Edwards Neils PLLC(57) **CLAIM**

The ornamental design for a display screen for a digital camera, as shown and described.

DESCRIPTION

FIG. 1 is a first image of a display screen for a digital camera showing my new design;

FIG. 2 is a second image thereof;

FIG. 3 is a third image thereof; and,

FIG. 4 is a fourth image thereof.

The appearance of each image sequentially transitions between the images shown in FIGS. 1 to 4. The process or period in which one image transitions to another image forms no part of the claimed design.

The claimed portion of the display screen for digital camera includes a larger rectangle showing an imaging area and a small rectangle showing an auto-focusing area and crosses showing area points each allowing the auto-focusing area to be set.

The broken lines in the drawing represent portions of the display screen for a digital camera that form no part of the claimed design.
