(57) **CLAIM**

The ornamental design for a medical radiography system, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a medical radiography system; FIG. 2 is a front view of the medical radiography system of FIG. 1;

FIG. 3 is a rear view of the medical radiography system of FIG. 1;

FIG. 4 is a left-side view of the medical radiography system of FIG. 1;

FIG. 5 is right-side view of the medical radiography system of FIG. 1;

FIG. 6 is a top plan view of the medical radiography system of FIG. 1

FIG. 7 is a bottom plan view of the medical radiography system of FIG. 1;

FIG. 8 is right-side view of the medical radiography system of FIG. 1, in which a detector panel of the medical radiography system is shown in a lower position than that shown in FIG. 5 as an example design aspect;

FIG. 9 is right-side view of the medical radiography system of FIG. 1, in which the detector panel of the medical radiography system shown in the lower position as shown in FIG. 8 is further shown tilted at an angle as an example design aspect; and,

FIG. 10 is a perspective view of the medical radiography system of FIG. 1, in which the detector panel of the medical radiography system is shown perpendicular with respect to a beam of the medical radiography system as an example design aspect.

Features shown in evenly spaced broken lines in FIGS. 1-10 form no part of the claimed design.
