FIG. 1 is a bottom perspective view of a reinforced-ring container for beverage making-products of the present invention;

FIG. 2 is a side elevation view thereof, with the opposite side being a mirror image thereto; and,

FIG. 3 is a bottom plan view thereof.

The top is not shown, as it forms no part of the claimed design. The oblong shapes along the sides of the design are intended to convey the tapering, soft-conical shape of the soft-fabric region below the ring, and do not claim specific regular hard shapes.
