(57) **CLAIM**

I claim the ornamental design of a divot tool, as shown and described herein.

DESCRIPTION

Portions of the disclosure of this patent document contain material that is subject to copyright protection. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure as it appears in the Patent and Trademark Office file or records, but otherwise reserves all copyright rights whatsoever.

FIG. 1 illustrates a perspective top view of a divot tool according to the new design. The divot tool has a fork in a retracted position.

FIG. 2 illustrates a bottom view of the divot tool according to the new design. The fork is in a retracted position.

FIG. 3 is a side view of the divot tool according to the new design. The fork is in a retracted position.

FIG. 4 is a front view of the divot tool according to the new design. The fork is in a retracted position.

FIG. 5 shows a top perspective view of the same divot tool according to the new design. The fork is in an extended position.

FIG. 6 shows a side view of the same divot tool according to the new design. The fork is in an extended position.

FIG. 7 shows a bottom view of the same divot tool according to the new design. The fork is in an extended position; and,

FIG. 8 shows a back view of the divot tool according to the new design.
