view thereof.

FIG. 3 is a side view thereof.

FIG. 4 is a top view thereof.

FIG. 5 is a bottom view thereof. The broken lines illustrate unclaimed structure.

FIG. 6 is another perspective view of the design, showing the bottom of the mood lamp, as well as the area of the light emitting diodes; and,

FIGS. 7 through 10 are additional perspective views thereof, illustrating how the area of the light emitting diodes (the "handle" of the mood lamp) may be tilted at a variety of angles.

The light lines in the perspective view of FIG. 1, and FIGS. 6-10, are intended to show the surface contours of the color-changing, table-top mood lamp.

For information purposes, the unclaimed structure illustrated with broken lines in FIG. 5 is a recessed connector for an external AC-to-DC power supply.
