(57) **CLAIM**

The ornamental design for eyewear, as shown and described.

FIG. 1 is a top left perspective view of eyewear according to a first representative embodiment of the present invention.

FIG. 2 is a left side elevational view of the eyewear, with the right side elevational view being a mirror image of the left side elevational view, according to the first representative embodiment.

FIG. 3 is a top plan view of the eyewear, according to the first representative embodiment.

FIG. 4 is a front elevational view of the eyewear, according to the first representative embodiment.

FIG. 5 is a bottom plan view of the eyewear, according to the first representative embodiment.

FIG. 6 is a rear elevational view of the eyewear, according to the first representative embodiment.

FIG. 7 is a top left perspective view of eyewear according to a second representative embodiment of the present invention.

FIG. 8 is a left side elevational view of the eyewear, with the right side elevational view being a mirror image of the left side elevational view, according to the second representative embodiment.

FIG. 9 is a top plan view of the eyewear, according to the second representative embodiment.

FIG. 10 is a front elevational view of the eyewear, according to the second representative embodiment.

FIG. 11 is a bottom plan view of the eyewear, according to the second representative embodiment; and,

FIG. 12 is a rear elevational view of the eyewear, according to the second representative embodiment.

The portions shown in broken lines are solely for the purpose of illustrating context and form no part of the claimed design.
