(57) CLAIM

The ornamental design for a bottle, as shown and described.

DESCRIPTION

FIG. 1 is front plan view of the bottle according to a first embodiment of the present invention.

FIG. 2 is top plan view of the bottle according to a first embodiment of the present invention.

FIG. 3 is the perspective view of the bottle according to a first embodiment of the present invention.

FIG. 4 is the perspective view of the bottle cap according to a first embodiment of the present invention.

FIG. 5 is front plan view of the bottle according to a second embodiment of the present invention.

FIG. 6 is top plan view of the bottle according to a second embodiment of the present invention.

FIG. 7 is the perspective view of the bottle according to a second embodiment of the present invention.

FIG. 8 is a top plan view of the bottle according to a second embodiment of the present invention with the cap removed.

FIG. 9 is front plan view of the bottle according to a third embodiment of the present invention.

FIG. 10 is top plan view of the bottle according to a third embodiment of the present invention.

FIG. 11 is the perspective view of the bottle according to a third embodiment of the present invention.

FIG. 12 is the perspective view of the bottle cap according to a third embodiment of the present invention.

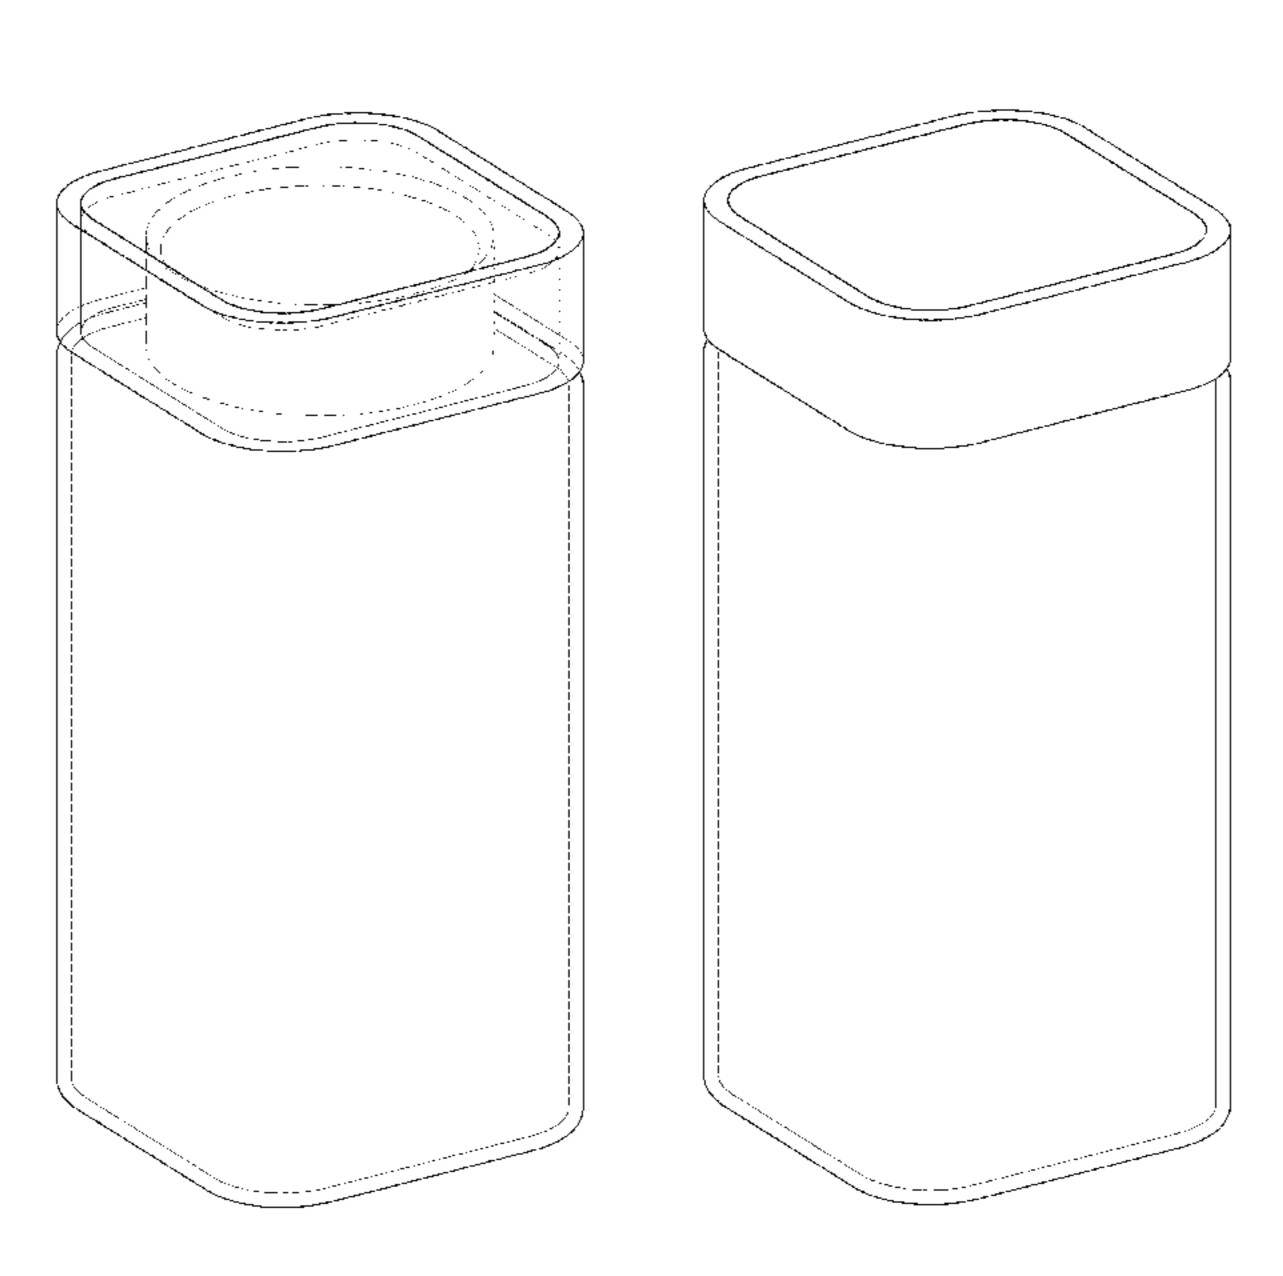

FIG. 13 is front plan view of the bottle according to a fourth embodiment of the present invention.

FIG. 14 is top plan view of the bottle according to a fourth embodiment of the present invention.

FIG. 15 is the perspective view of the bottle according to a fourth embodiment of the present invention; and,

FIG. 16 is a top plan view of the bottle according to a fourth embodiment of the present invention with the cap removed. Portions of the bottle shown in broken lines form no part of the claimed design.
