(57) **CLAIM**

The ornamental design for a pivoting power and data center, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the pivoting power and data center showing our new design with both power and data carriages raised and facing opposite directions, taken from above and to the left side;

FIG. 2 is another perspective view of the pivoting power and data center of FIG. 1, taken from above and to the right side;

FIG. 3 is a left side elevation of the pivoting power and data center of FIG. 1;

FIG. 4 is a right side elevation of the pivoting power and data center of FIG. 1;

FIG. 5 is a front end elevation of the pivoting power and data center of FIG. 1;

FIG. 6 is a rear end elevation of the pivoting power and data center of FIG. 1;

FIG. 7 is a top plan view of the pivoting power and data center of FIG. 1;

FIG. 8 is a bottom plan view of the pivoting power and data center of FIG. 1;

FIG. 9 is another perspective view of the pivoting power and data center of FIG. 1, shown with both power and data carriages lowered, taken from above and to the left side;

FIG. 10 is another perspective view of the pivoting power and data center of FIG. 1, shown with one power and data carriage raised and the other power and data carriage lowered, taken from above and to the left side;

FIG. 11 is a perspective view of another pivoting power and data center showing our new design with both power and data carriages raised and facing the same direction, taken from above and to the left side; and,

FIG. 12 is a perspective view of another pivoting power and data center of FIG. 11, taken from above and to the right side. The broken lines are included for the purpose of illustrating portions of the pivoting power and data center that form no part of the claimed design.
